GROWING WALNUT TREES

No one in Canada in his time did more for the cause of forestry than Sir Henri Gustave Joly de Lotbiniere, who was a member of Sir Wilfrid Laurier's Cabinet at Ottawa, and still later Lieutenant Governor of British Columbia.

According to Sir Henri's grandson, Maj. Alain Joly de Lotbiniere in the Canadian Forestry Journal, Sir Henri set out a black walnut plantation upon his seignior at Point Paton in Quebec, 37 years ago, to test whether this tree could equal the growth of the native species.

Sir Henri wrote of the black walnut "It is a beautiful tree; on the markets of Europe the value of its lumber is about equal to that of mahogany. It grows more rapidly than either pine or spruce. It begins to yield nuts when about 12 years old, and these nuts mature even as far north as Quebec, and produce vigorous young trees."

Maj. Joly de Lotbiniere reports the success of his grandfathers' experiment. The average diameter of the trees planted in the lee of a hill is seven inches, while those in the open have a diameter of only four inches. Taking the age of the plantation as 37 years the diameter growth of the former would be one inch in five years. In other words, the trees in the lee of the hill grew almost twice as fast as those in the open. Protection from the wind is the keynote to success in planting black walnut in a northern climate, and Maj. Joly de Lotbiniere adds: "The black walnut can compare very favorably in growth with our native Canadian species, and when you consider its value from a commercial point of view, especially for use in the construction of aeroplane propellers, you will agree with me, I am sure, that he who plants this tree has the future of his country at heart, for although he may not himself always taste the fruit of his labor, those who follow him will without a doubt rejoice in the good fortune he has bequeathed to them."

Of the timber steals in Ontario for years past the Toronto Globe says: "While there has been a great destruction of forest wealth through fires and lumbering operations, timber values have increased enormously in late years. The province should have shared proportionately in the benefits but the revelations of the timber commission's inquiry explain why it has not. Fortunes that should have flowed into the public coffers have found their way into the public coffers have found their way into private pockets. Waste, improvidence, patronage, incompetence, downright dishonesty, and other gross abuses have robbed the people of the full fruits of their rich heritage. A drastic purge is called for, and an entire change of policy and system."

Hon. Bob Rogers, who has been rewarded by the Meighen Government with the honorary Colony in the Fort Garry Horse, has been heard from again. He says:

"The Conservative party stands today where it always stood, in that it has never failed Canada in any national crisis, and will not fail today, to fulfill its plain duty to save Canada from the danger of the position in which our country now stands trembling in the balance, at the parting of the ways."

The Hon Bob should cut that old stuff and try to give us something new

The action of the City Council in offering generous rewards for the apprehension of the miscreants who rang in false alarms of fire tampered with hydrants and daubed the Burns statue with paint will be generally approved. Something should certainly be done by the authorities to put a stop to such acts of vandalism—whether it was the work of college students or of ordinary rowdies makes little difference. The perpetrators should be sought out and an example made of them.

Although many stalwart Republicans in the United States approved of the League of Nations they felt that they could not go so far as to give their support to the Democratic administration at Washington. Governor Cox made a good fight under the circumstances but the deep rooted con-

viction that the Wilson administration has made a mess of things was a heavy load for him to carry.

A hundred thousand tons of coal was shipped from China, to Newcastle on Tyne recently, as an experiment, according to Mr. Archibald M. G. Grant, a consulting mining engineer, who has landed at Liverpool. He added that the coal is of excellent quality, and, imported in large quantities, could be sold at cheaper rates than British coal.

The Owen Sound Advertiser thinks it has found the champion mean man in a London chap who was fined for beating his wife—and stopped the fine out of her housekeeping allowance. Another mean man is the one in California who, after six neighbors had testified that they had attended his funeral, came into court and made them all out liars.

A further drop in the price of refined sugar announced yesterday has brought it down to \$14.50 per hundred. A drop in some other commodities seems to be overdue. For instance oats are now quoted in Chicago at 62 cents a bushel but the rolled article, so popular as a breakfast food is still retailing for eight cents a pound.

