### OF INTEREST TO WOMEN

HINTS TO HOUSEWIVES.

A timetable for trying is a handy  
thing to have in the kitchen.

Coffee grounds should never be  
boiled a second time.

Prepared horseradish is not so good  
as that which you grate and prepare  
at home.

Sew handles of strong tape to the  
four corners of the mattress and see  
how easily it can be moved out of  
doors to be dusted and aired.

In damp weather, when salt will not  
readily come out of the shaker, put in  
a few kernels of rice to absorb the  
moisture.

It is a good idea to cut the dough  
for baking powder biscuits with a  
sharp knife. The biscuits will be in  
squares and there will be no waste.

Rubber mats for use in the sink under  
the dishpan and under cooking  
utensils are easily made by trying to-  
gether a dozen or so discarded fruit-  
jar rubbers. They save time taken up  
in rubbing and scouring out black  
stains and streaks.

If you want to break off a glass  
bottle or jar evenly, soak a piece of  
string in turpentine, tie it around the  
jar exactly where you want to break  
it, and fill to just that point with cold  
water. Then set fire to the string, and  
the glass will snap off all along the  
heated line.

### LONG GLOVES.

With the none too becoming short  
sleeves gaining steadily in popularity  
it means that long gloves despite the  
exorbitant prices asked for them these  
days, will be worn, will have to be  
worn, by hundreds of women not bles-  
sed with pretty arms.

Long white gloves will doubtless be  
worn by the smartest women, but for  
those looking for the add and unusual  
in dress the new two color gloves will  
immediately appeal.

### LOUNGING JACKETS.

Lounging jackets or tea coats are in  
high favor from a fashion viewpoint  
as well as for the comfort they give.

Deshabille is the name that best  
describes some French creations in  
these indoor dress novelties that are  
in shape nothing more than huge  
squares with round, square or V shaped  
openings in the centre, permitting the  
square to be slipped on over the head.

But the charm and beauty of these  
simple sacks lies in the materials used  
lace and net georgette and hand em-  
brodery or fringe, or both, with gir-  
dles of colorful ribbon or of handmake  
silk flowers.

### THE POPULAR SMOCK.

Many mothers do not think a wash  
dress worth making over. But with ev-  
ery material costing so much it will  
pay this season. Sometimes a new  
frock, too, is torn or damaged in the  
front, so that it cannot be worn and  
yet the rest remains perfectly good.  
Then certainly it is worth making  
into a pretty little frock or smaller  
size for daughter. Pique linen and pop-  
lin are all pretty trimmed with white  
collars and cuffs or guimpes, frills or  
vesteeds of lawn or organdie. In mak-  
ing them, too, it pays to make these  
frocks so they can be let down. Either  
a deep hem, which is very good style  
on the little girl's frock, or a wide  
belt will make the dress to be worn  
by the growing miss last as long as  
the goods does. Truly, this is a prac-  
tical consideration for a busy mother.

### "The Vampire" Modernized.

A fool there was and his home he  
sold  
Even as you and I;  
And he laughed as he counted out  
his gold,  
Even as you and I;  
But he realized when it was too late  
That his profits would all evaporate  
On another purchase of real estate:  
Even as you and I.

### Conceded.

Old Gotrox—"Did you marry me for  
my money. Answer me that!"  
Young wife—"Certainly I did. And  
we'd get along nicely if you weren't  
so awfully stingy with it."

### Analogy.

"Pop, wasn't a soldier who carried  
a lance called a lancer?"  
"Yes, son."  
"Then is a soldier who carries a  
pike a piker?"

## \$4 Saved Two Fingers

The fingers were those of Mr.  
J. W. Bosnard, of 539 Craig St.  
E., Montreal. He says,—"A fam-  
ing beam badly smashed my hand.  
Two fingers were so severely  
crushed that the doctors said they  
would have to be amputated. Nat-  
urally I didn't want this, so de-  
cided to try Zam-Buk first. I ap-  
plied Zam-Buk daily, and by the  
time I had used \$4 worth, the in-  
jury was completely healed. My  
fingers were saved!"

Just another illustration of the  
healing power of Zam-Buk. Acci-  
dents will happen. It may be your  
turn next. Better get a box and  
keep it handy. Accidents are less  
frequent than skin diseases, and  
remember this—

Zam-Buk is just as good for  
eczema, ulcers, skin diseases, and  
piles, as for cuts, burns, bruises.

All druggists and stores 50c. box,  
or 3 for \$1.25. Refuse substitutes.

