ENGLISH COLLEGE PROFESSORS WOULD HOLD OUT OLIVE BRANCH TO GERMANY AND AUSTRIA

HOPE TO ESTABLISH FRIENDLY INTERCOURSE

Oxford Professors Send a Letter to Professors of Arts and Sciences in Germany and Austria—Aims and Enthusiasm the Same—Want a Better Understanding.

(By Wm. J. Butler, staff corr. of Daily Mail, by Cross-Atlantic Newspaper Service.)

London, Nov. 13.—Great Britain is already preparing changes in the covenant of the League of Nations to meet the new political conditions of the United States. I learn that Lloyd George brought the matter up at the cabinet meeting Saturday and a proposal was formulated which will be presented at the meeting of the League at Geneva shortly. Hon. N. W. Rowell, one of the Canadian delegates to the Geneva meeting sat in the Cabinet conference. Afterwards he said the matter of putting teeth into the covenant, through the adoption of the "Root International court or some other similar plan, was most important question to come before the Geneva meeting but he wouldn't discuss definitely the course that Britain would adopt on the question. Britain will insist on some compulsory arbitration plan. I learn from other authoritative sources. It hopes that such a change will secure American co-operation in the reconstruction of Europe as soon as possible. The League Council has already adopted the "Root plan."

Further concession to America opinion will come if articles ten is dropped, as now seems likely. The question of the British Empire's six votes to America's one in the League Assembly is not likely to be considered as it is pointed out here that with American influence in South America, America is really able to outvote Britain.

The remainder of the Canadian delegations is expected to arrive in London about the middle of this week and will leave for Geneva next Sunday.

THREATENING LETTER SENT

(Special to the Daily Mail, by Cross-Atlantic Newspaper Service.)

London, Nov. 13.—Sir Hamar Greenwood, chief secretary for Ireland, has received a letter postmarked "New York City," and signed "J. B. O'Connor, president of the Irish Societies of America," threatening if there were any further reprisals in Ireland after November 14th, Irishmen in America would see that "for every man, woman or child murdered after the above date by cowardly British soldiers or police, three Englishmen in this country (America) would pay the penalty."

COTTON MILLS ON HALF TIME

Oneco, Conn., Nov. 13.—Cotton mills in several industrial towns in this county and in ten Rhode Island centres are shut down tonight and will remain closed until the end of next week. The mills will resume then only for three days each week.

W. B. Howard and wife, of Toronto, arrived here last night and are at the Queen.
M. L. Frank Mackenzie of Summerside, P. E. I., is a guest at the Barker House.

AMATEURS WILL TRY TO SEND MESSAGES ACROSS THE ATLANTIC

(Special to the Daily Mail, by Cross-Atlantic Newspaper Service.)

LONDON, Nov. 13.—The first attempt by amateurs to send wireless messages across the Atlantic will be made on February 1, 1921. "A number of amateurs in the United States," said Philip R. Coursey, of the Radio Review, "have expressed readiness to try to send across the Atlantic. I have the names of more than thirty who will try to receive on this side of the Atlantic. The sending will be done from the United States because amateurs there are allowed to work on one kilowatt, or ten times as much power as they are in this country. The wave length used will be 200 meters." Mr. Coursey has invited all amateurs to communicate with him.

REVOLT AGAINST THE RED ARMY IS CAUSING LENINE AND TROTSKY MUCH ANXIETY

Many Communists in the Volga District Armed and Organized for Revolt—Peasants Refusing to Give Up Their Grain to the Government—Siberian City Taken by a Peasant Army.

(By "Polonius," staff correspondent of the Daily Mail, by Cross-Atlantic Newspaper Service.)

COPENHAGEN, Nov. 13.—All the late Bolshevik papers received here lately print reports of counter-revolts against the Red armies, which they say are causing Lenine and Trotsky great anxiety.

Many communities in the Volga district are armed and organized for revolt largely because of epidemics that are scourging the territory and decimating the population, and against which the central government is taking no action.

Chinese and Lettish mercenary troops have been sent to Kasan, Rybinsk and Seratof, but have been repulsed with heavy losses. Throughout the country the peasants are refusing to give up grain to the government for redistribution on a socialized basis as the Red decrees order. The Red armies are not numerous enough to enforce orders, and where troops have been sent to collect the hidden stores of grain there has not been enough recovered to maintain the troops themselves, and with no surplus they have returned to the central warehouses.

In addition, small stores have been captured and taken, but only after desperate engagements with armed peasants and after the entire population has been destroyed.

The same conditions are reported from Siberia by the Izvestia, where a well organized peasant army led by white officers have taken the city of Tomsk, shot the Bolshevik Commissioners and captured the Soviets' supply of gold. Reports spreading throughout rural Russia that young women in cities taken by the Reds have been sent to concentration camps and turned over to the Chinese mercenaries, are also stirring further revolution.

