

It doesn't take nine tailors to break a man.  
Shoes, if they squeak at all, squeak loudest in church.  
March 2, Mary Pickford was divorced; March 5, she announced that she would not marry again; March 28, she married Douglas Fairbanks. Mary is a dainty fibber.

In these money-mad days it would be a joy to run across the man who wants but little here below.  
Natives of Ireland, Russia and Germany don't need to resort to jazz when they desire excitement.  
One infinitesimal bit of dust in the eye on a windy day strengthens our belief in the atomic theory.

## KEEP WINTER LAYERS

They shell out the eggs when prices are the highest, and pay the best. The Barred Plymouth Rock easily holds first place as the best general purpose fowl. They are prolific layers and can stand the severe cold of our winters. During the months of December, January and February of last winter I gathered 515 eggs from a pen of twelve hens. In an experience of thirty years with many varieties, I never owned such a pen of high class layers. Eggs from the pen are now testing 90 per cent. fertility. I will have for sale a limited number of eggs for hatching from two choice pens headed by Ontario A. C. cocks, at \$2.50 and \$2 per setting of fifteen. As many of these settings are spoken for, no time should be lost in placing orders.

If you want Single Comb White Leghorns I can supply eggs from stock which won the championship at the Fredericton and Moncton shows at \$5 and \$3 per setting.

## COLD WEATHER SPELLS DEATH TO LIVE STOCK

Thousands of Cattle and Horses Starving on the Prairies—  
Untimely Blizzard Causes the Death of Many—Winter's  
Return was Prophesied by "Probs" of the Pacific Coast—  
Floods are Now Feared.

Calgary, April 9—Almost am I persuaded to believe, as do most Westerners, in "Foster," the weather man of the Pacific Coast, whose bulletins forecasting climatic conditions are a feature of Western news services, and by whose prognostications thousands of farmers in the Prairie Provinces profess to be guided. Foster in a bulletin now many day sold, prophesied that the country would suffer from a "cold wave" that would prevail until about the middle of April. I saw the dire news while on my way westward, but entirely disregarded it for hundreds of minor prophets whom I encountered declared that the long, cold winter could mean but one thing: rapid disappearance of snow and exceptionally mild weather in April.

Those minor prophets probably have retreated into igloos along the northern edge of Superior; at any rate, Foster has the field on the prairies and is quite justified in assuming the I-told-you-so attitude if he so desires.

#### Fear Floods

All of which by way of introduction to the fact that it still snows in Calgary. On the hundred-mile trip to Trochu a couple of days ago I saw nothing but snow covered prairie; in places "the beautiful" appeared to be quite two feet in depth, and the only means of conveyance seen on the trails were sleighs. During most of the present week precipitation has been general throughout the West, and the result is an accumulation of snow vastly in excess of that seen at almost any date in previous winters, and for this late date almost a record breaker in a period of over thirty years. It is quite probable that should very mild weather suddenly ensue heavy floods will occur at many points on the prairies.

There is a serious aspect to it all, as I have repeatedly shown in former letters. The winter-long scarcity of fodder was a great misfortune in itself, but the prolongation of winter is nothing more nor less than a seal on the death warrant of thousands of cattle and horses. This I state with some hesitation, but absolutely without reservation. No good service is

## EASES A COLD WITH ONE DOSE

"Pape's Cold Compound" Then  
Breaks Up a Cold in a  
Few Hours.

Relief comes instantly. A dose taken every two hours until three doses are taken usually breaks up a severe cold and ends all the grippe misery. The very first dose opens your clogged up nostrils and the air passages in the head, stops nose running, relieves the headache, dullness, feverishness, sneezing, soreness and stiffness. Don't stay stuffed-up! Quit blowing and sniffing! Clear your congested head! Nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only a few cents at any drug store. It acts without assistance, tastes nice no quinine—insist upon Pape's!

Ottawa Journal: Granted that Daylight Saving does not suit some people whether their reasons are good or bad it is obvious that there should be a ready disposition on the part of objectors to see the point of view of the advocates. When that has been done it will be recognized that the innovation is a decided benefit to the great masses of people who spend their lives in cities and towns.
