G. W. HODGE

THE LATEST BOOK THE STRONG HOURS

By MAUDE DIVER

A masterful romance of England and the Canadian Wilderness, by a novelist placed by the New York Times in "the front rank of English writers." Etched against the stormy background of today, the characters stand forth as living men and women, valiant and great hearted comrades to every reader who has the power to think at great deeds and noble adventure. A story that every lover of good books will enjoy.

THE APARTMENT
NEXT DOOR

By
WILLIAM JOHNSTON
Lovers of mystery tales
will revel in this story
of the Secret Service.

THE HOUSE OF BALTAZAR

By WILLIAM J. LOCKE

In a Locke novel there is always
someone to love. This time it is John
Baltazar, the man who came back. It
is a big story, perhaps the biggest that
Locke has ever written.

THE RIDIN' KID FROM
POWER RIVER.

By H. H. KNIBBS.

This is a virile Cowboy yarn with
all the zest and swiftness of the usual
story of the West, but differing in
its crisp style.

THE PIANO PEOPLE

FOURTEEN IN U. S. OLYMPIC HOCKEY SQUAD

Boston, Pittsburg and St. Paul
Will Supply Players—The
Game to be Played
at Antwerp.

Pittsburg, March 15—Fourteen Star players from the Boston, St. Paul and Pittsburg A. A. hockey teams will be selected to represent the United States in the Olympic matches at Antwerp. This announcement was made officially today, following a meeting here of the International Skating and Hockey Union. The selections will be made following the P. A. A. St. Paul series here this week.

Roy D. Schooley, manager of the local sextet has been appointed manager of the United States Olympic team with full power to select the players to make the journey.

George V. Brown of Boston secretary and treasurer of the Union, represented Cornelius Fellowes of New York president, who was unable to attend the meeting.

Look out for fidgetiness. It is the beginning of temperament.

NOTICE OF LEGISLATION.

Notice is hereby given that a bill will be presented to the Legislative Assembly at the next session thereof to provide for the incorporation of the Professional Engineers of the Province of New Brunswick, and to establish the terms under which persons may be authorized to practice as professional engineers in this Province, and to regulate the conditions under which persons may be admitted as professional engineers.

Dated at Fredericton, N. B., the 15th day of January, A. D. 1920.

STONEHAM WILL NOT SELL NEW YORK GIANTS

Club will be Handed Down to
Owner's Son as Legacy—
opes for a Winning
Team.

Havana, Cuba, March 15—When Charles A. Stoneham purchased the New York National League baseball team, it was done primarily for the purpose of handing down the club as a legacy to his son. Mr. Stoneham made this statement tonight to check rumors which he said were current in the United States and Cuba that the Giants were for sale.

"I would not part with the Giants for several million dollars," said Mr. Stoneham, who added "that he hoped New York would be given a cup team this year or in the near future."

PHILADELPHIA NATIONALS GET CECIL CAUSEY

Columbus, Ga., March 15—As predicted, Cecil Causey, who has been a holdout, has been let out by Pres. Grant. He is now the property of the Philadelphia National League Club.

Waivers had been asked on him by the Boston owner, and evidently more than one club had refused to waive, for a telegram from the National Commission stated that he has been awarded to Philadelphia by lot.

Grant is going to let the case of John Scott, whom he suspects was influenced by Causey to some extent, rest for a while. Waivers will not be asked on him for the present at least. The same goes for John Paul Jones, who according to a letter written to Grant, has decided to retire from baseball.

Manager Stallings received a letter from Eugene Packard, a left-handed pitcher purchased by Pres. Grant from Philadelphia, in which Packard said that he is out of the game for good.

ENGLISH TRACK TEAM COMING

A writer in Sporting Life says that it is almost certain that two combined relay teams from Oxford and Cambridge will come over to the Penn relay carnival, but that neither university will be fully represented. Cambridge, for instance, will not be able to send G. M. Butler, the British quarter-mile champion nor H. B. Stallard the mile runner, as it will be term time when the trip is made and both men will be working for triposes. Why combined teams in events that will have individual teams of American colleges?