## ENGLISH TEAM WILL REVISIT U.S.

Philadelphia, May 20—Oxford, and  
Cambridge may send track teams to  
the relay carnival of the Universi-  
ty of Pennsylvania every two years,  
according to a letter received here by  
Murdock Kendrick, Chairman of the  
Pennsylvania Track Committee, from  
Captain Rudd, of the British team.  
Captain Rudd expressed the hope that  
the English institution may be repre-  
sented at the relays in alternate years  
and suggested that "in turn, it will be  
possible for Pennsylvania to come  
over to us and foster the very real as-  
sociation that is springing up between  
our Universities."

As a last resort, most people think  
they could go to farming. There are  
all kinds of farmers—those barely  
able to have fresh eggs and those who  
have bank accounts.

## LETTUCE SALAD FOUNDATION

Since lettuce is undoubtedly the  
foundation of all good salads, and  
since salads have been recommended  
by authorities as a necessary balance  
to a proper meal it is unquestionably  
right that we should give it first con-  
sideration when planning our sum-  
mer vegetable garden.

Here is a little program for lettuce  
growing that should prove helpful in  
supplying the green leaf throughout  
the season. Incidentally it ought mat-  
terially to reduce the cost of table sup-  
plies. Select a bit of the garden which  
has rich loamy soil and work it over  
and over to get it in the finest possi-  
ble condition. Work into the surface a  
good dressing of commercial fertilizer  
and rake it smooth. Buy a packet of  
seed of Grand Rapids, which is the  
best loose-leaf sort; Non-Parli, which  
is a good cabbage-head variety, and  
Triamon one of the best types of Cos  
or Romaine. Line the plot at least  
twelve inches apart and make shallow  
drills not more than an inch deep.  
Sow the lettuce seeds sparsely, per-  
haps five to the inch, and cover very  
lightly with fine soil. Plan for a  
short row of each of the varieties se-  
lected, being careful to use for this  
first planting only a fraction of the  
seed in the packet. As soon as the  
seedlings come up, hoe between the  
rows and weed the rows carefully,  
thinning the seedlings at this time to  
at least an inch apart. Continue hoe-  
ing every few days and weeding as  
necessary, and when the plants have  
one good-sized true leaf in addition to  
the pair of seed leaves, thin them  
again. In the case of the cabbage-  
head sorts, transplant them to a new  
situation at least ten inches apart. A  
little later the small leaves will be  
large enough for table use in the case  
of not transplanted, and the plants  
may be thinned gradually to six in-  
ches apart, using those pulled up for  
the table.

Two or three successive sowings at  
intervals of two weeks will keep up  
a continuous supply. For the later  
sowings, use the Romaine varieties  
only, and in early summer furnish  
some kind of shade for these.

C. F. Inches of St. John arrived in  
the city this morning.

## BIG THEFT OF LIQUOR

Cleveland, Ohio, May 20—A motor  
truck loaded with whiskey valued at  
\$18,000 was driven away by liquor  
thieves this morning when Samuel  
Cohn, chauffeur, left it while he break-  
fasted. The truck was loaded with  
120 cases of bonded whiskey, intend-  
ed for medicinal purposes, which  
Cohn was transporting by Govern-  
ment permit from a Kentucky distil-  
lery to a wholesale house in Brooklyn.

### In a Better Place.

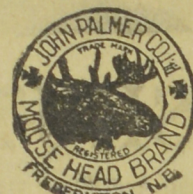

Dibbins was dining with some peo-  
ple who were proud of the recent  
elevation of a member of the family  
to the house of lords.

"This," said his hostess, "makes the  
second of my husband's family in the  
peerage. Have you any relation in the  
house of lords?"

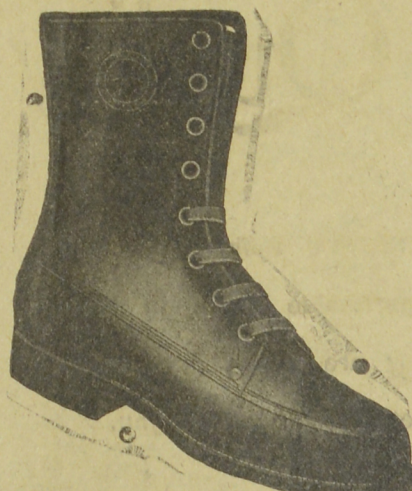

"No!" said Dibbins, "but I've two  
maiden aunts in the kingdom of heav-  
en."
