

NIGHT COUGHS PREVENT SLEEP

WE'RE OUT THE SYSTEM

The dry, hacking cough, day and night is very wearing on the system. The constant coughing disturbs the rest and keeps the lungs and bronchial tubes in such an irritated and inflamed condition they get no chance to heal.

You will find in Dr. Wood's Norway Pine Syrup a remedy without an equal for curing coughs and colds, soothing the lungs, loosening the phlegm, strengthening and healing the breathing organs and fortifying them against serious pulmonary disease.

Mrs. Fred Fairburn, Copper Cliff, Ont., writes:—"I caught a heavy cold got a sore throat and had a terrible hacking cough that I could not get rid of. I could not sleep at night, I had tried quite a few remedies, but they did not seem to do me much good until I took Dr. Wood's Norway Pine Syrup. By the time I had taken two bottles my cough was all gone."

It seemed to loosen the cough right away so that I could spit up the phlegm that gathered in my throat, and also took that hot, raw, burning fever out of my bronchial tubes. I feel that Dr. Wood's has no equal. Price 25 cts. and 50 cts. at all dealers. Put up only by the T. Milburn Co., Ltd. Toronto, Ont.

People who have "had a good time" by letting romance have full sway, have usually had to pay for it more than its worth.

A man used to be regarded as generous when he let his friends in on the ground floor, but nowadays the height of hospitality is to invite them down cellar.

PREMIER FOSTER'S GREAT SPEECH IN THE LEGISLATURE

Continued from Page Two

evening the aggregate demands were \$100,000. Someone had commented to him that there was much ceremony at the opening of the Legislature. It was true that there was a certain amount of ceremonial. He believed that ancient customs should be preserved. There were too many fads and fancies. It would be much better to adhere to old customs and ceremonials and have fewer fads. If such were generally followed this old world would soon return to its normal condition.

If the hon. leader of the opposition had charges to make he knew the time and place. He (Foster) had every confidence in the Hon. Minister of Public Works and in the Hon. Minister of Lands and Mines, the heads of the great spending departments of the Government. The same is true of the Hon. Minister of Agriculture. He had confidence in every member of the Government and in every member who occupied a seat upon the right of the Speaker. If the hon. member had charges to make let him bring them before the House.

A Record of Scandal

It might be remembered that when the present Opposition was in power irregularities were charged and investigations were refused. It might be well for the people to recall those charges. It was charged first that the Murray Government must be held responsible for the carnival of graft which brought extortion of money

from timber limit licensees and Valley Railway Contractors, that the Government was responsible for the Gloucester and Kent graft as exposed by the Chandler Report. A motion by the Hon. Mr. Dugal to remove from office members of the Legislature was ruled out of order by a partizan speaker. It was also charged that there was a large deficit in the shipment of Patriotic Potatoes a charge fully sustained by the recent investigation. It was charged that the Government had failed to carry out its promise in respect to the Valley Railway in regard to the connection with the Trans-continental Railway at Grand Falls and the entrance into St. John on the eastern side of the Harbour. It was charged that the Government was responsible when J. K. Pinder secured a second guarantee of the Bonds and a double Federal Subsidy for the Southampton Railway. It was charged that the Farm Settlement Board existed chiefly for the purchase of abandoned farms from party friends. It was charged that the Government had failed to meet the demands of labor for a more generous and up-to-date Compensation Act, that nothing had been done for technical education, that the possibility of cheap power had not been investigated, that real progress in the Agricultural Department had not been made, that the Government had lent itself to the infringement of private rights by the introduction of the infamous foreshores bill. Investigation was refused at the time but all charges had since been proved to the hilt.

A Useful Minister

No Minister in the history of the Province has been more active in the discharge of his duties than the present Minister of Public Works. From all over the Province there was nothing but words of praise for the work he had performed. Everyone who had made use of the highways knew the terrible condition in which the Hon. Minister had found them under the regime of the old gov't. Wornout and tumble down bridges which were a menace to lives of motorists had existed all over the Province. Under the policy of the present Government Roads and Bridges were receiving attention. This was being accomplished by the use of the money raised by the Tax on Motor Vehicles. A vast improvement had been made since 1917. The opposition had been endeavoring to create the impression that the by-roads were being neglected for the benefit of the trunk roads. The opin-

RHEUMATISM FOR OVER 16 YEARS

No Return Of The Trouble
Since Taking "Fruit-a-lives"

103 CHURCH ST., MONTREAL.

"I was a great sufferer from Rheumatism for over 16 years. I consulted specialists; took medicine; used lotions; but nothing did me good."

