## RAMWAY MEN IN UNITED STATE DISSATISFILD THE WAY THINGS ARE GOING

A Strike in the Near Future Will Cause No Surprise-Conference Being Held at Washington-Marked By Heated Discussions-Railway Wien Talk of Asserting Their Strength By a Walkout.

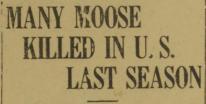

Washington Feb. 27-Railroad labor is not satisfied with the way things are going with respect to its wage demands. This was indicated in unmistakable manner in conferences here today of union officials and general committeemen called to pass on the President's settlement proposal. Passage of the railroad bill by the Senate only served to add more bitter ness to the talk of the union workers

the hotel lobbies buzzed with the possibilities

### **BUSINESS IN CANADA IS ON** THE BOOM DISPITE ADVERSE **EXCHANGE RATE; SIGNS HOPEFUL**

Canadian Bankers See No Signs of Contraction in Business-Legislation to Conserve Canada's Resources-Lumbermen Protest Against the Idea of An Embargo on That Product They Have Various Reasons.

Toronto, Feb. 27-While financial watchdogs are still eagerly scanning the horizon for possible changes arising from international exchange and trade business has continued uninterruptedly good. Bankers say they see no signs of contraction in industry, though they admit there may be, and probably will be, difficulties before normal life of peace time can be resumed It is thought that bankers are preparing more than industrial leaders for such a period as industry is still so fully occupied and sees little chance of a change for some time.

A banker expresses the view that a degree of uncertainty will continue until the Dominion Government's financial plans for the year are made known. If the Government forgoes a popular loan and calls on the banks for money the banks in turn will hold a tighter rein against the general public.

A survey of reports from branches of a bank with wide Canofficers were inclined to discount this, ainst 1243 the year previous, while adian connections shows no sign of abnormal conditions; in now proceeding rapidly, and a work- On the day set for execution the fact, there was a general revelation of continued business and ing committee has been named fully noose slipped and Purvis fell through good times.

#### **TO CONSERVE RESOURCES.**

Trade relations between Canada and the United States con-leured. Shares in the new concern are he could not twice be punished for the inue to occupy a place of prominence. Ottawa despatches have to be sold at \$5 each, and are limited same offence, and sentence was comforeshadowed legislation "which will have as its purpose the to 20 shares to each individual. Citi- muted to life imprisonment. conservation of resources which are in danger of utter denudation from the inordinate demand from other countries." This obviously referred to lumber and newsprint. The newsprint say that this announcement will be case has been taken care of for months by the reguluation that followed by a rush to become share-Heated discussions marked all of the conferences of the fifteen organiz-ations which met separately. None was able to finish examination of the hares for the island of Cape Breton 15 per cent. of the Canadian output must be relained for the holders in the co-operative enterprise

Lumbermen have protested against the idea of an embargo on the export of their product for various reasons, one being the hindrance on production which this would involve, and General and the White House, as dele fox, racoon and muskrat ended Feb. another the necessity for many kinds of wood from the United States now being imported. Lumbermen here apparently take the ground that conservation is none of their affair, despite the fact that they derive their product from the State at a low cost. The State has failed to appreciate the responsibilities of providing replaceable natural resources, like wood, for future generations; hence the lumber industry, ravaged by fire year lafter year as well as the harvest of the woodsmen, is in danger

of serious impairment before many years pass.

### **GREETINGS FROM THE KING READ** AT THE OPENING OF PARLIAMENT

Ottawa, Feb. 27.—At the opening of Parliament yesterday NO ACTION RE opening of the new buildings. The message was as follows: London, February 23, 1920.

I desire you will convey to my faithful Senate and House of Commons of Canada my warmest greetings on this the first occasion of their assembling in the new buildings with the erec tion of which my son is proud to have associated. It is my fir assurance that the business of the Parliament of Canada will. as in the past, redound to the happiness and prosperity of the great Dominion whose well being is so vital to the empire.

A resolution of acknowledgment was moved by Sir George E. Foster and seconded by Hon. W. L. Mackenzie King.

Traffic on the Railways is Interrupted and Country Roads Are GEDDES HAS Blocked-An Old Resident Sees Signs of a Spectacular Ice Run Early In April.

WORST SEEN IN THIRTY YEARS

The snow storm which swept over the city this week is land Geddes, Minister of National Ser described by old residents as one of the most severe which this lice and Reconstruction, has been se locality has experienced in more than thirty years. The roads in many parts of the country are completely blocked, tracic on the railways has been severely interrupted, and work in the iumber woods has been seriously hampered.

#### Heavy Fall of Snow.

It began snowing early on Wednesday and there was no let up until the following morning. About a foot of snow fell on the level but the strong wind which prevailed caused it to drift badly in many places. The city snow-plowing contractors faced a tough proposition yesterday. They found the snow row night. The case which will be the ministry without affiliation with piled up high on the sidewalks, and they had difficulty in cutting a pathway. Hard mounds have formed in many places and ally be a prohibition one. The judge of the new Church would be to mainpedestrians have great difficulty in getting along. Only warm sunshine and rain can now remove the accumulation of snow from the sidewalks

#### PREDICTS BIG FRESHET.

One old resident predicts that the coming spring will witness the biggest freshet seen here since the year 1887 when A. E. Raymond of Woodstock is in high water mark was reached. He points out that the ice in the river is at least three feet deep, and the great accumulation of snow is likely to start it moving earlier than usual. When it does move, he says, it is likely to cause more than a ripple of excitement. He is satisfied from present indications that a very spectacular ice run will be witnessed here about the second week in April.

LLOYD GEORGE EXPLAINS WHY TURKS REMAIN IN CONSTANTINOPLE

London, Feb. 27 .- The decision not to oust Turkey from Constantinople was reached by the Allied Supreme Council only after long consideration of the difficulties in the Turkish situation, Premier Lloyd George declared in the House of Commons today when the question of the future of Turkey was brought up for debate. The decision, said the Premier, was a balance of advantages and disadvantages and and it was upon this balance and after weighing carefully all the arguments pro and con that the council concluded that on the whole the bet of Commons, said the government was aware that invitations were being is-sued through the American press in-viting subscriptions for bond certifi-cates of the Republic of Ireland, but that Great Britain had made no renta reiterated his pledge that there would be a "different gurrd