PRESIDENT OF CANADA CAR IN ENGLAND

(By Frank Tewson, staff correspondent of C. A. N. S.)

London, Nov. 13.—Senator Curry of Montreal, who, with his wife and daughter-in-law, has been on a visit to his son's grave in Belgium is staying at the Savoy Hotel. The party flew over from France. The Senator, who is Chairman of the Canadian Car and Foundry Company, Montreal, said:

"Before the war we bought great quantities of tin, lead, copper and ferromanganese from England, but since August 1914 your people have required all their own supplies and we have to buy from America."

"We are anxiously waiting for the clouds to clear in Poland and it is to that country, Roumania, and later on, South Africa, that my firm looks for a good outlet for our business."

The Senator thinks trade relations between the Dominion and the United States warrant the appointment of an Ambassador, "but purely for business reasons, just to put an end to the eternal delegations that pass between Ottawa and Washington at present. There is little doubt in my mind that Sir Robert Borden, if his health permits, would be the first choice of both the Dominion and the States."

SOME FLYING EXPERIMENTS

(Special to the Daily Mail, by Cross-Atlantic Newspaper Service.)

LONDON, Nov. 13.—The British Government has arranged to finance Louis Brennan's vertical flying experiments without making any conditions on preliminary successful tests. He will fly a Licopter airplane and will undergo an official tryout shortly.

TO ROUND UP THE SLACKER

Indianapolis, Nov. 13.—National Commander Galbraith of the American Legion today announced appointment of a committee to confer with War Department officials soon regarding plans for the roundup of slackers and draft evaders of the world war.

NOT GUILTY OF MAKING HOME BREW

Boston, Nov. 12.—The first trial by jury in New England for manufacturing liquor in violation of the Federal prohibition law resulted in acquittal of the defendants, Louis Barros and Manuel S. Sarraz of New Bedford, yesterday. Ellery Sedgwick editor of the Atlantic Monthly, was foreman of the Federal district court jury which reached its verdict after an hour's deliberation.

Prohibition enforcement officers testified that they found the men on June 15 last on a road eight miles out of New Bedford, apparently leaving a shanty in which six stills, warm from recent operation, were later discovered. Barros had a bottle of moonshine whiskey in a pocket, an overcoat belonging to him was found in the shack and, after denying knowledge of the stills, he admitted making liquor with them, it was testified. In defence Barros repudiated the confession and said his coat was left in the shack to dry after a rainstorm.

TO BE BUILT NEXT YEAR

The proposed bridge over the St. John river between Edmundston and Madawaska, Me., is likely to be built next year, according to Maine advices. The project has been held by the States of Maine declining to go ahead with its share of the work because of the tremendous increase in the cost of labor and materials since the plans were assented to. The Maine highway commission has just passed an order for authorization by the legislature accepting the bids of the Canadian Bridge Co., Ltd., and D. C. Burpee & Son, of South Devon, York county for the building of the structure. The highway commission recommends that the contracts be awarded to these two firms and it is thought the legislature, which will meet in January, will accept the recommendation. The governor and council has passed the order, which now goes to the legislature.

The companies have a large sum of money tied up on the bids, but are drawing three per cent interest. The bid of the Burpee firm was for \$122,203.85 and that of the Canadian Bridge Co., \$154,280. The Ottawa government is bearing its share of the cost, as the bridge is to be an international one.

CHANGES TO BE MADE IN THE COVENANT OF THE LEAGUE TO MEET CONDITIONS IN THE U. S.

SAFETY DEVICE FOR CHICAGO SPORTSMEN

Chicago, Nov. 13.—Horace E. Jackson, 67 years old, champion big game hunter of the Chicago Board of Trade left tonight on a hunting trip to northern Minnesota. He is better prepared to brave dangers than he was in November, 1916 when he was lost five days in the Minnesota forests while a blizzard raged and searching parties looked in vain.

For on the eve of his going there was presented to him by his fellow members of the Board of Trade a cowbell equipped with a ribbon so that the bell can be hung from the neck.

Harry Shaw, master of ceremonies had no more than started his presentation speech when bedlam broke loose in the wheat pit. Jackson was seized and marched about the wheat pit with the bell clanking pendant from his neck.

C.N.R. EMPLOYE WERE DISMISSED

Winnipeg, Nov. 12.—George H. Palmer, M. P. P., for Dauphin, employed by the Canadian National Railway as a telegrapher at Dauphin, has been dismissed from the service of the company, in accordance with President D. B. Hanna's order that no employee of the Canadian National could participate in politics.

