GRANULATED SUGAR IS DOWN TO SIXTEEN CENTS IN NEW YORK—CUBAN RAW SUGAR IS WEAK

A DECIDED BREAK IN THE MARKETS
Eight Cents a Pound and Freight the Best Bid Made in New York for Cuban Raw Sugar — Boston Refinery Withdraws Its Large Stock from the Market.

New York, Sept. 2.—A decided break in the sugar market happened yesterday when one of the leading refineries made a new cut in sugar prices to a basis of 16 cents a pound for fine granulated, or a cent under the level quoted by other refineries and about eight cents a pound lower than the highest prices of the early summer.

The principal reason for the weakness of the market was continued weakness in raw sugar and an almost entire lack of demand for fine refined. The best bid yesterday for Cuban raw sugar was eight cents a pound and freight, as compared with figures made only a few months ago up to 23 cents.

Stock Withdrawn
Boston, Sept. 2.—The South Boston refinery of the American Sugar Refining Company, with 36,000,000 pounds of raw sugar and 10,000,000 pounds of refined on hand, has withdrawn its stock from the market and will sell only to fill existing contracts, Attorney General Allen was told today by William Past Warren, manager of the refinery. The statement was made at the inquiry which the Attorney-General is conducting for the commission on the necessities of life. Yesterday an official of the Revere Sugar Refinery said his company was holding its stock of 40,000,000 pounds from the market, its asking price being 23½ cents a pound and current prices in New York only 17 cents.

RUSH WANTS A MILLION

New York, Sept. 3.—"Babe" Ruth applied yesterday to the Supreme Court for an injunction to restrain a moving picture company and others from exhibiting himself in a series of moving pictures. Justice Guy decided to allow exhibition of the pictures until after he passes upon the merits of the dispute.

Ruth claims that the pictures were made and exhibited without his consent and wants \$1,000,000 damages. The defendants say he posed for the pictures and had no more control over them than any other public man who is photographed as a matter of news interest.

WEST SWAMPED WITH HARVEST LABORERS

Montreal, Sept. 3.—"The prairie provinces are swamped with farm laborers," was the statement made by P. N. Prevost, of this city, on his return from a trip into the western wheat fields.

"Out of eight hundred hands who traveled on the train on which I went west, as far as North Battleford, Sask. only fifty had found employment up to the time I left on my return journey." Mr. Prevost added that there were between 3,000 and 4,000 men out of work in the province of Saskatchewan alone, and that some of them were in dire straits, having not the wherewithal to get back home.

Railroad officials said there was a decided mistake somewhere, as absolutely no men are taken beyond Winnipeg until work has been found for them. The officials further state that the crops in the west are in excellent condition and that help is still needed.

COAL SHORTAGE IN ENGLAND

(Special to the Daily Mail. Copyright) London, Sept. 3.—The London Daily Mail says today "The coal strike threat is already paralyzing trade and stopping foreign orders. Many manufacturers with only small stocks of coal on hand have decided to shut down as soon as the strike is announced. The Yorkshire and Nottinghamshire miners are voting strongly against a strike."

Soon to be Married.
Mr. and Mrs. Alfred Griffith of Kewick announces the engagement of their eldest daughter Violet Sadie, to Edward J. Lounsbury, son of Mr. and Mrs. John Lounsbury of this city.

HINDRANCE TO MARRIAGE IN LONDON

(Special to the Daily Mail. Copyright) London, Sept. 3.—Marriage in London is being seriously interfered with by the housing famine. Despite a big drive for the sale of housing bonds the proceeds of which are being used in the erection of buildings to relieve the living congestion, shortage of homes is increasing. Hundreds of couples are unable to marry because they can find no place to live; and after marriage the bride finds it necessary to live with her people, while the husband returns to his parent's home. In the two homes they share rooms with sisters and brothers respectively, but there is no spare room in either home in which they could live. As a result many are following the example of Fanny Hurst, the American novelist, who has confessed to occasional break fast with her husband, but seldom sees him daily.

A MORE LIBERAL POLICY TOWARDS IRELAND IS SAID TO HAVE BEEN DECIDED UPON

Recent Conferences With the Moderate Elements Have Given Reason for the Change — To be Offered a Liberal Measure of Home Rule — Lord Mayor of Cork Will Not be Allowed to Die of Hunger.

