INCENDIARY FIRES IN MANY PARTS OF DUBLIN YESTERDAY—MILITARY AUTHORITIES ACTIVE

The Incendiary Plot was Apparently Carefully Planned—Fires Broke Out in the Offices of the Income Tax Collectors—Caretakers Were Held Up by Armed Men—Bitter Feeling Prevails in Cork.

Dublin, April 4.—Masses of important correspondence and documents were burned in a series of fires which kept the firemen rushing from nine o'clock last night until after midnight. The circumstances indicate a well-planned incendiary plot.

Fires occurred in the offices of at least eight income tax collectors and surveyors in different part of the city.

The incendiaries did their work well and the fires were well advanced before the fire brigade arrived. Just before the outbreaks the caretakers of the burned buildings were held up by armed men.

A man believed to be Private Laurence McKenzie, of Belfast was found shot through the head early this morning in Howth, South East of this city. It is thought the wound will prove mortal.

Defied the Militia.

The work of the incendiaries was carried on despite military precautions, which exceeded anything of the kind seen here since Easter 1915. Particular attention was paid by the military cordon around the city to loads of hay, which were probed by bayonets, while even the suburban street cars were stopped and the passengers searched for arms.

At Finglas, on the north side of the city, the military has taken possession of some unoccupied houses and appear to contemplate a stay for a few days. St. Edna's College at Rathfarnham, formerly conducted by Patrick Pearse who was executed during the rebellion of 1916 is also occupied by soldiers. They have erected a barricade with barbed wire, on the roads outside of Cullenwood House, in Ranelagh, where Pearse's mother lives and the children's school kept by Miss Duffy sister of George Gavan Duffy, who was identified with the defense of Sir Roger Casement and a Sinn Fein representative at Paris. The residence of Mrs. Humphrey, sister of The O'Reilly, who was killed in the street fighting at the time of the rebellion, was searched and Mrs. Humphrey's son-in-law, a student, was arrested.

An armored car is stationed at the entrance to Kingstown Pier to reinforce the military guard there. Soldiers unloaded fresh supplies of ammunition at Northwall and conveyed it in motor cars, protected by armored cars, through the city.

Similar Elsewhere.

Despatches from various parts of the country indicate a similar state of affairs at Derry, Tipperary, Newry, Limerick and other places.

The "Freeman's Journal" publishes a significant article headed, "Peaceful Eastertide" in which it says:

"Let the young men of Ireland remember that the main chance the enemy has to complete his triumph of destroying the Irish is summed up in the sinister and savage advice which is going the round of the clubs of the militarists and die-hards—'get them into the streets.'" The paper appears to the people for restraint and self-control.

The feeling in Cork. It is understood, is so embittered by the murder of Lord Mayor McCurtain that anything may happen there. But so far the victory will have to report, as did Lord Wimborne, a couple of years ago on the occasion of a single scare

WILL GET AFTER LIQUOR RUNNERS ON THE INTERNATIONAL BOUNDARY

WINDSOR, Ont., April 5.—Action by the Ontario Government to combat the activities of liquor runners along the international boundary has been promised by Hon. W. E. Roney, Attorney General, according to word received today by Mayor Winter. With the Ontario Temperance Act permitting importations of liquor into the province, the worst characters in Michigan and adjacent States are being attracted to Windsor, Mayor Winter declared. Desperate gunmen are being employed to smuggle liquor into the United States. Immediate action is necessary, the Mayor continued, if the border is to be made safe for decent people. The local police are doing all in their power to halt illicit traffic, as the number of arrests made daily will show. The condition has been brought about by the faulty Temperance Act, and it is the duty of the Government to aid the local authorities in bringing to justice the men engaged in the traffic.

GRAND FALLS MURDERER HAS BEEN RECAPTURED AND RETURNED TO GRAND FALLS

Was Found in a House at Limestone, Maine—Had Travelled a Distance of Fourteen Miles in His Night Clothing—The Officers Arrived in Time to Frustrate a Second Attempt at Suicide—Prisoner Did Not Resist.

Grand Falls, April 4.—Newman Clark, charged with the murder of Miss Phoebe Bell at the home of Herbert Wood here on the afternoon of March 25th, and who escaped from the Grand Falls hospital early Friday morning, was recaptured in Limestone, Me., this afternoon by New Brunswick officers.

