MINARD'S  
"KING OF PAIN"  
LINIMENT

The old reliable remedy for rheumatism, neuralgia, sore throat and sprains.

## Best Liniment Made

Mr. A. E. LATOUR, EDMONTON, writes:—"I fell from a building and received what the doctor called a very bad sprained ankle, and told me I must not walk on it for three weeks. I got MINARD'S LINIMENT and in six days I was out to work again. I think it the best Liniment made."

Minard's Liniment always gives satisfaction. For any ache or pain, it gives instant relief.

THE TEMPERANCE ALLIANCE  
HELD IMPORTANT SESSION

The Official Report of the Proceedings of the Gathering—The Members Pleased Over the Recent Referendum—Better Salaries Urged for the Chief Inspector and Sub-Inspectors—Appreciation of Rev. Mr. Wilson's Services.

A meeting of the Council of the Temperance Alliance was held in the Y. M. C. A. Rooms here in Fredericton, today. Representatives attended from various sections of the province. Considerable business was transacted and a busy day was put in with the various matters coming before them for deliberation. The following is a synopsis of the business done and of the report of the Executive Committee.

Donald Fraser, president, presided and the Rev. Z. L. Fash, of Fredericton, was named as secretary in the place of Rev. F. E. Boothroyd.

Rev. F. A. Dowling, of St. John, presented a resolution from the Social Service Council of New Brunswick, asking that closer cooperation and that it possible an amalgamation take place between the Social Service Council and the Temperance Alliance of N. B., and that they be merged into one organization and that a committee be appointed from the Alliance to meet a committee of the Council.

Rev. Thomas Marshall presented the following resolution:

"That this Temperance Alliance having received from the Social Service Council a Resolution suggesting the amalgamation of the two Societies, and the appointment of a committee to consider the question, and having carefully considered the same; Resolved, that whilst at present the way does not seem open for an immediate amalgamation, we are of the opinion that the closest cooperation is exceedingly desirable, and that it is wise for the committee suggested to be appointed to look into the possibilities of present cooperation and the future amalgamation of the two bodies."

The morning session was fully occupied with the discussion of the report of the Executive Committee.

The afternoon session convened at 3 o'clock, with President Fraser in the chair. When the following resolutions were submitted:

1. That the New Brunswick Temperance Alliance wished to express its appreciation of the splendid work by the Rev. Thomas Marshall, during the Referendum Campaign.

2. We would also wish to express our thanks to the Fairville Methodist Church in granting the request of the Council for the services of their Pastor as Campaign director, and that a letter be sent to the officers of the church conveying our appreciation.

3. Your Committee rejoice in the splendid majority in favor of Prohibition, and against the sale of light wines and beers on July 10th, and in view of the statements of the opponents of Prohibition, belittling the results of the vote, be it resolved that a committee be appointed to compile and publish the results of this election in comparison with other elections.

4. In view of the great urgency of prohibiting the importation of liquors into the province for personal use, we deplore the action of our Legislature on April last, in refusing to grant the request of the Alliance, to ask for such Referendum as provided by law. Therefore, resolved, that we urge the Government to convene the Legislature at the earliest possible date and the passing of the Resolution to be one of the first items of legislation.

5. Resolved, That we heartily approve of the recommendations of the Executive Committee, in having candidates of tried and true temperance principles nominated for the Legislature at the next election, and that the Executive take such steps as are required to bring about this result. Further resolved, That in the event of an election that an effort be made to secure pledges from every candidate nominated.

6. In view of the extreme importance to the proper carrying out of the Prohibition Act, of the personal of the commission to be entrusted with the administration of the amendment of 1919. Therefore resolved, That the Executive Committee be instructed to suggest to the Government the names of men eligible for that position, and having the confidence of the Alliance, and who would be acceptable to the general public, and urge their appointment at once, as all licenses expire on October 31st, next. And all the machinery necessary should be provided by that time.

7. Resolved, That whereas the salary of the Chief Inspector under the Intoxicating Liquor Act, 1916, is inadequate for such an officer, and he is to be supplemented by a grant from the Alli-

ance, and is not such as is paid by the Government to other officials of like importance, and that the salaries paid to the Sub-Inspectors is not sufficient to hold suitable men for these offices. Therefore, resolved, That the Government be urged to at once increase the salaries of those officials to such a point as will retain the services of good men.

8. Resolved, That steps be taken at once to put into operation the recommendations of the Executive in relation to future plans, and that they be instructed to proceed at once with their programme.

9. Your Committee desire to place on record their appreciation of the Alliance, of the splendid work of the women in this province in defence of Prohibition, during the election in July 1st. It was largely through their work and votes we were enabled to roll up the grand majority we did in favor of the Prohibition Act.

10. Resolved, That this Council hears with regret the suggested retirement of the Chief Inspector, from the office of Chief Inspector, from the office, which he has so well, wisely and efficiently filled since the inception of the Prohibitory Law, and approves of the action of the Executive Committee in arranging to retain his services as Secretary of the Alliance, should he decide to vacate the office he now holds. Further resolved, That the Executive Committee be requested to recommend as soon as possible a suitable man to fill the office, and ask the Government for his appointment.

