## OSTRACISM CLAUSES OF TREATY MAY SOON BE APPLIED TO THE COVENANT-BREAKING NATIONS

### ECONOMIC EXPERTS SUMMONED TO MEET

**A Difficulty Presents Itself in the Failure of the United States to Accept the League — May Not Recognize the Embargo — Difficulties in the Way.**

(By Sydney B. Cave, Staff Correspondent of The Daily Mail)

London, August 2.—Military and Naval economic experts are being specially summoned to the next session of the League of Nations to consider the methods of applying ostracism clauses of the Peace Treaty against the covenant-breaking Nations. The difficulty that presents itself is the failure of America to accept the League, and consequent difficulty of enforcing an embargo should America not recognize the embargo. None of the high officials of the League see a satisfactory solution of the difficulty so long as America remains outside of the League. One said "The institution of the Naval blockade without participation of the United States navy would be singularly difficult, while, if Washington should object to the establishment of an economic blockade, it would be impossible not to take American objections into account."

It is believed the conference will be precipitated by the invasion of Persian territory by the Bolsheviks.

## STUDENTS HAD AUTO TRIP TO HOULTON

Woodstock, N. B., July 31.—The students and faculty of the Summer Vocational School in session here, were given an automobile drive to Houlton, Me. and vicinity, on the afternoon of July 30th. Needless to say the students and faculty greatly enjoyed the outing, and feel greatly indebted to the citizens for their courtesy.

On Friday evening, the students had the pleasure of hearing Miss Josephine MacLachey, Editor of the Educational Review, Moncton, in a brief address on "Rural Consolidation". The address was greatly appreciated by all as this is one of the live problems of the day confronting our rural communities.

## SITUATION IS ACUTE

(Special to the London Daily Mail and The Daily Mail. Copyright by Cross-Atlantic Newspaper Service, 1920)

Bombay, India, August 2.—The Indian situation is growing graver daily and the danger of a general outbreak is acute. The debate in the House of Lords on the Amritsar decision has accentuated the racial antagonisms and seditious utterances are widespread throughout India.

## CIVIL WAR IS ENDED

(Special to the London Daily Mail and The Daily Mail. Copyright by Cross-Atlantic Newspaper Service, 1920)

Tientsin, Aug. 2.—Fighting in the civil war is practically at an end and peace parleys are progressing between the Peking government and the government leaders. The latter are in a position to dictate terms.

## MILITARY NECESSITY MAY FORCE DESTRUCTION OF GREAT MOSQUE

(Special to the London Daily Mail and The Daily Mail. Copyright by Cross-Atlantic Newspaper Service, 1920.)

ATHENS, Greece, August 2.—Though the Greek artillery is at Karagatch, opposite Adrianople, strictest orders are given to avoid damaging the beautiful Mosque of the Sultan Selim, though military necessity may force its destruction, as the Turks are using its minarets as lookouts and have even mounted machine guns to sweep the attacks by the Greek army. If the mosque is used further for military purposes, it is expected the commander of the Greek army will order it shelled.

## WILL SEND THE PICTURE BY WIRELESS

(Special correspondence of the Mail)  
Copenhagen, August 1.—Within a few months it will be possible to send pictures by wireless telegraph practically over any distance and it will be possible for instance for a San Francisco evening paper to print a snapshot taken here or in London the same morning.

It is a young Copenhagen watchmaker, Theodore Andersen, who has invented the process which makes this possible. He had never received scientific or technical education or training.

The sending of pictures by telegraph was invented many years ago by the German professor Korn, but his method was so complicated that it was impossible to make use of it in practical life. The new method has been tested by several Copenhagen newspapers which have printed portraits transmitted by wireless from the Valdemar Poulsen station at Lynby. Pictures may be sent by cable as well as by wireless telegraph.

## PASTOR GOT LOST IN MOUNTAINS

Nelson, B. C., Aug. 2.—After being lost in a day and a night on the summit of Kaslo mountain, the night including the worst thunderstorm of the season, Rev. Robert Hughes, Methodist pastor at Kaslo, was found by a search party on Campbell Creek in a state of prostration.

The minister had gone out mountain climbing with 50 boys and girls, and remaining behind with some weaker ones, later insisted on completing the trip to the summit by himself after the main party started to come down. He recovered under the ministrations of the rescue party.

## SHOT WIFE AND THEN HIMSELF

Calgary, Aug. 2.—Believed to have been insane, J. G. Watterson, a well known resident of Pincher Creek, shot and killed his wife in the Kirkham block, Lehighbridge, Saturday afternoon, and then turned the gun on himself, committing suicide. Two children are left. Watterson had been separated from his wife for some time.

## HONORED THE CZAR'S MEMORY

Harbin, Manchuria, Aug. 2.—A Requiem High Mass was celebrated here Sunday in memory of the murdered members of the Russian Imperial family. The services were largely attended by representatives of organized local monarchist and conservative bodies. The mass was concluded without unusual incident.