Clark was brought to Grand Falls tonight and taken to a hotel, where a guard was placed over him. A warrant formally accusing him of shooting and killing Miss Bell has been served upon him. When the officers appeared at a house in Limestone to arrest Clark, he attempted to drink a quantity of iodine from a bottle, but the tincture was seized before he could swallow it. After Clark's apprehension the officers learned that he walked out of Grand Falls in his night clothing, unaccompanied, and that no one was in waiting to assist him when he left the hospital.

Maine Joined in the Search.

The search for Clark started late on Friday, when Sheriff Albion Foster of Carleton county came here to take the place of Sheriff Tibbitts, who is ill. County Attorney Roix, of Presque Isle, and other Aroostook officials were notified to be on the lookout for Clark and all conductors on trains crossing the border were asked to watch their passengers in the possibility that the wanted man might be among them. Many reports were circulated as to various persons having seen Clark, including one that he had been seen three miles from Grand Falls and another that he had been noticed near Limestone. The latter report proved to be correct. The search was kept up all day Saturday, but his whereabouts were not known by the authorities on either side of the international border up to midnight.

Today, however, High Sheriff Foster and Constable Miles McCrae crossed over the border and investigated the Limestone clue. Limestone is twelve miles southwest of Grand Falls and very close to the Victoria county line. The officers were well aware that Clark was acquainted with all parts of southern Victoria county and eastern Aroostook, as his home is in Four Falls, only seven miles from Limestone, and they expected that he would be easily identified if someone did not keep him in seclusion.

Tried to Take Iodine.

Shortly after noon today the sheriff and the constable called at the home of D. Morrell, who lives near Limestone village, and soon learned that the fugitive was in the house. When he saw that he was about to be retaken, Clark ran into a room and taking a bottle containing iodine, which he apparently had procured at the hospital, attempted to swallow the contents, according to the officers. The officers were too quick for him, however, for they immediately seized him and smashed the bottle.

Got Out Hospital Window.

It was learned that Clark escaped from the hospital by means of a window and walked in his night clothes all the way to Limestone. He was six or seven hours on the way, and when he reached Morrell's home he was in an exhausted condition and unable practically to go any further. It is believed that he intended to hide in Maine near the border for awhile until his self-inflicted wounds healed and he regained his strength. Whether it was his intention to return ultimately to his home in Four Falls is not known.

WOMAN FELL FIFTY FEET

New York April 4.—While being attended for minor injuries suffered yesterday when she fell fifty feet from a window of her home, Mrs. Sarah E. Wheeler, 71 of 201 Marion street, Brooklyn, remembered that a similar fall from the same window, eleven years ago, hurt her just a little. She told the ambulance surgeon, who had been called to examine her that when a child she climbed trees frequently fell almost as frequently, and therefore learned to fall right. At the time she slipped from the ledge yesterday Mrs. Wheeler was perched outside the window cleaning the pane. She dropped into a flower bed.

Off to the Woods.

Mr. Henry Braithwaite, the veteran guide left by the early train this morning for Boissetown en route to the Miramichi woods. He will spend the next two months trapping bears and other fur bearing animals.

TIGER SLAYS A CROCODILE

Cairo, Egypt, April 5.—Georges Clemenceau, radiating strength and vigor tells of bagging a crocodile on the upper Nile as one of the proudest achievements of his fourscore of years.

"They call me The Tiger in France" he said. I believe this is the first time that a tiger has killed a crocodile."

The great reptile, basking in the warm sunshine, opened its enormous mouth when M. Clemenceau fired. A bullet struck the crocodile inside its mouth, killing it.

"I have always held," said Mr. Clemenceau dryly, "that reptiles as well as human beings would do well to keep their mouths shut."

Will Not Run

St. John Times: During the last few days F. L. Potts, M.P.P., has been mentioned as a possible candidate for the mayoralty. Mr. Potts said definitely this morning that he would not be in the field.

KEEPING A SHARP WATCH FOR VISITORS FROM UNITED STATES—GLASGOW STEAMSHIP SEARCHED

Ammunition Reported to Have Been Found on the Deck After the Passengers Had Left the Boat—Owner, Taken by Surprise, Dumped It Overboard—Sixty Police Barracks in Ireland Reported Destroyed During the Week.

SETTLEMENT LIKELY WITHIN TWO WEEKS

Progress Being Made in the Soft Coal Party—Mr. Lewis Hard at Work in the Matter.

New York, April 4.—The controversy between the bituminous coal miners and operators settled amicably, John L. Lewis, international president of the United Mine Workers of America, devoted all of his attention Saturday to the anthracite miners and operators, a sub-committee of which met in the Union League Club, Mr. Lewis as chairman of the miners' delegation submitted statistics to show the miners' demands are in accordance with the increased cost of living.