(By William Butler, staff correspondent of The Daily Mail. Copyright, 1920, by Cross-Atlantic Newspaper Service.)

London, Sept. 3.—A more liberal policy towards Ireland has been formulated by Lloyd George and Sir Hamar Greenwood, under-secretary for Home Affairs, according to reports from Lucerne, where the Premier is spending his vacation and holding important conferences. Recent conferences with the Dublin leaders of the moderate elements of the North and South of Ireland have given reason for the change in the policy. The decision is understood to be two fold; (1) Not to allow Lord Mayor MacSwiney, of Cork, to die of hunger strike in the Brixton prison; (2) To offer a liberal home rule measure to Ireland.

It is realized that the death of MacSwiney would probably close the door to any settlement of the Irish Question, and would only fan the flames of Irish hatred into its new conflagration of murder and depredation. As soon as the hunger strike weakens him into fainting, the prison doctor will forcibly feed him.

He may soon be taken from the prison and put into a nursing hospital. Influential London newspapers, some of which usually speak under Government inspiration, are a unit in demanding his release. This may come before the Premier returns but it is understood that the Home Rule announcement will be made at that time.

ENGLISH SCHOOL MISTRESSES RULE FOOTBALL FROM CURRICULUM

(By Lydia K. Commander, staff correspondent of The Daily Mail. Copyright, 1920, by Cross-Atlantic Newspaper Service.)

London, Sept. 3.—A lively fight between school girls and mistresses is in prospect over an attempt of the teachers to bar football from the schools. The game sprang into popularity in England among the girls when the French school girls' team toured the country, and now almost every big school has a team. The teachers have ruled it off the curriculum and the girls are in revolt. They are organizing secret teams and holding secret practice, declaring they will leave the school rather than submit. Physicians and clergymen are backing the teachers, saying that football results in an unnatural hardening of the muscles, and for girls it is immodest. "Dancing, swimming and tennis are beneficial to girls," says Dr. Paylout, "football and hockey make women ungraceful and awkward."

RUMANIA IS UNABLE TO PAY THE INTEREST COUPONS ON ITS LOAN

(By Sydney B. Cave, staff correspondent of The Daily Mail. Copyright, 1920, by Cross-Atlantic Newspaper Service.)

London, Sept. 3.—Washington and other allied Governments who helped to finance Rumania, have been notified by that country, I am told, that it is unable to pay the interest coupons on its loans owing to its desperate financial straits. Payments due earlier are in default four years. American and British financial houses are chiefly affected. Because of this same financial pressure, the Rumanian government has refused further financial assistance to Rumanians who are studying in England and America.

A RACE RIOT IN NEW YORK

New York, Sept. 2.—More than two thousand white and negro longshoremen engaged in a pitched battle at Pier 50, North River, today, which required the police reserves from virtually all the precinct stations along the water front to quell the disturbance. Traffic was suspended for an hour along West street in the vicinity.

A number of whites and negroes were arrested as ringleaders of the opposing forces after several wounded had been removed to hospitals. White longshoremen reported for their day's work at the Southern Pacific S.S. The fight started when one thousand pier and found that 500 negroes were unloading a vessel.

ARMSTRONG RE-ELECTED

Halifax, eSept. 2.—In the by-election held in Shelburne county today Hon. E. H. Armstrong (Liberal) was elected by over 700 majority.

The election was caused by the retirement of F. E. Smith to allow Hon. Mr. Armstrong to run as commissioner of works and mines in the Nova Scotia government. His opponent was Zenas F. Bower, lumberman, who was nominated as an independent candidate with the support of Conservatives, labor, farmers and fishermen. Hon. Mr. Armstrong was defeated in Yarmouth in the recent provincial general election.

Poachers Captured Last Night

Warden Fred Sharp last night captured two men while drifting for salmon in the Hart's Island Pool, a few miles above the city. The culprits evidently had several strikes but their net was so rotten that the fishy ones broke through, and went free. The drifters seemed more disappointed at losing the fish than at being taken by the officer. They will come up before Magistrate Limerick on Wednesday morning.