### Cars in Collision

On Saturday afternoon while the electrical storm was at its height the cars belonging to Donald Fraser and H. G. Chestnut collided near the C. N. R. Station. Mr. Fraser was hurrying to the station and was cutting across the square below Christchurch Cathedral when the cars met. Miss Helen Babbitt who was a passenger in Mr. Chestnut's car was quite seriously injured being now confined to her home under medical care. Her recovery in the near future is hoped for and expected.

## IMPERIAL PRESS PARTY WAS WARMLY WELCOMED TO THE CAPITAL SATURDAY

**Arrived Here From St. John in Two Special Trains and Were Given an Auto Drive About the City and Suburbs—Luncheon Served in the Assembly Chamber—All Were Delighted With What They Saw.**

The visit of the Imperial Press Conference party and its reception in Fredericton Saturday afternoon passed off according to program and undoubtedly was successful.

As the time spent by the party in Fredericton was limited, the reception could not take the ornate and detailed form which was desired, but in the time at the disposal of the local committee and the visitors, the best was done. The reception took the form of a motor drive about the city immediately upon the arrival of the two special trains of the visitors, a luncheon served in the Assembly Chamber at the Parliament Buildings, followed by addresses. His Worship Mayor Reid welcoming the visitors on behalf of the City of Fredericton, and Sir Campbell Stuart, managing editor of the London Times, and George A. Isaacs, representing the National Printing and Allied Trades Federation of Great Britain. Dr. W. C. Crockett, M. P., also spoke and R. Adam Anderson, of the visiting party, representing the Irish Homestead, whose mother was Miss Parker, a native of Fredericton, proposed the health of the Mayor of Fredericton.

The motor drive included Devon, Marysville, Douglas Boom, Dominion Experimental Station, Christchurch Cathedral, the University of New Brunswick and other points. Parties of several cars each were formed and various places visited. The Douglas Boom proved very interesting to many on account of the handling of lumber. The towing of rafts on the St. John river also proved a most interesting feature to many, as they never before had seen logs handled in such numbers.

### Magnificent Trains.

The two magnificent trains in which the press party travelled attracted much attention as they lay in the C. N. R. yard here. One is furnished by the Canadian Pacific Railway and the other by the Canadian National Railways. These trains came from St. John over the Valley route of the C. N. R. and left some time after four o'clock for Woodstock, also by the Valley route. At Woodstock a change was made to the C. P. R. line, which was followed to St. Leonard, where the C. N. R. line was again taken and followed to Quebec.

The C. P. R. train provided for the personal use of the press party is composed of the cars Grandmere, Gordwood, Isbister, Lacombe, Lake St. Louis, Lake Megantic and Mount Kilpatrick. The C. N. R. train is composed of the cars Fort Pitt, Linwood, Londonderry, Lomond, Lakeview, Louisburg and Lunenburg.

In the matter of train equipment the Canadian Pacific and Canadian National railways have co-operated splendidly. The special trains are the best that could be assembled by any railway in America, and the visitors are profoundly impressed with the fine accommodations furnished them.

The C. P. R. train has three luxuriously furnished compartment observation cars, modern sleepers, standard diner, tourist car, a car for train crew and spacious baggage car.

The Canadian National Railways special is a solid steel train consisting of two large baggage cars, tourist car for crew, the very latest type of diner, standard steel sleepers and compartment observation car, the latter being one of the newest pattern, of a type now being placed on through trains.

The operating and ticketing arrangements are the same for each train and the same menu is served on each of the diners.

The C. P. R. train is in charge of Mr. A. B. Calder, assistant general passenger agent and Mr. Leon W. Lindsay, travelling passenger agent.

The Canadian National special is in charge of Mr. C. K. Howard, general tourist agent, and on board are Mr. A. H. Lindsay, advertising agent, and Mr. F. L. Dougan, travelling passenger agent, to look after the comfort and welfare of the visitors.

### Address of Mayor

His Worship Mayor Reid spoke as follows: On behalf of the Citizens of Fredericton, it is a great pleasure to extend to you—our distinguished guests—Members of The Imperial Press and their friends, a most cordial welcome to our city.

It is a marked day with us, as, at no time have we been privileged to welcome so many distinguished visitors from the Motherland and different parts of the Empire. We have been very close together during the past few years, passing through the horrors of the war and emerging therefrom

## A WARNING THAT THE POLITICAL OUTRAGES IN IRELAND MAY LIKELY SOON BE EXTENDED TO LONDON

## GAMBLING A SERIOUS HABIT WITH WOMEN

London, Aug. 2.—Gambling is becoming a serious habit among women. All the leading London bookmakers—those who "stand up" on the course, as well as those who do business through the 'phone and a city office—number women among their clients.

The police go so far as to say that women are the chief patrons of day card saloons, which exist in fair numbers. One place is believed to cater solely for women poker players.

"Some of the bigger stores," said a detective, "have someone in their employ—usually a man—who takes the employees' bets for the bookie. This type of agent always reckons the store girls among his best customers."

