TWENTY PEOPLE KILLED AND MORE THAN TWO HUNDRED INJURED IN AN EXPLOSION IN NEW YORK

BOMB EXPLODED IN FINANCIAL DISTRICT

Believed to Have Been Work of Reds—Bomb was Exploded Just as Office Workers Were Pouring from Buildings Into the Streets, and Created a Panic.

New York, Sept. 16.—A mysterious explosion this noon in Wall street, near Broad believed by trained United States Department of Justice and Police investigators to have been caused by an infernal machine, rocked the heart of New York's financial district, leaving death and destruction in its wake.

At least twenty persons were killed, more than two hundred were injured the banking house of J. P. Morgan and Company, the sub-treasury and the Assay Office were partially wrecked and property damage estimated in excess of one million dollars was caused by the blast.

The noon hour had struck and an endless stream of office workers had just started pouring into the streets from buildings in the neighborhood. Suddenly a cloud of yellowish black smoke and a piercing jet of flame leaped from the street outside the Morgan offices.

Then came a deafening blast. A moment later scores of men, women and children were lying prostrated on the ground and the streets were covered with debris from thousands of broken windows and the torn facades of adjacent buildings. Two minutes later the stock and curb exchanges had closed. Panic and confusion reigned in the heart of New York's financial district.

Thousands of clerks and stenographers, many of them girls, fled in terror from adjoining structures. Scores fainted, fell and were trampled on in the rush. Meanwhile the noise of the explosion which has heard throughout lower Manhattan and across the river in Brooklyn brought thousands of the curious to the scene.

The few police on duty in the district were unable to cope with the crowds and a hurry call for police reserves was sent to all down town police stations.

Sub-treasury officials, fearing that an attempt might be made to rob the building, all the windows of which were broken, requested assistance of the military authorities at Governor's Island and a company of soldiers was sent to guard the structure.

Hurry calls were sent to all hospitals in the downtown section of New York and scores of ambulances were soon speeding through the narrow street.

Dressing stations were established in the lobbies of buildings nearby where the less seriously injured were given immediate treatment.

LADY GRATTAN WON 2.11 MIXED AT ST. STEPHEN

St. Stephen, Sept. 16.—That the St. Stephen exhibition is getting bigger and better every year and that the people are always waiting for it was quite evident today when more than twelve thousand passed through the gates and tomorrow a larger crowd is looked for.

The park was packed to capacity and a real afternoon's sport was witnessed by lovers of horse racing and baseball. The 2.23 class had eight starters and every heat was a race. The 2.11 class was won by Lady Grattan but was pushed hard all the way by Touz and Anna S. In the 2.16 mixed Little Peter proved too much for Roy McKinney and Lucky Strike and won in straight heats.

ST. STEPHEN'S SUCCESSFUL EXHIBITION

Brighter Weather Gave Border Town Fair a Boom Yesterday—Splendid Agricultural Show.

The St. Stephen Exhibition probably experienced its most successful day Thursday, when the weather man actually smiled on it—for most of the day at least. A great number of visitors from outside points, including Fredericton, swarmed in to swell the generous attendance from St. Stephen, Calais and Milford, and the Midway—composed for the most part of the well known Perari Shows, did a thriving trade.

The race program was an important one in which Fredericton horses were entered and many local horsemen and track followers were on hand. The results are elsewhere reported.

The fair is a good one from many standpoints and a credit to the Border town, which manages to hold a fair every year. The exhibits in all lines are notable for quality, and if this is an off season for fruit one would not think so to see the exhibit of apples, plums, tomatoes, etc., at this fair.

There must be many lovers of floral beauty in that part of the province, for the display of cut flowers and plants was indeed a beautiful one.

The agricultural products are also fully up to the general show standard, the exhibitors have turned the limited space afforded to advantage by sending only their very choicest specimens. Noticeable in this department are exhibits of chard of giant size, growing in boxes. Celery is also exhibited growing in boxes.

In live stock the exhibit of cattle is also notable. Besides a large number of head shown by small exhibitors, there are several large herds of upwards of fifteen head each—notably Holsteins, by Dickie Bros., of Truro; Ayrshires from Fairview Farm, P. E. I.; pure black Aberdeen-Angus and British Swiss Cattle from Stanstead, Que.

