

"DANDERINE"

**Stops Hair Coming Out:
Doubles Its Beauty.**

A few cents buys "Danderine." After an application of "Danderine" you can not find a fallen hair or any dandruff, besides every hair shows new life, vigor, brightness, more color and grows at rate 50% faster than normal thickness.

SPEED OFFERED AT AUCTION AT BOSTON THURS.

**Oro Fino, 2.03 1/4, the Top-
liner — Prices of Last
Fall Hardly Will be
Equalled.**

Boston, May 18.—This is to be an interesting week for local horsemen for in addition to the regular training activities at Readville, Medford and the Speedway there is the matinee of the Metropolitan Driving Club the club's open horse show on the Charles River reservation on Saturday and sale at Readville on Thursday.

The auction at the two-minute track is just what Charley Lockwood predicted a month ago—the most pretentious field in New England in more than a dozen years. Some 80 odd head have been catalogued and 20 more will be in a supplementary list.

How the prices will compare with the splendid sale of last Fall when English buyers were on hand to pay unthought of prices for a lot of speed that had outlived its usefulness in this country, only the final drop of the hammer will tell. One thing is certain, however, there are more desirable animals to be offered Tuesday than for a long time at a Boston speed sale.

The headliner is Oro Fino 2:03 1/4 a six-year old gelding eligible to the 2:10 class over half-mile tracks. He is well engaged and there is not a horse in New England that has more speed than this former pupil of Tommy Murphy. He raced a poor half-mile track last summer in 2:03 1/4, winning the free for all. He has wintered well and will be a handy horse in any stable racing over the twice arounds that has no candidate for the fast classes.

Charles W. Leonard, who has sold a lot of horses at auction that have turned out well, is sending six youngsters as he has more than Norman Tallman, his trainer, feels he can handle with justice to all.

One is a 3-year old by Peter Volo, 2:02 out of the dam of Baby Bertha, 2:04 1/4; another is Barita, a 5-year

FRANK FOX MAY BUY ONE FOR DOWN EAST

The Boston Globe has the following horse notes of local interest:

Frank Fox is apt to be around the auctioneer's box when Andy Ashland 2:10 1/4 is sold Thursday. The Medford trainer has a real fondness for the old horse and thinks he would be rather useful in the 2:17 paces down in the Eastern country this summer. Al Standish, traveling representative of the American Horse Breeder, is on his annual trip to the Provinces and Aroostook County.

Harry Nevers is at the Houlton Me. track with Zom Q., 2:09 1/4; Hayward Wilkes, 2:15 1/4; Somersworth Boy, 2:18 1/4; Baton, 2:20 1/2, and a dozen green ones.

RIOT, PLEASE!

Mamie—The police just broke up a big anarchist parade on Market street. Jamie—No wonder. The red flags annoyed the bulls.

ADIOO GUY IN FREE-FOR-ALL IN YORK STATE

**Entered in Very Fast Company
at Malone and Plattsburg—
Hartford Has Record
Entry.**

Plattsburg and Malone each have 113 different horses named in their seven \$2000 early closing purses to be raced Sept. 6-17 and many of them are trotters and pacers from New England that will make the early season campaign over the Short Ship Circuit.

The free-for-all entries are: Adioo Guy, 2:00 1/4; Ben Earl, 2:00 1/2; Direct C. Burnett, 2:01 1/4; Lizzie March, 2:02 1/4; and R. H. Brett, 2:03 1/4. All but Lizzie March and Adioo Guy are New England owned.

Will Crozier, Lester Dore, John Coakley, John Page, Will Utton, Ad Van Houten, Fred Pickle, Joe Buldock, Dave Waterman, Ed Sunderlin, Ed Gillis, Jack Leonard, Jimmie O'Brien, Oscar Dewell and Chester Lasell are the New England reinsmen who plan to go into the north country for the early Fall fair season.

Hartford has a record entry in the four early-closing events to be raced at the combined fair and Grand Circuit meet Labor Day week. The 2 and 3 year old and 2:10 pace drew about the same as Readville, Murphy naming 6 pacers and Cox seven 2 year olds. The \$10,000 Charter Oak for 2:12 trotters has an attractive entry.

Will Carleton would be surprised if he knew how much "Betsy and I Are Out" for potatoes.

old sister to Binvol, 2:07 1/4 and Bisa 2:10 1/4 that has a world of speed but was put foal this Spring, and Mr. Leonard has no use for her, although one of the best young mares he owns.

