

A TONIC FOR THE NERVES

The Only Real Nerve Tonic is a Good Supply of Rich, Red Blood.

"If people would only attend to their blood, instead of worrying themselves all," said an eminent nerve specialist, "we doctors would not see our consulting rooms crowded with nervous wrecks. More people suffer from worry than anything else."

The sort of thing which the specialist spoke of is the nervous run-down condition caused by overwork and the many anxieties of today. Sufferers find themselves tired, morose, low-spirited and unable to keep their minds on anything. Any sudden noise hurts like a blow. They are full of groundless fears, and do not sleep well at night. Headaches, neuritis and other nerve pains are part of the misery, and it all comes from starved nerves.

Doctoring the nerves with poisonous sedatives is a terrible mistake. The only real nerve tonic is a good supply of rich, red blood. Therefore to cure nervousness and run-down health Dr. Williams' Pink Pills should be taken. These pills actually make new, rich blood, which strengthens the nerves, improves the appetite, gives new strength and spirits, and makes hitherto despondent people bright and cheerful. If you are at all "out of sorts" you should begin curing yourself today by taking Dr. Williams' Pink Pills.

You can get these pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50, from The Dr. Williams' Medicine Co., Brickville, Ont.

In Sunny California

Mr. James S. Neill, who is now sojourning in Southern California, has the Mail's thanks for late copies of Los Angeles papers.

Maybe this year will bring forth the genius who will invent a way to eat corn on the cob without skidding.

AROUND THE CITY

If any person is seen diligently perusing a printed or typewritten list it should not be taken for granted that he is preparing for the purchase of some of the latest books or even clothing from one of those mail order houses the names of which are supposed to be household words in Canada. He may simply be trying to decide where he can invest with the greatest economy a certain sum of money in liquid refreshment of the kind which was banned from this province for several years. The big wholesale liquor houses of Montreal evidently have not been prepared for the raising of the order-in-council against inter-provincial trade in liquors, for some of them have no price lists ready for distribution and others are depending upon typewritten or multigraphed lists. Needless to say the lists have been in great demand. There is a general wail because prices show an upward trend but under the circumstances that was to be expected.

The first round of the annual combat between the Fredericton and St. John Thistle curling clubs has been fought, with the local knights of the broom at the small end of the score although playing at home. These two clubs have played annually practically since the time the first rail connection between St. John and Fredericton was made. Over a long period of years play between the two clubs has been very even. In the match at St. John Fredericton will have a chance to recover lost laurels. These clubs have a reputation whi chis wider than this province or the Maritime Provinces

for some years ago in the great bonspiel at Montreal, Thistles won the competition in the "granites" against all-comers with Fredericton the runner-up.

West of the Maritime Provinces a distinction is made in curling between "granites" and "irons". The granite stones are the same as those traditionally used in Scotland since the beginning of curling. In the Upper Provinces and the West the stones are made of cast iron. Followers of the "irons" claim that with their stones play is more scientific than with the original "granite", but the followers of the "granites" retort that the wish is father to the thought and that it was because of the difficulty in getting proper curling stones in the early history of Quebec and Ontario, that recourse was had to cast-iron.

The enthusiasm of the curler himself in the game is proverbial but often the mere spectator if he follows play long enough, becomes just as enthusiastic. Probably one of the most noticeable cases in Fredericton was that of the late Robert Phillips who was killed with the Dorset Regiment in France. He never curled but followed the game with close attention seldom missing a foreign match in the Fredericton rink and yelling as loudly as any club-member when a particular ly good piece of play took place.

Although the present winter has been remarkable for its severe weather and low temperature, the snowfall has been light. For this small mercy

HAVE EARNED A PLACE IN CANADIAN HOMES

DODD'S KIDNEY PILLS GREAT WORK FOR WOMEN

Is Once More Shown in the Case of Mrs. Robert Bell, Who Says She Can Never Thank Dodd's Kidney Pills Enough.

Golden Valley, Ont., Jan. 23.—(Special.)—"I had kidney trouble. My nerves were bad. I felt tired all the time. I was all run down."

"My troubles are all gone since using Dodd's Kidney Pills. My appetite is good and I am increasing in weight." These are the statements of Mrs. Robert Bell, a well-known and highly respected resident of this place. They must be of interest to thousands of tired, suffering women in Canada. Thousands of other Canadian women who have used Dodd's Kidney Pills know them to be true.