The poultry sections were not very well filled, but Fredericton had two successful exhibitors in this department. Harold F. Emms, who exhibited Barred Plymouth Rocks, won first prize for utility cockerel, second for utility pullet, first cock, first hen, first cockerel, first and second pullet in the boys' and girls' club contest. The West End Poultry Yards won first and second prizes for Partridge Wyandotte hens, first for cockerel and first for pullet, and first prize on a pen of young Barred Plymouth Rocks.

A BREACH OF FAITH

(Special to the London Daily Mail and the Daily Mail. Copyright 1920, by C. A. N. S.)

Rotterdam, Sept. 17.—The Dutch press accuses that there has been a breach of faith in connection with the agreement by which Holland granted Germany an \$82,500,000 credit in cash and foodstuffs, in return for coal. Germany refuses to ratify it and is prohibiting importations of Dutch herring.

ARMED BREAK IS POSSIBLE

(By Leon Schallitz, staff correspondent of the Daily Mail. Copyright, 1920, by C. A. N. S.)

Vienna Sept. 17.—That an armed break between Austria and Hungary as a result of the Franco-Hungarian agreement is possible, was revealed at a meeting of the People's Party at Salzburg declaring for a union of Germany and German-Austria. Negotiations between France and Hungary give Hungary the right to occupy Vienna if Bolshevism breaks out there or if Germany attempts to unite or annex Austria. Declared Prof. Dinghofer, "Austria's one aim is union with Germany. There are great difficulties by the Supreme Council cannot forever prevent a union and a common distress will bring a union of all Germans."

THE FOSTER GOVERNMENT HAS MINISTERED MANY REFORMS DURING TERM

Found the Public Departments Disorganized Because of Conditions Which Had Prevailed Under the Old Regime—A Record of Achievement—The Franchise Extended to Women—Many Difficulties Overcome.

ST. JOHN, Sept. 17.—The Daily Telegraph, in commenting on the dissolution of the Legislature, says editorially:

"The government will meet with opposition from a party circle consisting in the main, probably almost wholly, of men who were responsible for the conduct of public affairs prior to 1917, a period which was the most disgraceful in the whole history of the province. The new government came into office at a time of many difficulties. The public departments were disorganized because of conditions which had prevailed under the old regime, and constantly rising prices made it necessary to increase revenue in every direction. The cost of labor and material has been doubled, and in some cases, more than doubled, but the government was determined that the public services must be carried on efficiently and they courageously proceeded with the work of reorganization, improvement and expansion in every case.

CONSTRUCTIVE LEGISLATION.

In the first place they reorganized the provincial finances and gave the people, through an independent audit, a true statement of the assets and liabilities. They did away with the old system of concealing deficits and carrying over great and hidden liabilities from one year to another. In regard to Crown Lands, public works, agriculture, education, the completion of the Valley Railway, and in many other directions, their record of achievement has undoubtedly been admirable. They were by no means content with the routine business of government; they gave New Brunswick an up-to-date and much-needed health department; they introduced the Workmen's Compensation Act, which has been of great benefit to labor; they enforced the prohibition law to the best of their ability, although their opponents had said they could continue the open bar; they extended the franchise to women, and they have introduced and are now carrying into effect the hydro-electric enterprise, undoubtedly one of the most important ever undertaken in the province of New Brunswick.

A Fine Exhibit from This Section Which Made a Big Dent in the Prize List—Lloyd B. Johnston of Nashwaaksis Champion Prize Winner—Others Who Won Prizes—A Very Large Number of Birds on Exhibition.

The Poultry Show at the Woodstock exhibition was undoubtedly one of the best ever held in the province. In all about seven hundred birds were shown and included in the list were some splendid specimens.

The poultry exhibit is in charge of Mr. R. C. Elder who seems to be the right man in the right place. The York County exhibitors were highly pleased with his work and promised to go back stronger than ever next year.

HUNGER STRIKERS ARE HOLDING ON

(Special to the London Daily Mail and the Daily Mail. Copyright 1920, by C. A. N. S.)

Dublin, Sept. 17.—All physicians attending the Irish hunger strikers at Cork join in advocating the release of the untried prisoners as that are rapidly approaching death. The police and military refuse the recommendation and there is fear of wholesale resignations.

Seventeen year old Richard Hennessy held without a formal charge is not expected to live through the night. Friends declare he is innocent but he is determined to die.

