## ARCHBISHOP CASEY ISSUES CIRCULAR TO CLERGY ON RELATIONS OF CAPITAL AND LABOR

**Former Fredericton Pastor Urges Coordination Between Employer and Employee—Some Right and Some Wrong on the Side of Both, He Says—The Right of Ownership is Unassailable and is Founded on the Law of Nature.**

(Special to the Mail.)  
Vancouver, B. C., Feb. 10.—In an official circular read in all archdiocesan churches, His Grace the Most Rev. Timothy Casey, D. D., Archbishop of Vancouver, addressed the clergy of the Catholic archdiocese on the subject of the relations between capital and labor and urged "just co-ordination" between the employer and the employee. He said in part: "The great struggle of the day is between capital and labor, the employer and the working man, as each looks upon the other as an adversary.  
"There is some right and some wrong on the side of both; that is, of the employer and the employee, and it is for us to point out where the right shall be promoted and the wrong set aside, so that justice and charity will prevail and the different elements of society may, according to God's design, draw close together to carry on just co-ordination and so work in harmony that the peace and prosperity of the community may be assured.  
"The right of ownership is unassailable, and is founded on the law of nature. Besides that, it is sound economics and of sovereign advantage to the laborer. It opens to him the way of owning his own home and thus secures him that true liberty which is the greatest common good of mankind. Why there are so many attacks upon the principle is largely due to the fact that there is vast ownership which has not been legitimately acquired, and is a peril to the public interests. This abuse, however, does not destroy a sound principle."

## THE CHICAGO AUTHORITIES ARE GETTING AFTER THE RENT HOGS

Chicago, Feb. 10.—War was declared on "rent hogs" by the City Council this afternoon. It adopted resolutions directing the Mayor to appoint a committee of five to investigate boosting of rents from 25 to 100 per cent.  
It was suggested that one of the recommendations of the committee be a resolution permitting the Mayor to cancel at once the license of all real estate agents caught profiteering in any manner. Alderman John S. Clark, chairman of the Rent Committee last year, in supporting the resolution, said:  
"Conditions in Chicago are frightful. I know of one case on the North Side where flats had rented for \$25 for years. They have been boosted to \$80. The building was purchased for \$10,000 and the owner now asks \$18,000 although paying taxes only on a \$5,000 valuation. Many men are buying up old buildings with the purpose of raising rents 100 to 15 per cent."

## ANNUAL CANADIAN GOOD ROADS CONVENTION WILL MEET THIS YEAR IN WESTERN CANADA

**Will Convene at Winnipeg the First Week in June—Experts From All Sections of the Continent Will Gather for the Discussion of Important Problems in Good Road Making—First Time for Convention to Meet in the West.**

Montreal, Feb. 10.—The seventh annual Canadian Good Roads Convention and Exhibition will be held at the Royal Alexander Hotel, Winnipeg, Manitoba, on Tuesday, Wednesday, and Thursday, June 1, 2, and 3 next. This was decided on at a special meeting of the Executive of the Canadian Good Roads Association held at the headquarters, 909 New Birks building, Montreal under the Chairmanship of the President S. L. Squire. The invitation to hold the convention in Winnipeg this year came from the Mayor and City Council of that city, and was backed up by the promise of hearty support from the Manitoba Provincial Government, the Board of Trade and the automobile organizations.

### FIRST TIME IN THE WEST.

This is the first time that the good roads convention has gone west of Ontario, and preliminary plans are already being laid to insure that it shall be a big success. Not only are the cities of the West interested in good roads, but reports indicate that the rural districts are keenly alive to the value of improved highways, and as every Province will this year have the advantage of the Federal Government grant of 40 per cent. of the cost of constructing all main highways, municipal authorities everywhere are anxious to obtain information as to the best and most economical methods of building roads.  
The holding of the Good Roads Convention in Winnipeg will give the West a unique opportunity of securing this knowledge from practical experts who will attend the convention from all parts of the North American Continent.

## NOTED SWINDLER CAUGHT IN CALIFORNIA AFTER LONG CHASE

**William H. Moffitt Said to Have Operated For a Long Time in Canada—Sold Real Estate Which Belonged to the Government—Served With the C. E. F.**

New York, Feb. 10.—William H. Moffitt, formerly president of the New York Real Estate Association who has been sought since December, 1918, as the "J. Rufus Wallingford" of Bay Shore land deals, considered one of the cleverest real estate operators in this city, has been arrested in San Jose, Cal., according to a report received at Police Headquarters yesterday. Detective Sergeants John O'Connell and Joseph Daly were detailed to bring him here to face an indictment for grand larceny. They left on an afternoon train for San Jose.

Moffitt is 60. His wife and children have been living at Islip, L. I. Mrs. Moffitt left her husband some time before the District Attorney's office began the investigation and has said she has never known the whereabouts of her husband. Police reports are that after leaving this city December 13 1918 while out on bail on the grand larceny charge Moffitt made a fortune in Canada selling land that afterward was found to belong to the Canadian Government, later moving overseas to France and England where it was said he was working under an assumed name in the supply division for the Canadian Expeditionary Force. Although detectives trailed him persistently, they never caught up with him. The District Attorney's office asked the French and British Government to help catch him in Europe, but unavailingly.

Moffitt was one of the leading operators in real estate in this city until early in 1918. He spent money lavishly in booming real estate enterprises, and to create a reputation for wealth and standing. He had a big country estate, a town house and maintained racing stables and a private track. Once he took a party of guests cruising to Egypt.

It was said that in ten years Moffitt sold Long Island lots to 65,000 buyers. The trouble came over faulty titles, according to the District Attorney's office.

## DREAM CITY IN THE HANDS OF WRECKERS

London, Ont., Feb. 10.—The dream city of Lake Huron, St. Joseph, located a few miles north of Sarnia, is a thing of the past. This is the city which Narcisse Cantin, a noted French Canadian, about twenty years ago founded, dreaming of the establishing of a French-Canadian part in western Ontario. He spent over \$600,000 on the place, nearly all of which was supplied by Montreal capitalists, and he even induced the Dominion government to erect a dock and harbor. The buildings included a hotel with 200 bedrooms and a bar 100 feet long, 100 fine houses and a block of brick stores. But the wharf never accommodated a ship, the hotel never had a guest and the houses proved only homes for bats and owls. Now shortage in building materials has led a London wrecking company to buy the buildings and they are being taken down and the materials brought here.

As a result of the collapse of the new skating rink at Bathurst, the largest structure of its kind in the Maritime provinces, Saturday morning the two remaining Bathurst games in the New Brunswick hockey league will probably take place at Chatham. ## PREACHER'S BULL PUP SAVED A PARSONAGE FROM THE FLAMES

New York, Feb. 10.—It is only reasonable to suppose that the bull pup Teddy is a good dog, because he is a preacher's dog. Mrs. McKoy, wife of the Rev. Charles F. McKoy, of the Greene Avenue Baptist Church, Brooklyn, left the dog alone in the First Baptist Church parsonage at Long Branch, N. J.  
Falling wallpaper caught fire from a gas jet. Mrs. McKoy returned to find Teddy fighting the fire. The carpet was burned, and all the hair was burned from Teddy's side. His paws were burned too, but he had the fire under control. "And he's just a puppy," said Mrs. McKoy.