"I expect the people of the country and the labor organizations connected with the railway to see that I am reinstated," Mr. Palmer said today in confirming the statement of his dismissal.

"The matter will be handled the same as other grievances," stated W. H. Phillips, chairman of the telegraphers on the Canadian National lines.

Mr. Palmer is the third man to be dismissed under the enforcement of Mr. Hanna's order. A. F. Moore, of Winnipeg, and James Higgins, of Toronto being the two others.

EX-KAISER IS ENJOYING LIFE

Doorn, Holland, Nov. 13.—Two years ago William Hohenzollern arrived at the Dutch frontier, a refugee Emperor. Today he is leading in this little village the life of a Dutch country gentleman, doing just about as he pleases and going almost where he desires about the countryside, so long as he stays within the territorial limits prescribed by the Dutch government.

BAZAAR BROUGHT TO A CLOSE

Damon Club Netted Fine Sum—Winners of the Prizes.

The Armistice Bazaar at the Arctic Rink came to a close last night after a very successful three nights' run. Notwithstanding the disagreeable weather a large crowd was present on the closing night and all enjoyed themselves. Many indulged in dancing while the different games took well. The gate-prize a Red Star Oil cookstove valued at \$75 was won by Stanley E. Seeley who held ticket No. 1245. Mrs. Arthur H. Woods won the five dollars for guessing the correct length of the rope 137 feet, while Clifford S. Creed won the rocker for guessing the correct age of the old chair which was thirty two years old. Gordon Foster guessed the name of the animal in the cage "It was alive"—a snail. Hot dogs and coffee sold well last night, those in charge being kept busy from early in the evening until the close of the Bazaar. The affair will net the Damon Club a snug sum to help furnish the rooms in Queen street.

E. R. Teed, of Woodstock, is a guest at the Barker House.

CHINESE PREMIER OUTLINES PLANS FOR A REORGANIZATION

(Special to the Daily Mail, by Cross-Atlantic Newspaper Service.)

PEKIN, Nov. 13.—For the first time in history, the Chinese Premier has received newspaper correspondents for the Chinese foreign journals, and outlined to them plans for the reorganization of China. Shin Yung Pang explained that the government planned to conduct the election free from corruption, which would give a parliament representing the people. Afterwards a new constitution would be drafted and finance reorganized, but no foreign loan will be accepted if the conditions infringe on Chinese sovereignty or involve political considerations.

MEETING TO BE HELD AT GENEVA SHORTLY

Hon. N. W. Rowell Will Represent Canada—Great Britain Will Insist on Some Plan for Compulsory Arbitration—Much Discussed Article Ten Likely to be Dropped.

Special to Daily Mail. Copyright 1920 by Cross Atlantic News Service.

London, Nov. 13.—The hope that friendly intercourse would soon be re-established is expressed by a body of professors and doctors of Oxford University in a letter to professors of arts and sciences in Germany and Austria.

"We approach you," they write "with the desire to dispel the embitterment of animosities that under the impulse of loyal patriotism may have passed between us. In the field where our aims are one, our enthusiasms the same, our rivalry and ambition generous, we can surely look to be reconciled; and the fellowship of learning offered a road which may—and if our spiritual ideals be alive, must—lead to a wider sympathy and better understanding between our kindred nations."

Among the 58 who signed the letter are: Ernest Barker of New College, principal elect of King's College, London; Rev. Dr. H. Boyd, principal of Hertford College; Professor Sir Arthur Evans, a past president of the British Association; Dr. C. B. Herbertson, principal of Brasenose College; the Rev. Dr. L. P. Jacks principal of Manchester College; the Rev. Dr. H. A. James, president of St. John's College; The Rev. Dr. W. B. Selbie, principal of Mansfield College; and the Rev. Dr. W. A. Spooner, warden of New College.

NO FEAR OF BOLSHEVISM

Special to Daily Mail. Copyright 1920 by Cross Atlantic News Service.

London, Nov. 12.—Britain will have no revolution said Lord Haldane, in discussing the present unrest, which he regards as temporary and seriously disturbing only as it holds back the progress of the nation.

"I have no fear of Bolshevism," he said "but if the unrest continues, there by interfering the necessary production, we would cease to be a great nation."

The solution of the problems of unrest, Haldane finds in a fuller knowledge. "There would not be so much unreasonable unrest," he said "if there were fuller knowledge."

LUMBER JACKS ARE BLAMED

Chicago, Nov. 12.—Prohibition and the inability of lumber jacks in Wisconsin and Michigan to obtain liquor since the beginning of the dry era were cited as the chief causes for the recent falling off of production in the lumber industry at a meeting recently in the Congress Hotel of the Northern Hemlock Association.

Twenty lumber dealers from lumber States in the Central West are in conference at the meeting for the purpose of investigating housing conditions.
