

Children Cry for Fletcher's

## CASTORIA

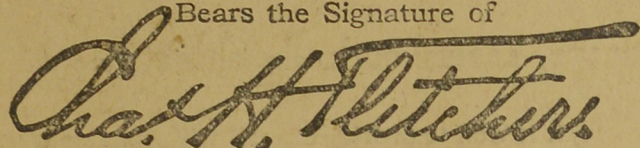

The Kind You Have Always Bought, and which has been in use for over thirty years, has borne the signature of and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

## What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

How do guns manage to kick without feet or legs? They kick with their breeches.

When a fond parent sees a boy walk through a gateway instead of climbing the fence, he is worried for fear the lad isn't quite himself.

OF INTEREST  
TO WOMEN

MAKE IT OVER

You Must Have an Evening Gown in Your Wardrobe This Winter.

The social season looks brighter this year than it did last, and now that the war is over dances and parties of all kinds are being planned with much enthusiasm. The little war workers are glad to get out of their uniforms for a few hours and enjoy themselves in a frivolous dance frock.

Evening gowns are again coming into vogue, and no winter wardrobe will be complete without at least one dance dress. It need not be new for some clever dresses have been made over from other frocks.

Every girl loves a black evening gown, and one can easily be fashioned from an old satin afternoon gown. All drapery and other trimming should first be removed and the blouse cut off at the bust line.

To attain the fashionably slim silhouette, the satin skirt is made narrower. The satin part is used as a foundation for the evening dress. Over it is a tulle which droops gracefully in points at the sides. Silk tulle embroidered in glittering jet is the material and proves unusually effective.

This tulle may be purchased ready embroidered if desired. Some exquisite designs also are offered this season in metal tissue, although most women find the glittering jet more attractive.

To remodel the bodice of the dress, fit it in snugly to the figure, and over it drape some black tulle. Straps of jet over the shoulders are smart and tiny puff sleeves may be set in. Long tulle sleeves flared at the wrist and banded with jet, are appreciated by the woman with slender arms. A flaring scarlet poinsetta pinned at the bodice lends a striking note to this sombre costume.

No girl need deny herself a pretty dance frock this season, when she considers how simply the newest models are fashioned.

## HERE AND THERE.

The close fitting bodice is smart. Circular metal buckles are used for the new cloth belts.

Some suit cuffs are flaring and fasten with a single large button.

White organdie ruffles finish the bottoms of pretty sleeves.

Heavy tassels are attractive on the new handbags.

The monk's collar is still seen on smart costumes.

## AID FOR MRS. NEWLYWED.

"How can I keep celery nice and crisp?" asked Mrs. Newlywed.

"Prepare it just as if you were going to serve it at the table, then wet a piece of old linen in very cold water, wrap the celery in it and put it in a cool place. It will keep for days," advised Mrs. Neighbor.

## FOR BILINGUAL INSCRIPTIONS.

Movement to Have Two Languages on Canadian Coins.

Quebec Jan. 4.—The Levis Board of Trade yesterday endorsed the Board of Trade of the city of Three Rivers, which recently requested the Federal government to put bilingual inscriptions on the new Canadian coins that are to be issued shortly.

MINARD'S  
"KING OF PAIN"  
LINIMENT

The old reliable remedy for rheumatism, neuralgia, sore throat and sprains.

## Best Liniment Made

MR. A. E. LAUNDY, EDMONTON, writes: "I fell from a building and received what the doctor called a 'bad sprained ankle, and told me I was not to walk on it for two weeks. I used MINARD'S LINIMENT and in six days I was out to work again. I think it the best liniment made."

Minard's Liniment always gives satisfaction. For any ache or pain it gives instant relief.

Yarmouth, N.S.

WAR SAVINGS  
STAMPS GOOD  
INVESTMENT

Make Saving Easy and Pay the Investor Over 4½ per cent Interest, Compounded Half-yearly.

The paying of \$4 now for a War Savings Stamp and getting \$5 for it from the government in January, 1924, is a method of investing that appeals quite strongly to the average person. Nor is this surprising, for the money thus invested yields a little over 4½ per cent., compounded half-yearly. With a War Savings Stamp goes a War Savings Certificate to which the stamps are attached.

