GOVERNMENT PARTY NAMES A WINNING TICKET IN YORK CO.

(Continued from page three.)

to go before the convention but to the regret of the committee both had declined. He believed however that the names which he would submit would meet with approval. It had been felt that the farming population should be represented. In the past it had not had fully represented and for that reason was talking of going into politics. Two representative farmers had been chosen Coun. John T. Christie a successful farmer of Keswick and Coun. Frank Coburn of Harvey. The other members of the ticket were Peter S. Watson of Devon and J. Bacon Dickson of Fredericton.

R. W. McLellan moved the adoption of the report. The committee he felt, had done well particularly in seeing that the farming population was represented. The Government deserved credit for what it had done for agriculture and the support of the farming population. P. S. Watson was a well known business man and J. Bacon Dickson had built up a practice in a manner which stamped as a young man of ability and energy.

Col. W. J. Osborne.

Col. W. J. Osborne in seconding the adoption of the report said that the nomination of two farmers was a move in the right direction. He himself had been born upon a farm and his son was attending the Ontario Agricultural College at Guelph. A wise choice had been made in the selection of P. S. Watson of Devon. The union of St. Mary's and Gibson had produced a community which deserved representation. In J. Bacon Dickson all recognized a rising young barrister and the son of one of the staunchest Liberals the province ever produced.

Coun. John T. Christie.

Coun. John T. Christie expressed his gratitude to the convention for the nomination. He would endeavor to do his utmost during the campaign and if elected would serve the best interests of the people of York. As he never had laid claim to being an orator he would give way to some other candidate.

Coun. Frank Coburn.

Coun. Frank Coburn expressed his thanks for the honor conferred upon him. If chosen as one of York County's representatives he would stand by the interests of the people of York and his colleagues would do the same. He would be open to suggestions at any time. He felt sure that if the ticket nominated then were returned its members could show the people of the county, after four years, something which they had not seen before.

Peter S. Watson.

Peter S. Watson thanked the delegates and particularly those from his own little town for the honor given him. Even if he should not reach the legislature he could have a feeling of pride in the nomination. All present had heard of the good record of the Foster Government and he would not repeat what had been said by others. However he would like to mention the hydro-electric project. New Brunswick never before had had a government which would undertake water power development. The people had Hon. Walter E. Foster to thank, as a man big enough to attempt the undertaking. With Messrs. Christie and Coburn the farmers and producers, Mr. Dickson as the legal man and thinker and Pete Watson as the dickerer the ticket should be alright.

J. Bacon Dickson

J. Bacon Dickson expressed his gratitude. If elected he would do his best for the province. If defeated he would have the feeling that he had stood up and fought for better conditions. When the last election had been held in the province the name of New Brunswick in other provinces had been a byword for corruption dishonesty and intrigue as far as politics was concerned. Less than four years under the Foster Government had brought about great changes. Double the amount of money had been handled and no person could say a dollar had been misappropriated or misapplied. A system of finances had existed by which by holding back accounts a surplus could be made to appear whenever wanted. A real financial system had been substituted for that and that alone would warrant the return of the Foster Government to office. As far as highways were concerned all that need be done was to apply

the standard of accomplishment to the work of the Government. The cry was raised by the Opposition that the lumbermen had the Government by the throat. The history of the past few years showed that it was the other way round and that it had been the Conservative administration which had taken the lumbermen by the throat and forced the payment of \$150,000. In return an order in council had been passed fixing the stumpage rate at \$1.50 for ten years. That order in council was rescinded but only when popular opinion forced it. Farmers said they would enter the political field. If that was necessary why did they not complain of the attention given agriculture by the Government. A farmer was Minister of Agriculture who devoted practically his whole time to the duties of his office. The introduction of cooperative marketing and the distribution of ground lime at 60 per cent of former cost were instances of progressive policy. Other excellent pieces of legislation had been the Workmen's Compensation Act, Vocational Education provision, and Water Power development.

Mr. Dickson said he had no quarrel with the United Farmers but did not believe that they had any excuse for coming into provincial politics at this time. They stated no policy and evidently were going into it for power and to satisfy the ambition of certain of the members. In federal politics a motive could be discerned but in provincial politics it looked like a class movement. As far as he was concerned

ANNIVERSARY SERVICES WELL ATTENDED

(Continued from Page One)

tery, Aug. 15, 1918, Ernest A. Brewer, 26th Battalion, Oct. 8, 1918. Greater love hath no man than this that a man lay down his life for his friends.

During the service J. Barry Allan gave a very interesting sketch on the history of the George Street Baptist Sunday School.

Established 1850

The sketch of Mr. Allan stated that the earliest record of the Sunday School dated from 1850, George E. Atherton being the first superintendent. He was succeeded by E. C. Sneeze. Others who occupied the superintendency at various times were Hon. J. A. VanWart sometime judge of the New Brunswick Court of Queens Bench and Sir George E. Foster then a professor at the University of New Brunswick and now Minister of Trade and Commerce. H. T. Brewer the present superintendent has been in that office since 1912.

Rev. J. B. Daggett in his remarks gave sketches of the four boys who gave their lives in the war. He emphasized the fact that all were baptized members of the church and members of the Sunday School.

Evening Services

The church was crowded at the evening services, the main floor and the gallery. Rev. A. A. Rideout gave an inspiring sermon on "Our Uplifting Vision". At the close he made an appeal for all those who wished to have a vision of Jesus Christ to uplift the hand for prayer while the people bowed their heads and about a dozen hands went up. It was a most inspiring service and set the key note for the Anniversary services which continue each night this week. As the George St. Baptist Church began 75 years ago with conversions so now the church starts out on the fourth quarter of a century with the same vision of service for the salvation of the people from sin by faith in the Savior of the world as the only hope.

Wagon Demolished by Car

William Hart employed with Harry Crotty as a driver received painful injuries Saturday afternoon when the delivery wagon which he was driving was struck by an automobile driven by Guy Anderson and also containing Samuel McDonald. The wagon was reduced to kindling wood and the harness was stripped from the horse. Mr. Hart was thrown some distance and alighting on his head sustained some severe cuts.

Before long it will be as expensive to be afflicted with wanderlust as with appendicitis.