There is a San Francisco, 2-year old a half brother to Belgic, 2:13 1/4 that will do with training. The other three are slick moving yearlings by Guy Axworthy 2:08 1/4; Ortolan Axworthy, 2:07 1/2, and Lord Dewey, 2:03 1/4.

SOME GOOD INVESTMENTS SUGGESTED FOR WOMEN

**Leading Canadian Brokers Give Their Views—Some Preferred
Stocks That Yield a Good Return—New Brunswick Six
Per Cent Bonds Recommended by a Toronto Broker as a
Sound Investment.**

A subscriber to The Financial Post, in a small town in the Province of Quebec has asked to recommend an investment for a woman who now holds \$10,000 in Victory bonds and regards it as absolutely necessary to receive as large a return as possible, taking into consideration security of principal. Brompton, Dominion Iron & Steel, Canada Cement, Dominion Steel and Steel Company of Canada are mentioned by the inquirer as possible propositions. Information is asked regarding bonds, common or preferred stocks.

This inquiry has been submitted to a number of leading Canadian investment houses, and the following information is the result of their cooperation:

Morrow & Jellett, Toronto

We think the preferred stock of the companies, i.e. Brompton, Dominion Steel, Canada Cement, Steel of Canada, would be a very good investment for her, having in mind the security of the principal. The common stocks of these companies are also very well looked upon, but are, of course, of a much more speculative nature.

We also think that your correspondent would be doing very well by putting her funds into municipal bonds, which at the present time can be purchased on most attractive yield basis. For instance, City of Regina Registered Stock due 1963 can be purchased to yield 6.70 per cent; Province of Alberta 4 per cent bonds due 1922 to yield 7 per cent; and many other municipal bonds at most attractive rates, and in which the principal is absolutely secure.

Burnet & Co., Montreal

For one looking for a high return on the investment, compatible with safety, we should suggest a selection from the following:

Dominion Steel Corporation, 6 per cent preferred, selling about 78; Canada Cement, 7 per cent, preferred, selling about 92. H. Smith Paper Mills, 8 per cent preferred, selling about 100 Canada Steamships, 7 per cent, preferred, selling about 84. Canada Steamships, 5 per cent debentures, selling about 76.

Osler & Hammond, Toronto

The securities mentioned in a general way appear to us to be suitable for investments to yield a higher rate than Victory bonds. We would suggest the following in addition:

Canadian General Electric, preferred. Steel of Canada, preferred Mackay, common.

F. H. Deacon & Co., Toronto

We have never felt that stocks, excepting the very best of preferred, should be included in a woman's investment. If it is necessary that she receive a high rate of interest, the better grade industrial bonds are the only thing which we would care to recommend. Those which have been seasoned are today at a most attractive level and look to us to be the cheapest security available.

We have no hesitation in recommending the Penmans, Limited, 5's, due 1926, to yield 7 per cent. This is perhaps as strong a bond as there is in Canada. The Ames-Holden-McCreedy, Limited, 1st 6's, are also offered on a 7 per cent basis, and this company has placed itself on a very strong footing which would justify the bond being placed in an investment list. There are, of course, other industrial issues but her money should be diversified and be placed also in good municipals, which are today returning an unusual income. Province of New Brunswick 6's, due in 1930, to yield 6 1/2 per cent, and Province of Alberta 4's, due 1922, to yield 7 per cent, would fit in nicely.

Among the preferred stocks, we would recommend Goodyear Tire & Rubber, 7 per cent., to yield 7.20 per cent., and Robert Simpson Co., Ltd., 6 per cent. to yield 7.50 per cent. These two are unusually well safeguarded and stand very high among the Canadian industrial preferreds in regard to both safety of principal and stability of dividend.

If she is proposing to invest a sum of say \$5,000, it would be well to divide her money among these issues. If the sum is smaller but further investment anticipated, the purchase of some of these now and the balance later would make her total investments well balanced.

A. E. Ames & Co., Toronto

For an additional investment, we

would recommend Goodyear Tire & Rubber Co., of Canada, Limited, 7 per cent cumulative preferred stock at 97.50 yielding 7.13 per cent. It is a thoroughly sound investment. We enclose circular giving particulars of this issue which is a first charge on the property of the company.

If the sum to be invested is a large amount, we would recommend that it be divided into two or three investments. We would suggest in addition to the Goodyear Tire, Howard Smith Paper Mills, Limited, 6 per cent bonds due 1st June, 1934, payable in Canada and New York at 95.35 and accrued interest, yielding 6.50 per cent; and Province of New Brunswick 6 per cent bonds, due 1st May, 1930, to yield 6 1/2 per cent.