DEATH LIST FROM BELFAST RIOTS HAS MOUNTED TO TWENTY-SEVEN—MACSWINEY GETTING WEAKER

EXPRESS CO.'S WANT RATES INCREASED

Toronto, Sept. 2.—In connection with the application of the express companies of Canada for authority to increase their rates by forty per cent the case for the Dominion Express Company was heard here today by the board of railway commissioners for Canada. The hearing of the express company's application will be continued tomorrow and may last for some time. Hon. F. B. Carvell, chairman of the board was absent today. Commissioners A. C. Boyce, K. C. and Dr. J. G. Rutherford C. M. G. heard the evidence.

T. E. McDonnell, general manager of the Dominion company estimated that the company would have a deficit of \$800,064 during the ensuing year if the forty per cent increase in rates were not granted. This estimate Mr. McDonnell said, had been arrived at on the assumption that the gold and liquor shipments would be discontinued. If they were not discontinued the Dominion Express Company's deficit would be \$337,276.33 but the indications were not favorable to this business continuing Mr. McDonnell said. If granted the forty per cent increase in rates asked for the company would have a net profit of \$311,559 without the gold and liquor shipments. If the gold and liquor shipments continued the net profit would amount to \$543,195.

SHEEP ARE BEING GRADED

E. P. Bradt, Deputy Minister of Agriculture, has returned from a sheep grading tour of a part of the province in company with Professor Sackville of Guelph Agricultural College and F. W. Walsh of the Department of Agriculture. The party started in at grading pure bred rams at Rothesay on Wednesday morning, and visited various breeders in the Rothesay and Sussex districts. Professor Sackville went over this territory last year and stated that he found many marked improvements in the quality of the stock. The breeders all seem to be taking better care of their rams and are using better methods in breeding. They are doing this so that they will have as large a percentage as possible in the higher grades. This of course makes it easier for them to sell their stock, and aside from the stock itself the quality of the wool of pure bred animals is usually better than that of lower bred or scrub stock. The quality of the wool also depends very much on the care of the animals.

Will Examine Stock
Professor Sackville before he returns to Guelph will visit and examine the stock of twenty five breeders, and grade all rams. It will probably be about two weeks before his work in this province is finished. The rams are graded as 3X, 2X, and 1X. The 3X are the best, and should all be fit for show purposes and prize winners. The 2X grade are not so good, and are marked out for improvement and the 1X are practically rejects. Lambs are sometimes held over and on improving with age go into higher groups as yearlings.

Adopting Better Methods
The whole scheme is working out exceptionally well and the breeders are generally being induced to adopt better methods of feeding and breeding.

Moncton, Sept. 2.—A girl of seventeen and a young man belonging to a village six miles below Dorchester are under arrest here. The couple endeavored to get married, but the ceremony was delayed by the arrival of the girl's father to claim his daughter. The arrests were made at the father's request, but it is thought that the case will be adjusted and a marriage permitted.

SOLDIERS POSTED IN BELFAST DOORWAYS

Police and Military in Dublin Raid Many Public and Private Buildings — The Mails Rifled by Armed Men in County Donegal and Letters for Police Taken.

TOP PAGE ONE KPT

Belfast, Sept. 2.—Dripping skies canopied Belfast this morning and the rain was greeted with relief by the military in the hope that it would discourage rioting. The soldiers, instead of being grouped at street corners, were posted in doorways and other vantage points to deal with snipers.

The death list in the present rioting was increased to twenty-seven during the night. Soldiers shot one of their own men while chasing a sniper the pursuer being mistaken for the man he was chasing.

A civilian was wounded in Tuesday's rioting and died today.

MacSwiney is Very Weak.

London, Sept. 2.—The condition of Lord Mayor MacSwiney as announced late tonight at Brixton prison was without change. He was said to be extremely weak. He was reported worse in the evening. His sister, upon leaving the prison, said that for the first time he was unable to speak to her.

Mrs. MacSwiney and the mayor's two sisters, Mary and Annie, took turns at the bedside watching during the day.

"I feel that the end is near," said one of the sisters. "He realizes that he is very low and asked me this morning to read him from the devotional manual 'certain thought on death.' This was the twenty-first day of his fast."

NOT ANXIOUS TO EMIGRATE

(Special to the Daily Mail. Copyright)

London, Sept. 3.—"I cannot get enough English girl emigrants, even though the Imperial government will pay their fares," said Col. Obed Smith head of the Canadian Emigration, to the Cross-Atlantic, "The wages are lower over here and the women outnumber the men, so I can't understand the reluctance of the English girls to accept this free offer."
