MONDAY, JANUARY 5, 1920

A GREAT INDUSTRY.

The pulp and paper industry of Canada, although not pap fed, as some other industries are, seems to be enjoying wonderful prosperity at the present time. The demand for paper during the year just ended was world-wide and took about 85 per cent. of the production of the Canadian mills. The real development in the pulp and paper trade began in the year 1911, when a reciprocal arrangement was made with the government of the United States.

The total value of chemical pulp exported to the United States in 1911 was \$1,308,101. For the year 1914 the total was \$2,925,083, while for 1919 it reached the enormous sum of \$30,226,856. The total exports of mechanical pulp in 1911 was \$4,407,431. In 1917 it amounted to \$6,371,133, while last year it fell off to \$4,479,915.

In 1911 Canada exported paper to the United States to the value of \$1,308,191. In 1914 the value of paper exports was \$2,923,083, while last year it reached the enormous total of \$30,226,856. The big export trade in pulp and paper explains why lumber lands in New Brunswick have taken on such an enhanced value in recent years. It also accounts to some extent for the increased price which householders are now compelled to pay for stove and furnace wood.

Canada's forest lands are likely to become more valuable each year, and it is of great importance that every effort should be directed to properly conserve our lumber resources. It is gratifying to know that in New Brunswick this important phase of the industry is not being overlooked by the Department of Lands and Mines. With this object in view, much important legislation has been enacted during the last three years by the provincial government, and our system of caring for the crown lands is working out so satisfactorily that the great province of Ontario has decided to copy it.

LOOKING FOR INDUSTRIES.

The Industrial Commissioner of Hull, P. Q., which seems to be in the race for new industries, is now publishing a large advertisement in Upper Province newspapers in which he gives out the following information in regard to the advantages offered in regard to the advantages offered by his city:

Hydro-electric power as low as \$12 per h. p. per year.

Plenty of labor (population 200,000 within two and a half miles).

Low fixed assessment on land for 15 years.

Low tax rate.

Tax exemption for 15 years on improvements.

Cheap factory sites including waterfront sites with private power development privileges.

Shipping facilities over 11 steam railway lines and by river and canal to the seaboard and great lakes.

Hull is growing; it is healthy—a fine place to live in as well as to work in. It enjoys remarkable freedom from labor troubles. No city is better located for convenience of transport by rail or water to all points of the compass. Let us tell you the story of Hull's increased industrial prosperity. It will interest every manufacturer.

Hull is now considered one of the greatest industrial centres in Quebec, but its people evidently believe in reaching out for more.

Sir Robert Borden has gone on an extended holiday trip to the Sunny South, and the veteran Sir George Foster, as senior Privy Councillor, has been left in charge of the ship of state. Parliament will meet late in February and there are likely to be lively times. While all sincerely hope that Sir Robert will return with his health completely restored, it seems to be generally believed that he will abandon the Premiership and get out of politics just as soon as a favorable opportunity presents itself.

The authorities in the United States are making a big drive on Reds and I. W. W. agitators, and another shipload or two of them will soon depart from Ellis Island. A lot of foreign ignorance and vice has found its way into the United States in the last thirty years and they have been having a high old time of it denouncing capitalists and raving against law and order. As they have been going about

of late advocating Bolshevism, the American authorities are acting wisely in presenting them with one-way tickets to Russia, where they may enjoy Bolshevik rule to their hearts' content.

Mr. R. W. E. Bunaby, noted Holstein breeder of North York, Ont., and a native of New Brunswick, has been elected president of the U. F. O. in Ontario. Mr. Bunaby removed to Toronto from this province some years ago and amassed wealth in the insurance business before going back to the land.

Bank clearings in Canada for the year 1919 totalled \$16,709,598,896, an increase of three billion dollars over the previous year.

THROUGH OUR SIEVE

Some men even like to brag about what they owe.

"Make the Dollar Work," says a headline. What! in its present weakened state?

It would be a sad old world if a mouse were able to realize just how much a woman fears it.

All the clerks in the stores love a shopper—after the shoppers have finished shopping.

An Italian scientist says a dog wags its tail for conversational purposes. That makes Fido a sort of wig-wag specialist—but he should study the Mors code.

There are sixty miles of wine cellars beneath Epemay and Rheims, and there are some thirsty men in this country who would be willing to traverse the whole distance.

The Kaiser says the Allies dare not touch him. His statement might have some weight if he had not previously said that the Allies could not lick him.