BALMORAL CASTLE IN UPROAR OVER THE KIDNAPPING OF THE YOUNGEST SON OF KING GEORGE

WOODSTOCK HAD SOME MORE GOOD RACING

Clay Watts, Recently Bought from A. Faulkner, of Montreal, Beat Victoria—Good Sport.

Woodstock, Sept. 16.—Today's racing kept the crowd on its toes as every heat was closely contested, some heats being won by inches only. Clay Watts, just purchased by Earl Avery, of Woodstock, from A. Faulkner, of Montreal, showed real class and this victory was evidently popular with the big crowd. It will not be surprising if the track record is broken tomorrow as the horses are said to be in fine condition and much rivalry exists among the drivers.

DISAGREEMENT WILL BE AIRED

(By William Butler staff correspondent of The Daily Mail. Copyright 1920, by Cross-Atlantic Newspaper Service.)

London, Sept. 17.—The Polish-American disagreement is to be aired at a meeting of the council of the League of Nations in Paris on September 16. I learn from the Foreign Office that the whole Polish question with American, Lithuanian and Russian angles will be considered, though what it will accomplish is not yet clear, as America will not be formally represented, but only an observer. Poland has already appealed to France and England to be permitted to establish a new boundary defense in Russia beyond the lines fixed by the treaty.

Mr. E. O. Rutter is spending the week at Woodstock attending the exhibition.

WAS A PRISONER FOR SEVERAL HOURS

Prince George Seized by Three Masked Men While Returning from a Fishing Trip—Was Found Unharmed Soon Afterwards—A Sinn Fein Warning Note.

By Sydney B. Cave, Staff correspondent of the Daily Mail. Copyright, 1920 by Cross Atlantic Newspaper Service.

London, Sept. 17.—Prince George, the King's youngest son, on Monday night was the prisoner of the Sinn Fein for several hours, it became known today. Balmoral Castle where the Royal Family is vacationing was in an uproar and the kidnapping is still a mystery in its details and Scotland yard sleuths are there on guard.

Three masked men captured the prince and a man servant who were returning from fishing about 9.30 o'clock and hurried them to an empty cottage on the outskirts of Balmoral woods where they were locked up. Several hours later when the castle realized that the Prince was missing, the King and Queen organized a search party of castle servants and aroused the Royal Guards and London detectives. The entire neighborhood was thoroughly searched and the two prisoners finally discovered in the darkness in the cottage.

"This is but the beginning of the end, if MacSwiney dies", was scrawled on a paper left by the kidnappers who disappeared without attempting to harm the Prince. The Royal family is much disturbed fearing that the kidnapping is the work of Irish sympathizers among the servants of the castle and that they might be able to keep the threat in the note should MacSwiney die. Others feel that it is but a rough practical joke of the Irish sympathizers and is not to be followed up. Scotland yard men are silent.

WOODSTOCK FAIR DRAWING BIG CROWDS

Woodstock, Sept. 17.—The weather was all that could be desired and it is estimated that 18,000 people were on the grounds at Connell Park taking part in the big provincial exhibition today. As early as 8 o'clock the ticket sellers began business and at noon 5,000 tickets had been sold. There was not a dull moment for anyone and no disorder or accident occurred to mar the pleasure of the day. There is no doubt that everyone enjoyed every moment and made the most of his time. There have been no arrests on the grounds and no signs of intoxication.

Visitors to the exhibition yesterday included Mr. W. S. Hooper who has managed successful exhibitions in Fredericton for many years. He made a thorough inspection of the buildings and grounds and warmly congratulated the management on the success which had attended their efforts.

All stock pens are well filled and visitors have been amazed at the high quality of the stock shown. Some of the cattle owners have been urged to send their animals to the International Live Stock Show to be held at Chicago this winter.

The exhibition is under the joint management of Mr. D. V. Storm and John S. Leighton who make a strong team. They have worked like trojans to make the show a success. Woodstock is crowded with visitors and although high class hotels are not as plentiful as in Fredericton people have experienced no difficulty in securing excellent accommodation. At one time yesterday it is estimated that there were over one thousand autos parked on the ground, the majority coming from across the border.

VILLAGES DESTROYED

(Special to the Daily Mail. Copyright) Constantinople Sept. 17.—8500 refugees in the interior are now at British headquarters. From Asia Minor come reports that Turkish rebels have destroyed eight Armenian and twelve Greek villages.