Resolved, That the Executive be empowered to appoint the various committees for carrying the various recommendations of the meetings of this Council into effect.

Resolved, That the Council desires to express to Mr. F. G. Spencer its hearty appreciation of the services rendered by him in directing the work of advertising in the referendum campaign.

Resolved, That the Executive be empowered to convey to our President and Treasurer for their valuable assistance in the Referendum Campaign, both financial and otherwise.

Moved that the annual meeting of the Alliance be held at St. John at a date to be fixed by the Executive early in November. Carried.

Adjourned.

## CIRCUMSTANTIAL

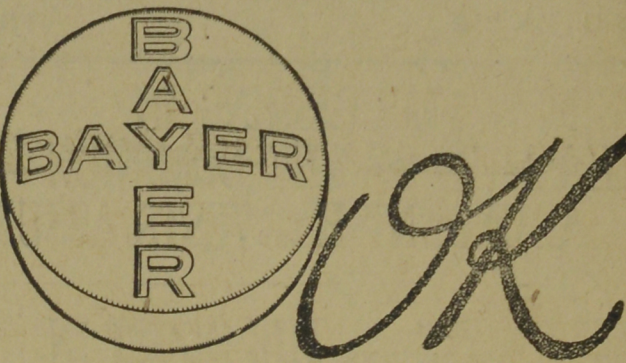

Professor (to students in back of room)—Can you all hear me back there?

Chorus (from back row)—No, sir!

Once upon a time salary carried as much pomp and circumstance as wages do now.

ONLY TABLETS MARKED  
"BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

The name "Bayer" identifies the only genuine Aspirin—the Aspirin prescribed by physicians for over ninety years and now made in Canada. Always buy an unbroken package of "Bayer Tablets of Aspirin" which contains proper directions for Colds, Headache, Toothache, Earache, Neuralgia, Lumbago, Rheumatism, Neuritis, Joint Pains, and Pain generally. Tin boxes of 12 tablets cost but a few cents. Larger "Bayer" packages.

There is only one Aspirin—"Bayer"—You must say "Bayer" Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocaceticacid of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

SUB. CREW  
WAS SAVED  
BY A SHIRT

(New York Herald.)

From the view point of the ardent scientist the ideal succession of events following the disaster to the submarine S-5 would have been as follows:

(a) The release of an apparatus carrying a wireless telephone or telegraph instrument to the top of the water.

(b) The picking up of a message of distress by a wireless station or a ship.

(c) The arrival of a rescue vessel and the boring of a hole in the hull of the submarine with electric or oxy-acetylene torches.

If things had happened that way it would have been a splendid example of science alert giving first aid to science in distress. But what really occurred after the S-5 struck her nose in the floor of the sea was that the crew, going aloft, so to speak, into the stern, bored a small hole in the submarine's side with a hand drill. Through the hole the trapped men waved a shirt.

The news articles say it was a white shirt; not a red one such as the goat in the old tale flagged the train with. We do not know whether it was a boiled shirt or one with soft cuffs. Maybe it was one of those ancient but buttoned down the back. The besom may have been pleated plain, polished or limp. But whatever its details it was a shirt.

Thus, to the misery of those who like to see everything done in the most scientific manner, the forty good men of the submarine were saved—and by a shirt. The mills of New England and the factories of New York together had turned out a piece of signalling apparatus which beat Signor Marconi's device to an ethereal pulp so far as quick action was concerned. And after the shirt had done its duty the hand drill of the rescue ship, without aid of electricity or gas, made a

BRITISHERS  
WERE GAME  
TO THE LAST

London, Sept. 8.—The London Daily Mail says that details of the last stand of the British force at Shaprabna, Mesopotamia, reveal another epic of heroism. When surrounded by an overwhelming force and with the knowledge that surrender would probably save their lives they fought to the last cartridge, withstanding a siege for three days and nights. The last shot was fired on the morning of August 15, and when the battle was over only Mrs. Buchanan, who had been widowed in the battle and who is now a prisoner of the Arabs, was alive.

Lloyd George has the world beaten when it comes to juggling a handful of crises. Whatever else bolshevism may be to the Russians, it doesn't mean anything to eat.

END YOUR  
CATARRH  
TO-DAY

Catarrh sufferers, meaning those with colds, sore throat, bronchial trouble, etc., can all be cured right at home by inhaling "Catarrhazone."

In using Catarrhazone you don't take medicine into the stomach—you just breathe a healing piney vapor direct to the lungs and air passages.

The purest balsams and the greatest antiseptics are thus sent to every spot where catarrhal trouble exists—germs are killed, foul secretions are destroyed, nature is given a chance and cure comes quickly.

Little door through which the prisoners joyfully crept.

If there be some who contemplate with gloom this triumph of the shirt over modern inventions let them remember that once upon a time the shirt, too, was a new device.