Some brides object to the inclusion of the word "obey" in the marriage service and some do not. Others ratify its retention with mental reservations. The results are the same.

When told that proportionately there were twice as many criminals among bachelors as among married men, Hazel Knutt said she supposed it was because a married man used up all his deviltry thinking out ways to annoy his wife.

Going to Florida.

Mrs. Jas. McLeod, who resides with her daughter, Mrs. F. T. Thomas, Waterloo Row, will leave on Wednesday for Florida to spend the remainder of the winter.

School Re-opening.

The public schools of the city opened this morning with a large attendance of pupils. A new department opened at Charlotte Street School under Miss Helen Young, daughter of the Methodist pastor. Lectures will be resumed at the U. N. B. tomorrow and Normal School will also re-open. At the latter school a number of old students are returning for advance of class.

Bought House in Boston

Lieut.-Col. P. A. Guthrie is making good in Boston and has decided to make that city his permanent abode. A few days ago he completed the purchase of a nice residence in a suburban district and will take possession at once. Mr. Andrew Addie, who induced the colonel to locate in Boston, is a multi-millionaire.

Undecided About Rebuilding

Mrs. D. M. Richards, owner of the Gem Theatre which was destroyed by fire recently, is still undecided whether she will rebuild on the same site. The tearing down of the portion of the ruined walls which caused danger to pedestrians, has begun. Part of the iron work has been removed as well as the metal coping over the main entrance.

Late Mrs. Ernest Powers

The body of the late Mrs. Ernest Powers arrived on Saturday from Boston where her death occurred a few days ago. The husband of the deceased accompanied the body. The funeral took place from the C. P. R. station Very Rev. Dean Neales conducting the service at the grave. Interment was made at the Rural Cemetery. The deceased was a daughter of the late Col. John L. Marsh of Fredericton.

Certificates Presented

At the George Street Baptist Church yesterday morning a special service was held for the Young 'Worshippers' League which was started in that church about two months ago. Certificates were presented to 63 children for attendance in the first quarter. The sermon in the morning by the Pastor Z. L. Fash was a New Year's one the subject being "Over a New Road." In the course of his sermon the pastor referred to the fact that we were facing new experiences, and new difficulties and were also facing a divine promise and a call for obedience during the year 1920. In the evening a splendid sermon on the Forward Movement was delivered.

DEVON MAN DIED TODAY OF INFLAMMATION

Fred Eldon Colpitts Had Brief Illness—Relatives Say His Illness Followed Dental Work.

Frederick Eldon Colpitts of South Devon passed away at an early hour this morning at the age of nineteen years. The deceased had been ill for a short time with septic poisoning which caused inflammation of the brain resulting in his death. Relatives state that illness followed dental work which recently was done.

The deceased is survived by his mother, Mrs. Bentley, by three brothers and three sisters. The brothers are Howard of Halifax, Cecil and Harvey at home and the sisters are Greta Eva and Dorothy, all at home. The funeral will take place on Wednesday afternoon at 2.30 o'clock Rev. H. H. Ferguson conducting the service. Interment will be made at Sunnybank Cemetery.

Native of Kent County

London newspapers report the retirement from official life of H. Thomas Holderness, G. C. B., K. S. I., permanent Under-Secretary for India. A dinner was given to Sir Thomas at the Savoy Hotel the seventy-five guests invited to meet him including his old chiefs, both in India and at Whitehall, among them Lord Curzon of Kedleston, Lord Morley, Lord George Hamilton, and Mr. Austen Chamberlain, the members of the India Council, and past and present colleagues of Sir Thomas at the India Office. New Brunswickers will be interested in knowing that the distinguished gentleman thus honored is a native of Kent Co. He was born in 1849 at Kingston, (now Rexton), within a few miles of the spot where Andrew Bonar Law now government leader in the House of Commons, first saw light: Sir Thomas's father, was a merchant, a member of the firm of Holderness & Chilton. Mr. Holderness came from England, and married a sister of the late George McLeod, then engaged in business and politics in Kent Co., and Sir Thomas is therefore a first cousin of George K. McLeod.

WOOD'S GREAT PEPPERMINT CURE.
The Great English Remedy. Tones and invigorates the whole nervous system, cures new blood in old veins, cures Nervous Debility, Mental and Brain Worry, Leucorrhoea, Loss of Energy, Palpitation of the Heart, Fading Memory.