C. Meredith & Co., Montreal

For an investment as outlined under the present conditions, we would advise Victory bonds or good Provincial bonds.

BANDITS PUT UP STIFF FIGHT IN CHICAGO

Chicago, May 17.—Royal T. Walton heretofore not known as anything more obtrusive than a meek postal clerk, turned bandit today, bound five railway mail clerks single handed robbed their car of \$75,000 and killed a policeman who tried to spoil his getaway. Later he was killed himself in a pitched battle with the police in an apartment where Walton had barricaded himself.

Walton made his appearance in the mail car of the Illinois Central's New Orleans Limited just as the train was pulling into the outskirts of Chicago at 1 o'clock this morning. At the point of a revolver he compelled one of the mail clerks to bind his four companions. He then bound the fifth himself. Ripping open a couch containing bank notes being sent from Decatur to a Chicago bank, he emptied the contents into a handbag, which he had compelled one of the clerks to sell him for \$20 of the loot.

Walton kept his prisoners covered until he reached Sixty-third street. There he remarked: "This is easy stuff when you've got the inside dope" and nonchalantly dropped off the train.

The bandit was almost within a stone's throw of an apartment he had engaged as a storeroom for his spoils when Patrolman William A. Roberts noticed him and became suspicious. He asked Walton what he had in the handbag. Walton's reply was seven revolver shots. The policeman died later in a hospital.

Walton then made a dash for his apartment, casting away the handbag as he ran. He was able to barricade himself before police reserves arrived. A battle ensued in which Walton succeeded in wounding another policeman before a bullet penetrated his own heart and killed him. During the fusillade Walton taunted his pursuers with shouts of "I've got two cops, and I'm going to get two more before I'm done."

Six bullets struck Walton before he ceased firing, the autopsy showed.

The police declare that \$5,000 was stolen from the loot in the handbag after the bandit threw it away. When the bag was opened at the Hyde Park Station is contained only \$69,980. The \$20 given to the mail clerk for his bag accounts for \$70,000. The remaining \$5,000 has not been found.

The police are searching for confederates who, they believe helped Walton plan the holdup. Among them is the sweetheart of the robber whose part in the scheme is said to have been keeping the apartment in readiness to receive the loot.

How to Purify the Blood

"Fifteen to thirty drops of Extract of Root, commonly called Mother Seigel's Curative Syrup, may be taken in water with meals and at bedtime, for the cure of indigestion, constipation and bad blood. Persistence in this treatment will effect a cure in nearly every case." Get the genuine at druggists.

Cheapness in the disguise of Economy

has often played havoc with an otherwise well appointed Tea Party.

TWINS BORN ON TRAIN, MOTHER STAYS ABOARD

Erie, Penn., May 19.—After giving birth to boy twins on a New York Central passenger train eastbound, outside of Erie Mr. J. L. Franey of Nashua, N. H. refused to heed the advice of a physician to leave the train and go to an Erie hospital for care.

Mrs. Franey said her brother, wounded in France with the 2nd Division, died in a Boston hospital and that she was going to get to Nashua to attend the funeral "even if it means my death."

Dr. Mark C. Halpin of Jersey City who was a passenger on the train attended Mrs. Franey and with the aid of other passengers made her as comfortable as possible. The conductor attempted to persuade the woman to be treated at a local hospital and held up his train for several minutes in the hope that she would do so, but after relating her mission she added she could not be deterred in her desire to get to Nashua in time to attend the funeral service.

"It was the greatest and pluckiest stand I ever heard of a woman taking," stated George L. Rogers, a traveling man, who was on the train, alighting at this city. "The twins were born about 10 minutes outside of Erie but before their birth Mrs. Franey was attended by the physician, who worked like a beaver to make the brave woman comfortable."

The woman informed the physician her husband died in St. Joseph, Mo., some months ago and that yesterday she received word of the death of her brother. The woman's condition was such that the doctor stated he believed she could make the trip without any serious result.

NOT BIASSED.

The Recruiting Official—One grandfather living? Is he on your father's or mother's side?

The Recruit—Oh, he varies, sir; he sticks up for both on 'em—a sort o' neutral.

SMITH GOT WISE

The citizen who was brandishing a fierce looking razor says it wasn't suicide but corns he was thinking about. Needless to say his wife bought him Putnam's Corn Extractor and hid the razor—very wise, because Putnam's cures in 24 hours; try it, 25c.

EXPORT TRADE

Manufacturers contemplating the extension of trade in foreign countries are offered the assistance which this Bank's world-wide business connection makes possible.

The experience and facilities of a department of the Bank devoted wholly to foreign business are at your command.