The Republican majority in the United States seems to be steadily climbing up. At last accounts Harding was sure of 346 votes in the electoral college and there is likely to be a further increase. Outside of the Southern states, which are traditionally democratic, Governor Cox made a very poor showing.

The Hamilton Times is authority for the statement that there are two thousand schools in the Province of Ontario which are without teachers. The explanation given is that "the salaries do not attract." This is one of the serious problems which apparently the people of all of our Provinces are facing.

"I'm a silly man for having anything to do with a matrimonial agency," said Tom Mann Claridge, of London, when sued by his wife for maintenance, recently. He admitted that during his courtship he wrote a letter of thirty eight pages to his wife. He met his wife through the medium of a matrimonial gazette.

KEEPS CHILDREN WELL, MAKES THEM ROBUST

Here is Good Advice for the Head of Every Family.

Rapid growth, work at home and in the school-room, are sure to tax the strength of every child, and often prove the beginning of a chain of weakness that lasts through life.

Give your sons and daughters a fighting chance! Give them good home surroundings, for they need them with education—but above all else do everything possible to insure for them perfect health in years to come.

In no way can you destroy weakness and build up health so surely as with Ferrozone. It's the concentrated nourishment in Ferrozone that enables it to do so much good. It contains the very elements that are needed in building up bone and sinew in vitalizing and strengthening the blood. The appetite Ferrozone brings will gladden any parent's heart, and when color, spirits, vim, and energy increase day by day then you know what grand work Ferrozone is doing. Because it makes and keeps you healthy, because it is pleasant, harmless and sure to do enormous good—you and your children should use Ferrozone every day. Sold by all dealers in 50c. boxes, six for \$2.50, or direct by mail from the Catarhzone Co., Kingston, Ont.

It looks as if Cox would have to wait.

A woman writer says that mischief causes dimples. Some people are under the impression that dimples cause mischief.

CITY REWARDS

A reward of \$25.00 will be paid for information that will lead to the arrest and conviction of the party who rang in the false alarm on Saturday night last, and the same amount will be given for like information for any person committing a like offence in the future.

A reward of \$25.00 will also be paid for information that will lead to the arrest and conviction of the party or parties who opened the fire hydrants on Saturday night last or who may do so at any future time without authority.

A reward of \$100.00 will be paid for information that will lead to the arrest and conviction of the person or persons who painted the Burns Statue and the several public buildings on Friday night last.

G. R. PERKINS, City Clerk.

FOR SALE—Second-hand Crown Jewell Stove, but little used; hot water tank in connection; will be sold at a bargain. Apply at the Mail Office.

TO LET—One large warm bedroom for one or two; modern conveniences; centrally located. Apply 472 George street, or phone 497-21.

ACADIA WON FROM U. N. B.

(Continued From Page Three).

cided superiority. A pass ahead by Acadia got by the referee. The latter began to penalize U. N. B. for feet up in the scrum and for picking out. Trimble returned Parker's punt. U. N. B. forwards were gaining by dribbling. Parker took another free kick for a big gain and Acadia got well into U. N. B. territory for the first time. Trimble muffed a pass and confused and loose play followed on the U. N. B. twenty-five. The Red and Black failed to stop the ball which was booted toward the eastern side of the field. Porter the fast outside half went after it and scooping it up ran toward the U. N. B. goal-line. He had no hold on the ball and batted it in front of him but the referee evidently did not see the knocking on and Porter went over near the corner for a try. Parker made a poor attempt at goal hardly getting the ball off the ground.

Acadia 3; U. N. B. 0. Jamer's kick-off was fumbled by Acadia and the U. N. B. forwards were on the ball and dribbled. Inside the Acadia twenty-five a free-kick was given. MacKenzie took it. It was a great scoring chance. The sun bothered him. His height was good but the ball went a little to the right. Acadia touched down.

From the kickoff there was an interchange of punts, Stevens gaining on a kick along the touch-line. From scrums the ball was going to Trimble but the Acadia backs were downing him before he could get away.