"Do our women bet?" reiterated the secretary of a well-known ladies' club. By way of answer, she said, "Do they smoke? Do they motor? Do they play football, or cricket, or try to swim the Channel."

"Of course they do! And they bet, you bet!" Seriously, she affirmed that women of all ages and all grades of society "do bet on something good, particularly a thing like the Derby."

## ALL IS QUIET NOW IN THRACE

(Special to the London Daily Mail and The Daily Mail. Copyright by Cross-Atlantic Newspaper Service, 1920)

Constantinople, August 2.—All is quiet in Thrace save for artillery and counter battery work. Djafar, the Turkish insurgent leader, claims to have silenced many guns on the Greeks. However, Greek reinforcements continue to land on the Sea of Marmora coast, and march overland to Luleburgas. Djafar has vainly appealed to surrender and avoid useless bloodshed.

## SHAMROCK IV TO BE SCRAPPED

New York, Aug. 2.—Shamrock IV, Sir Thomas Lipton's unsuccessful challenger for the America's cup, was towed from her moorings in the Hudson river today to City Island, to be dismantled and probably scrapped.

### Crown Land Dept. Notes

The annual sales of Crown Lands which will take place on the 25th, will be smaller than usual. The Advisory Board will not meet tomorrow as expected. Archibald Fraser, one of the members, is unable to attend.

### Fisheries Conference

Fishery Inspector H. E. Harrison left this morning for St. John where a conference is being held. Those present are Chief Inspector Ward Fisher, of Halifax, Inspector J. A. Calder, of Campobello, and G. A. Bruce, Dominion Engineer, in charge of dams and fishways.

### Rev. F. C. Hartley Preached.

Rev. F. C. Hartley, for many years pastor of the George Street Baptist Church of this city, and at present in charge of the congregation of the Baptist Church at Truro, preached at both morning and evening services of the Brunswick Street Baptist Church yesterday. Rev. Mr. Hartley, his wife and daughter are on their way to Maine.

Mr. and Mrs. Frank Creed, and Mr. and Mrs. Herbert Creed, of Sussex, motored to this city yesterday and will return to their home today.

## ALLIED CONFERENCE SOON TO BE HELD WITH SOVIET DELEGATES

(By J. M. Denvir, staff correspondent of the Mail.)

LONDON, August 2.—Premier Lloyd George has returned to London from Boulogne with the agreement of Premier Millerand for an Allied conference with Soviet government representatives in London. This is a victory for the English Premier, and means that Millerand will abandon pledges by France that no conference would be held until Soviets agreed to acknowledge the Russian debt largely held by France and incurred during the Czar's regime. It is understood Millerand insists the conference should settle not only the Russian-Polish trouble, but all questions between Russia and the Baltic States. Lloyd George has the Soviet's agreement to this; and it is believed it will bring a final settlement of European difficulties closer.

### EXTRA PRECAUTIONS HAVE BEEN TAKEN

**Special Police Protection Being Given to Irish Officials — Must Not Leave Their Homes or Offices Without a Bodyguard—Sinn Feiners Under General Observation.**

(By Sydney B. Cave, staff correspondent of the Daily Mail)

London, Aug. 2.—Notice has been given by Scotland Yard that the political outrages in Ireland may be extended to London and they have increased precautions of the detective force here.

All officials associated with Ireland are receiving special police protection and have been advised that they must not seek to move through the streets or leave their homes or offices without bodyguards who are picked from the ablest men of the force.

Sir Edward Carson, however, refused to allow the men assigned to guard him, to accompany him, saying he does not believe the Sinn Feiners hold any enmity against him.

During the past few days all men and women members of the Sinn Fein Self-determination League in the London and the provinces have been put under special observation. Any who seek to take trains to make journeys are closely interrogated at railway stations regarding the purpose of their trips.

An interesting feature is that all the police officials directing are work are Irish.

## DATES FIXED FOR ELECTIONS

Ottawa, Aug. 1.—By-elections will be held in St. John city and county and Albert, N. B. and in Colchester, N. S. on Monday, September 20. Nominations will be on Monday, September 6. The by-elections are necessitated by the appointment to the new government of Hon. Rupert W. Wigmore, minister of customs and inland revenue and member for St. John, and of Hon. F. B. McCurdy, minister of public works, who represents Colchester in the house of commons.

## BIG FLOODS IN ENGLAND

London, August 2.—The London Daily Mail says that as a result of persistent daily rains over a great part of Great Britain that rivers have overflowed their banks, that splendid crops are rotting in the ground and something like a miracle in needed to prevent a potato disease. At the same time heavy frosts are reported in the north.

## HELPING THE PRISONERS

(Special to the London Daily Mail and The Daily Mail. Copyright by Cross-Atlantic Newspaper Service, 1920)

London, August 2.—The London Daily Mail learns that Americans with connections in Baku, where British subjects were confined in the "black hole," vainly tried to secure amelioration of the prisoners' treatment. Assurance was given some days ago that the prisoners would be transferred to better quarters, but the promise has not been kept.
