bred Barred Plymouth Cockerels of high laying strain. These birds were imported as baby chicks from one of the largest poultry farms in the New England States. All are from trapnested stock, having an egg record of from 230 to 250 eggs per year.

Remember, a nigh crass pedigreed male bird is fifty per cent of your flock. I have undoubtedy the finest poultry stock ever brought to Fredericton. One of these birds purchased across the line would undoubtedly cost from \$8 to \$10. I am selling them from \$4 unwards from \$4 upwards.

Will be sold for immediate delivery or kept until September.