Acadia was gaining steadily. Clark made a run for a gain. Trimble was passed the all, but tripped and fell. Play was at the U. N. B. twenty-five with Acadia forwards controlling the ball. The ball went to Porter, but he was downed before he got away. A free kick relieved the pressure on U. N. B. There was an interchange of punts between Cain and Porter and some loose scrumming. MacKenzie kicked for a long U. N. B. gain. Play stayed along the touch-line in front of the grandstand for a time and got very ragged on both sides. Jewett got through for a run, but Acadia was tackling sharply. Loose play by the Acadia backfield let U. N. B. gain, but immediately afterward the same kind of play by U. N. B. put their goal line in danger. There was some grilling play along the touch-line on the Eastern side, U. N. B. gaining slowly. The ball went to Parker on a kick and he regained all lost ground by punting to touch. Referee Bigelow took cognizance of Acadia's offside play around the scrum and gave U. N. B. a free kick. Cain kicked and the U. N. B. forwards followed fast. From a scrum the ball went out to the Acadia halves, but a knock-on by Beardsley spoiled the play. The ball went to Haines, who punted when tackled. The kick was not a long one and U. N. B. players followed fast. Acadia failed to stop the ball. Lounsbury captured it and went through for a sixty yard run. His run was parallel to the touch-line. He avoided one tackle and broke away from another. Parker was the only man between him and a try. The Acadia fullback crouched for a low tackle and Lounsbury jumped over his shoulder. It was a nice hurdle and he ran for his try. The crowd going wild. Acadia put up a kick about the ball not being down, but the referee would not listen to it. Trimble failed to get the proper slant on the ball when he tried for goal.

Acadia 3, U. N. B. 3.

The Second Half.

Saunders returned Acadia's kick-off. From a scrum the ball went to Porter, who ran for a big gain. There was very loose play on the part of U. N. B.

Clark went through for a gain and in loose play following Acadia dribbled over the U. N. B. goal line. One Acadia man missed the ball when he fell, but Clark was on it for a try.

Acadia pulled a boner right there, failing to bring the ball out properly for a try for goal. When this try was made the U. N. B. players acted as if they hardly knew what was going on. Afterward they braced up, but it was too late.

Acadia 6, U. N. B. 3.

Acadia came right back after the kick-off and kept U. N. B. defending. U. N. B. tried one of the few pieces of passing on the half line that were seen in the game. The ball went clear out to Haines on the outside and that fast little player got away on one of the longest runs of the game, almost getting around Langwith. Play was at Acadia's twenty-five. U. N. B. took a free kick and play was not more than ten yards off Acadia's goal line.

Acadia relieved slightly, but U. N. B. was attacking hard. A combination run, Cain to Trimble to Stevens, netted a good gain. It looked as if the Red and Black was good enough for a try at this stage. Punting found the U. N. B. backs as good as Acadia and play stayed within the Acadia twenty-five. Cain tried several individual runs. He gained but the Red and Blue was playing a stonewall defence. Porter ran for a gain, only to have Trimble run the ball back. U. N. B. began to sag and Acadia quickly took advantage of the loose play.

Parker ran one kick back and passed to his halves. He also was kicking well. Lounsbury took a free kick, punting to touch for a big gain. Acadia was getting the ball out from scrum and gaining. Trimble fumbled for a big loss. A strong punt by MacKenzie regained the ground lost.

Acadia bucked up at this stage and forced the play to midfield. Cain got away on what looked like a great run. He passed to Stevens at left outside, but the ball went wide and into touch. Acadia's halves were getting the ball, but hard tackling by U. N. B. kept them from getting away. Short runs,

(Continued on Page Five.)

SEPARATE SKIRTS EFFECTIVELY STYLED

What could be a more practical Addition to your Winter Wardrobe than several of these Skirts? When you see these new modes and the beautiful Satins, Silks, Serges and Tricotines from which they are made, you will be convinced that separate skirts can be beautiful as well as practical. Many are plaited, while others are shown plainly tailored or with tunics.
