WORTHY REPRESENTATIVES

Of the people of the good old county of Sunbury know a good thing when they see it, they will send their energetic and popular representatives R. B. Smith and D. W. Mersereau back to the legislature by desisive majorities. The county of Sunbury has had worthy representatives in the utmost importance that they should Legislative in days gone by, but none after its interests and none possessed tered the Crown Lands of the province greater influence than Messers Smith and Mersereau.

It is pretty well known that in the days of the old regime some members least one member for Suntary as considerable of a nuisance, and invariably dodged him if they could. Not so with Messers Smith and Mersereau; the doors are always wide open for them, and requests made on behalf of their constituency always receive the most careful consideration. Evidence of the Mersereau, as representatives may be seen in the splendid roads and bridges of the county. It would not be an exaggeration to say that the fine roads of

Sunbury have attracted more strang- tired from the contest and is sucers to the county in the past two years than it had during the eight years the old government was in power. All

have remarked on the wonderful improvement in the roads, and not a few took the trouble on returning home to write and congratulate the Minister of Public Works and the County's repntatives on being able to bring about such a desirable change. The people of Sunbury helped materially to kick the old government out of office in 1917, and on October 9th, they will see to it, so far as their influence goes, that it does not get back into power

The friends of the Government in Northumberland are meeting at Chatham today to select candidates for the Legislature. It is expected that the old ticket composed of Hon. Robert Murray, Hon. J. P. Burchill, Dr. F. C. McGrath and Mr. D. V. Allain will be the choice.

That the city of St. John, with its great harbor works and promising future, would relegate Premier Foster to private life, at a time like this, and send a political montebank like Fank Potts to the Legislature is altogether inconceivable.