Mr. Lewis said after the conference that considerable progress has been made. He asserted a settlement probably will be reached within two weeks. The wage question is the one being considered, he said, the miners and operators having agreed to let the demands regarding hours and working conditions stand until a wage scale has been decided upon. The sub-committee will meet again Monday afternoon in the Union League Club.

Representatives of the soft coal miners asserted yesterday that the fact they have come to an agreement with the operators in regard to a wage scale does not mean there is peace in the soft coal industry. The miners declare "there never will be peace as long as the operators continue to exact excess profits."

BIG SNOW FALL IN THE WEST

(Special to the Mail.)

Chicago, Ills. April 5.—The middle and southwest, heartened by weather bureau predictions of a return to the balmy spring weather today set about digging themselves out of record breaking snow falls.

BOY SAVES HIS THREE SISTERS

Crossville, Tenn., April 5.—Dexter Preston, 7 years old living on a farm near here, played a heroic role when the home caught fire during the absence of his parents, rescuing his three sisters, aged 5 and 3 years and 9 months from the flaming structure. He first carried the two smaller children to safety and then returned for the older child. Going back into the burning building again in an effort to save a shotgun the lad was cut off by the fire and was obliged to jump from a window. He was unharmed.

Still Alarm Easter Morning.

A still alarm was given at nine o'clock Easter morning for a slight fire at the residence of Mrs. Donaghey, St. John street.

THE CAMPAIGN IN TEMISKAMING IS BEGINNING TO WARM UP

COBALT, Ont., April 5.—The Federal by-election campaign is warming up. Hon. P. E. Blondin, Postmaster General, is here assisting Major E. F. Pullen, the Conservative candidate, and Hon. Hugh Guthrie, Minister of Militia, is expected to arrive here tomorrow to support Major Pullen. A. G. Staght, the Liberal candidate, held a meeting Sunday night and was assisted by Fred Pardee, M. P. for West Lambton. Mr. Staght expects more Federal help tomorrow. Election day will be Wednesday, and in the meantime as many public meetings as can be crowded in will be held by the Conservatives as well as the Liberals.

(Special to the Mail.)

London April 5.—In connection with the searching by the police of a Glasgow steamer arriving at Londonderry, it is stated that the authorities learned that certain persons were believed to be on their way to Ireland from America by way of Glasgow. It is also reported that after the passengers left the boat, ammunition was found on the deck. The owner, surprised by the police, dumped it over board. According to the correspondent of the Times all active Sinn Feiners are sleeping in different places each night to avoid arrest and deportation to England.

Police Barracks Burned

Another dispatch says that the authorities have received reports that more than sixty police barracks and posts for the most part unoccupied have been destroyed during the week end and that two policemen were shot and seriously wounded.

FRANCE FAR BEHIND IN PRODUCTION

Paris, April 3.—At a time when the rehabilitation of France is most urgent this country is amazed to learn that she is producing less for each hectare of cultivated land than is any other country. Official figures just issued show that France's production for each hectare of wheat, rye, barley oats potatoes and sugar beets is exceeded by the United States, Great Britain Belgium, Switzerland, Holland Denmark, Sweden and Germany. If France is to harvest as much for each hectare of cultivated land as do these countries she must increase her production of wheat by 70 per cent; rye 70; barley, 55; oats, 60; potatoes, 50; and sugar beets 20.

The figures show that before the war Germany, with a cultivated area virtually the same as that of France today produced far more of each of these products than does France.

"Lysis," writing in the Eclair, says "When a country is not increasing her means of subsistence, her population cannot increase. If the population advances in a country without augmenting that of its neighbor there is a rupture of the equilibrium between these two States and the stronger attacks the other without consideration of the theories of Wilson."

WOLVES ON THE RAMPAGE

Russellville, Ark., April 5.—R. L. Anderson of the United States Biological Survey has been sent to Pope county to exterminate the timber wolves in the northern part of the country where they have been destroying thousands of dollars worth of pigs, calves and sheep annually.

He will begin operations in the vicinity of Raspberry and Ben Hur. He will use traps in his operations and says it will perhaps require two or three months to complete his work. Mr. Anderson has been engaged in this work for several years, having been employed recently in Oklahoma, Texas and New Mexico.

F. J. Buckley of Minto is at the Barker House.