Then I began to use "Fruit-a-lives", and in 15 days the pain was easier and the Rheumatism much better. Gradually, "Fruit-a-lives" overcame my Rheumatism; and now, for five years, I have had no return of the trouble. I cordially recommend this fruit medicine to all sufferers."

ion of the Government and of many others was that the best way to obtain a good road system was to start near the large centres of population and work in to the rural districts. Not one dollar had been required of the cities, towns and villages to pay for this road improvement. He might say that New Brunswick was the only Province in which that was true, and he did not purpose to state that a change should be made for that could be done only after a long education. Personally he had had the opportunity of seeing and travelling over roads in both Ontario and Quebec for which the towns and cities had helped to pay. The Toronto-Hamilton Highway had cost \$1,250,000 and of that the Province had paid only \$500,000. In Quebec, Municipalities pay three per cent of the cost of construction of durable roads and one-half cost of maintenance.

The Agricultural Department

In regard to Agriculture it had been the policy of the present Government while in opposition that a practical farmer should be at the head of the department. The present Minister had been appointed and he had lifted the Department of Agriculture out of the depths of incompetence and inefficiency into which it had sunk and had made it a credit to the Province. Soon after taking office the Hon. Minister had been called upon to lead the greater production campaign in this province and his success had been remarkable. This involved the handling of hundreds of thousands of dollars, but the supplying of seed grain and fertilizer had been carried out without the loss of a single dollar to the Province. It was a record of achievement of which the Government is proud. Agriculture in New Brunswick never had been so prosperous. It could quite properly be said that conditions had improved but they had been greatly aided by the policies adopted by the Hon. Minister of Agriculture. In 1917 there had been a marked falling off in dairying in New Brunswick. The production of cheese and butter had both decreased. He quoted statistics in support of the statement and could inform his hon. friends opposite if they desired to know the source of his information that it was the Standard of July 4, 1917.

MR. SMITH (Carleton)—Products are worth more now than then.

HON. MR. TWEEDDALE—The increases are shown in pounds and toas and not in value.

The Farmer Movement

HON. MR. FOSTER, continuing, said that members of the opposition stated that the farmers of the Province were not in accord with the policy of the Government and showed that by organizing to get the Government at the polls.

True it was the farmers were organizing but he had no quarrel with the farmers and was not worrying about his political future. If his friends opposite thought they saw the end of the Tory party in New Brunswick let them climb on the bandwagon of the United Farmers movement. When the farmers around him began to worry he would also. As a matter of fact he had read the platform of United Farmers and could see little difference between it and that of the Government. The only criticism against himself from the farmers' organization was on his attitude in regard to taxation of Victory Bonds. In connection with consideration of a St. John Bill he had said that he held Victory Bonds but could see no reason why they should be exempt from taxation. A Bill finally had been passed making it optional with any municipality to exempt Victory Bonds from taxation, but he did not know of any municipality which had taken advantage of the Act.

A Splendid Record

The present Government had a record of achievement superior to that of any other Government that had been in control of affairs. Included in that record were, The Extension of Franchise to Women, The Enactment of a modern Workmen's Compensation Act and establishment of a Board to carry out its Terms, The Reorganization of the Health Laws of the Province along lines advocated by social service organization, The adoption of an independent Audit of Provincial Accounts, the setting aside of Automobile Taxes to provide interest and sinking funds for Permanent Roads, and the carrying out of a comprehensive scheme of road improvement. The inauguration of a policy of Water Power Development, Increased Grants to Agriculture Establishment of Cooperative Creameries, Purchase of Suitable Seed, Supplying of Cheaper Fertilizers, Encouragement of Sheep-raising, Better management of Crown Lands, Increase of Stampage Rate from \$1.50 to \$3.50, Improved

GROWFAST CALF MEAL

Grofast Calf Meal will raise your calves and save all your butter fat.

Grofast Calf Meal will raise four or five calves at the cost of raising one calf on new milk.

Grofast Calf Meal is easily mixed, calves like it and they grow and develop as rapidly as on new milk.

Keep your calves growing. Stunted calves never develop into fine cows or steers. Grofast Calf Meal will keep your calves in a thriving condition so that they will grow rapidly. It is a dependable milk substitute.

Grofast Calf Meal is a scientific high grade substitute for milk in the quick growing of calves. Many inferior imitations are on the market which contain hulls, or other indigestible ingredients.

Try a 25 lb. bag of Calf Meal at \$1.75.