Obviously this is an excellent return when the nature of the security is taken into account. There is nothing safer in the world than Canada, and these stamps are backed by all the resources of the Dominion.

A person does not need to have \$4 in cash in order to take the first steps towards purchasing a War Savings Stamp. Thrift Stamps, which sell at 25 cents each, have been provided. When 16 of these have been purchased they may be exchanged for a War Savings Stamp. With the first Thrift Stamp purchased goes a Thrift Card, to which the Stamps should be fixed as soon as received.

After the 16 Thrift Stamps have been exchanged for a War Savings Stamp, the person doing so should start in again to buy Thrift Stamps, and thus begin saving for the second War Savings Stamp.

## PRESIDENT CALLED ON POPE.

President Wilson was today received at the Vatican by Pope Benedict. The President's arrival was announced by the Master of the Chamber to the Pope, who awaited the President in the throne room, where two gilded armchairs had been placed. The President was admitted immediately to the presence of the Pope, who was gowned in white.

Can the scarcity of calendars this year be attributed to daylight saving?

A man makes a virtue of a necessity when he prides himself on being perfectly devoted to a wife who is so watchful that he never gets a chance to be anything else.

Died of  
Starvation

Many a Belgian mother could have these words engraved on her child's gravestone—"Died of Starvation".

Perhaps the child has wasted away with Consumption, or has been twisted into a mockery of happy childhood by Rickets, but starvation is at the root of the tragedy.

What else can be expected for a growing child whose daily ration is the bowl of soup and two pieces of bread provided by the United States loans to the Belgian Government?

The only hope for the destitute children of Belgium is that we who can afford three meals a day will be moved to pity and send help immediately. Even a small contribution will help to take some child, sinking under its load of trouble, over to Holland, where with good milk, nutritious food, medical care and loving treatment, he or she may regain health, strength and the wish to live.

GIVE—give until you feel the pinch! Don't wait until someone asks you personally. THIS is personal!

Make cheques payable and send contributions to

RULES FOR THE AVOIDANCE OF  
INFLUENZA AND CARE OF THE SICK

1. Live as much as possible in the open air, and have houses well ventilated. Admit all the sunlight possible.

2. Avoid all indoor assemblies, and travel as infrequently as possible.

3. If the disease appears in the family, put the patient at once to bed, preferably in an upper room, well aired, but so that the patient be not in a draft.

4. Keep patient by himself, permitting only the nursing attendant, the doctor and the clergyman to see him.

5. Have whoever enters the room to wear a mask of simple gauze over the mouth and nose. The same gauze should not be used for more than two hours, and then burned.

6. Insist upon the patient using a handkerchief to cover coughing or sneezing (paper ones will do); these should be burned at once after use.

7. Do not permit patient to mingle with his family or the public until a fever is gone, and until all discharges from mouth, nose and throat have dried up.

8. Patient, after recovery, should take particular care to avoid exposure to chills and dampness, as pneumonia is quite frequent under these circumstances and constitutes the gravest danger connected with the disease. Remain in house three or four days after feeling well, as this is a critical period after recovery.

9. Call a doctor upon the occurrence of suspicious symptoms as unusual backache, headache, chills followed by fever, etc., as it is dangerous to depend upon household treatment in this disease.

10. Do not be over-anxious. That is

do not worry respecting the danger of contracting the disease. Such worry serves no good purpose and sometimes renders one more liable to contract it. Follow the above preventive measures and the advice of the physician.

11. If, in the family affected, there be no suitable provision for proper isolation of the patient, it is strongly recommended that he be removed to some hospital, or other place temporarily established, for the proper isolation and care of those affected.

## TO PROVIDE HUSBANDS.

London, Jan. 4.—The town council of Petrograd, according to an Exchange Telegraph despatch from Copenhagen, has decided that all unmarried women between the ages of 18 and 45 shall be provided with husbands selected by the council. The children of these unions, it is added, will not be allowed to remain with their parents, but will be educated under the control of the Soviet government.

**Wood's Peppermint Cure.**  
The Great English Remedy.