For Dodd's Kidney Pills are no experiment. They are a household remedy in thousands of Canadian homes. They have earned their place by the pains they have relieved and the health they have brought. Ask your neighbors about them. You can hardly fail to find women who exclaim with Mrs. Bell, "I can never thank Dodd's Kidney Pills enough."

the public should be thankful. The city's snow-ploughing bills should be light. There have been years with the ploughing so heavy that contractors have lost money. In recent years it has been difficult to get tenders.

EX-GOVERNOR OF VERMONT BEING TRIED

Montpelier, Vt. Jan. 24.—The jury was completed at 4:30 this afternoon in the case of Ex-Governor Horace F. Graham, which started today before Judge Fred M. Butler in Washington County Court. The defendant is accused of grand larceny and the embezzlement of State funds while auditor of accounts, previous to his election as Governor in 1917.

Forty-six jurymen were excused before court opened and 38 were examined to secure the panel. The defense asked no questions of half the jurors. One challenge to a side remained when both sides rested.

The special plea of not guilty characterized as 'confession and avoidance' previously filed by the defense was stricken out by Judge Butler on the opening of the court on motion of the State and with the consent of the respondent, the last at the suggestion of counsel for the defense, who objected to the characterization of "restitution" for the money paid in made by Attorney General Archibald.

"Paid is the word," said Atty. W. B. C. Stickney for the defense. "We do not claim restitution," continued Hale K. Darling of counsel for the defense. "Our contention is that none of this money was feloniously taken but that which was drawn by him was under the clear right of sanction by custom and usage to be accounted for by him whenever and upon whomsoever called for."

"We do object to the indictment as drawn because it charges in 151 counts the taking of more than \$40,000 representing every order drawn by the respondent without giving him credit for a solitary voucher. The defense has no desire to baffle the issue or prolong the trial, but wishes to meet the issue fairly."

The court held that all the matter in the plea which was admissible could be considered in the general issue and refused to order the State to point out what was immaterial on the grounds it was premature. The court also declined to accept a plea of "not guilty" through counsel.

NO RELAXATION IN SHOE PRICES THIS YEAR

Boston, Jan. 23.—It is claimed here that the end of the high shoe price movement is not yet in sight, and in the retail trade of the United States there is heard repeatedly the assurance that consumers are going to pay still higher prices. Predictions are not reassuring so far as the shoe wearer is concerned, since all the authorities agree in stating that no ease-off in prices can be expected for

at least a year. Some are inclined to think it will be two years before conditions will permit a down grade movement. A year from the present month is given as the earliest period at which a readjustment downward can be expected.

Many retail men believe that the high prices will continue and even mount higher until cattle raising returns to something like its pre-war basis of stability.

An excellent breakfast food is brown bread crumbs and cream.

If potatoes are cooked in an iron pot they have a much better flavor.

In the washing of gloves, whether leather or fabric, avoid hot water.

ARE YOU AWARE?

That the Antimony Deposits at Lake George, York County, New Brunswick, are the purest in the world?

That it is the second largest mineralized area of Antimony Ore in the World?

That Antimony is one of the most essential minerals?

That this is the only commercial Antimony Ore deposit in either the United States or Canada?

That Automobile Tires and Inner Tubes, Babbitt Metal, Solder, Collapsible Tubes, Paints—of the best quality—White Enamel Ware, such as modern bath tubs, etc., etc., Smokeless Powder, Battery Plates, Type Metal, Silverware, Britannia Metal White Metal, Glass, Druggists Rubber Sundries, Dyes—for tiles of the fastest quality—and many other commercial necessities, are absolutely dependent on Antimony for their manufacture?

That high grade Rubber for Automobile Tires, Hospital Supplies, Rubber Boots, Surgeon's Gloves, Coats, etc., etc., cannot be made without Antimony Chemicals?

That the source of all true wealth is the earth?

That the enormous War Debts of Canada must ultimately be paid from this source, and not by repeated flotations of bonds, to pay interest on Bonds, ad infinitum, thus piling mortgage upon mortgage?

That this great national wealth must be controlled by Canadians, and not be allowed to pass into foreign investors' hands, who at the present time are only too willing and anxious to purchase control, and have been repeatedly refused?

That it is the privilege and duty of every patriotic citizen to purchase some of these securities, and thus not only participate in the development of our natural resources, but at the same time derive handsome dividends from their investment?