GRANT'S ANNUAL PASSES.

C. P. R. Encourages Loyalty in Service.

The C.P.R. to encourage loyalty in service and recognize the principle of co-operation has, through the president, Mr. E. W. Beatty, announced a new departure which will, doubtless be much appreciated. This is the granting of annual passes to officers and employees and their wives under the following classifications:

Employees in a general superintendents' district, who have had continuous service for a period of not less than ten years, will be granted an annual pass good over district on which employed.

Such employee, who has had continuous service for twenty years and over, will be allowed annual pass good over eastern or western lines upon whichever employed. Employee of any other department of the service will enjoy the same privilege as above, stating the territory over which pass is desired. Head office employees who have had fifteen years' service will receive annual passes over eastern or western lines where employed. Women employees are to be treated the same as men in this connection. This action expresses the policy of the C.P.R. to aim at the contentment and loyalty of the employees of whom there is an army of 60,000 at present, including all classes.

The Pension Fund, a free gift of the company, was the thought of Lord Shaughnessy. The employees contribute nothing. Already the operation of the fund has wrought great benefit. The effect of it has been to increase the contentment and loyalty of the employees, to give the sense of mutual co-operation, and to stimulate the general purpose and interest of the company. There are many all over the system on the Pension Fund, which offers protection in declining years. Millions of dollars are involved in the operation of the fund since its inauguration.

Now it is agreed the Pilgrims didn't land on Plymouth Rock, that the story is myth. Anyway, we got a mighty good strain of chickens out of the tale.

PROFESSOR'S WIFE HAS A DRESS TO FRIGHTEN FOES

(New York Sun)

Tactful? No, he wasn't tactful, the absent-minded professor whose wife recently purchased one of the new plaid frocks. But he was erudite. It is not every woman whose husband has the history of clothes at his fingers' ends, or at least within easy reach, as had this man, but whose least concern was what is modest in women's dress.

The plaid frock was really gorgeous very large as to plaids, challenging as to color and short and full in the skirt, as the newest and most dashing of the new plaid frocks are.

"Hm, hm, hm," buzzed the professor when his wife displayed her new finery. "Very fine! Excellent! Excellent! It seems a little abbreviated, my dear. Are you going to wear your knees bare like the kilties?"

The professor and his wife live in a very conservative college town. She repudiated the suggestion with horror.

Presently the professor was lost in an encyclopaedia. He came up beaming.

WALKER BROS. MERCHANT TAILORS

QUEEN STREET, WEST END

Canada at the National Chemical Exposition, Chicago.

The importance and magnitude of our Chemical Industries form a sensational chapter in the industrial history of Canada, that has become known the world over. Development followed development during the war with amazing rapidity and still continues. Some idea of the progress made, may be gathered from the fact that up to a few months prior to the end of the war all Synthetic nitrates for explosives produced on this continent, were of Canadian origin. Our production of acetone was equally phenomenal. It is no wonder, therefore, that Canada occupied such an important position at the National Chemical Exposition recently held at Chicago, admitted to be the greatest industrial event in the history of that city.

In addition to the large attendance from Chicago, over twenty thousand members of various scientific societies, Universities, manufacturing concerns and others interested in commercial and scientific development, attended the exposition. These included, The American Institute, Mining and Metallurgical Engineers, American Electro-Chemical Society, Technical Association of Pulp and Paper Industry and others.

The Government of Canada and the Province of Ontario, realizing the importance of this opportunity of telling abroad the story of our resources were represented by exhibits, and by some of their best men. The Canadian National Railways had an exhibit illustrating the mineral, forest wealth, water powers and raw materials of the country.

During the Exposition two addresses were delivered by C. Price-Green, Commissioner, Industrial & Resources Dept., Canadian National Railways, on Canadian National Resources and the great field afforded in Canada for enterprise and investment of Capital, which were widely reported in the American Press and many scientific publications.
