THE EXCHANGE RATE.

Mr. George E. Roberts, Vice-President of the National City Bank of New York, in an address the other day to the Merchants' Club of that city, in discussing the rate of exchange had this to say:

"We hear daily from our customers who are having trouble in holding their Canadian trade. Some of them say they cannot hold it; some of them are dividing the cost of exchange with their Canadian customers; some of them have been taking their pay in Canadian funds, that is, in cheques on Canadian banks, and some have been converting their funds into Canadian investments, which is all right if they are able to spare the capital from their business. I had a talk a couple of months ago with the Treasurer of an important corporation, who said that he had \$2,000,000 in Canadian banks. He wanted to borrow against his Canadian balances. He said: 'I am getting my working capital tied up in Canada.' And I said: 'Yes, and you want to get your working capital tied up in Canada.' That is something which has been going on to an extent which we can only estimate, but undoubtedly our exporters, not only to Canada, but to Europe, have been taking pay in foreign funds which are not realizable at present, and borrowing of their bankers to replenish their working capital. That is one factor in the rise of bank loans in the last year."

LUCKY ONTARIO

In referring to the strong and advantageous position which the Province of Ontario occupies on account of the hydro electric system the Galt Daily Reporter says: 'In face of the Pennsylvania coal situation, can Ontario be described as anything but lucky in the possession of her Hydro-electric system? What would her people do without it? And what would the Stat of Pennsylvania not give to control her coal mines—fixing rates to consumers, etc.—as this Province is controlling her water powers? A few Becks in the State across Lake Erie early last century and a people educated to ownership of their own natural resources would have saved millions of consumers of coal from the exactions they are subject to today as the result of private operation of the mines. We are suffering today from the mistakes of the past, and there is no saying where the coal situation will finally lead us to. Probably ere long Hydro-electric operations and oil as fuel in general use will together solve the problem for Canada.'

The bill introduced in the Legislature by Premier Foster last week is going to do much to solve the problem of cheap power, light and fuel for New Brunswick. The scheme as outlined by the Premier embraces every section of the province and people in rural sections as well as in urban centres will benefit enormously from it.

GREATER PRODUCTION.

Dr. J. W. Robinson, addressing the Toronto Board of Trade last week, said that greater production of food-stuffs was urged on the farmers of Canada during the war as a patriotic

HIGH HEELED SHOES PUT CORNS ON TOES

Tells Women How to Dry Up a Corn So It Lifts Out Without Pain.

Modern high-heeled footwear buckles the toes and produces corns, and many of the thousands of hospital cases of infection and lockjaw are the result of woman's suicidal habit of trying to cut away these painful pests.

For little cost there can be obtained at any pharmacy a quarter of an ounce of a drug called freezone, which is sufficient to rid one's feet of every hard or soft corn or callus without the slightest danger of inconvenience.

A few drops applied directly upon the tender, aching corn stops the soreness and shortly the entire corn, root and all, lifts right out. It is a sticky substance, which dries the moment it is applied and thousands of men and women use it because the corn shrivels up and comes out without inflaming or even irritating the surrounding tissue or skin. Cut this out and try it if your corns bother you.

duty, but it is now a matter of self interest, as during the next two years they will have the chance of a life time to earn reasonable and even large profits. Here is what he said:

"It will likely take at least two years, 1920 and 1921 for the production of foodstuffs to meet the world's requirements and leave over a moderate reserve as security against scarcity the following year; that it will be many years before the world's production of milk, butter and cheese can adequately meet the demand, and that several years must pass before the supplies of cattle and hog products can be sufficient to provide nutritious rations of an invigorating sort for the millions of people who require them for the hard labor to which they must apply themselves—and that with bodies weakened by the incomplete diet and other stresses of war."

"Any extra quantity produced in Canada as the result of extra effort cannot of itself be an appreciable factor in reducing world prices. The more we produce the more money our farmers will receive the more quickly our nation will recover from the losses of war, and the more will we help to bring good cheer to a world still reeling and scarcely yet conscious of the extent of the appalling losses and wastes of four years of destruction."

MR. MAGEE'S POSITION.

The Moncton Transcript in replying to some criticism made by a writer in the Stardard, with reference to Mr. Magee's attitude on the stumpage question says:

"The charge of inconsistency does not lie against Mr. Magee. But it would have done so if he had ignored Premier Foster's specific statement, and voted to show his approval of the innocuous clap-net of the Opposition Leader. As the Premier pointed out the Government without breaking faith cannot alter the stumpage rates before August and his promise to raise rates then if circumstances warrant is something more substantial than the promises of a Leader who is repudiated by some of his own followers, and who at the last election allowed his henchmen to tell the lumbermen that if returned to power stumpage rates would be fixed at \$1.50 for ten years."

"The charge of inconsistency might be brought against the writer of the letter signed Port Elgin, for after demanding an increase in the stumpage in order to put a bigger share on Provincial taxation on the lumbermen, he says 'It is foolish to imagine that the operators would pay it themselves, for they are not built that way—the consumer is the victim every time.'"

Some of Mr. Magee's critics, appear to have overlooked the fact that he was the mover of the address in reply to the speech from the throne. Yet they claim that he was inconsistent in not supporting Leader Murray's amendment to his own motion. Who ever heard of anything so ridiculous?

What causes Indigestion

An excess of acid in the stomach sours the food and starts fermentation. Distressing gases form. Your meals don't digest but lay like lumps of lead. Then you have heartburn, flatulence, fullness, belching, headache, and real misery in the stomach and intestines.

A few tablets of "Pape's Diapepsin" bring relief almost as soon as they reach the stomach. "Pape's Diapepsin" costs little at drug stores.

** THROUGH OUR SIEVE **

Day labor is getting to be as temperamental as a prima donna.

Any man to whom the world owes a living is out working for it.

A married man usually feels sorry for himself when his wife is sick.

If a man is looking for an easy job he has no time for anything else.

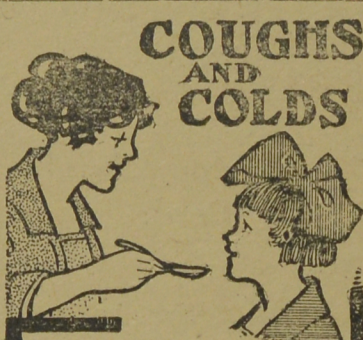

Only way to succeed in politics is not to want office too earnestly.

There are but few sensible people in the world—but they all agree with you.

Whoever is alluded to as having courage of his convictions is always opposed to popular opinion.

The average man knows where to put his confidence, his faith his money his teaspoon—everything on earth except his feet!

There are a number of people who get up very early in the morning, but

demand prompt attention. They pave the way for "The Flu".

HAWKER'S TOLU AND CHERRY BALSAM

should be taken immediately the cold or cough makes itself felt. If taken soon enough, it will break it up in 24 hours.

Read the following testimonial. We are receiving letters like this in every mail:

"I take great pleasure in stating that I have used Hawker's Tolu and Wild Cherry Balsam in my family for years and find it an excellent remedy for coughs and colds."
THOMAS McAVITY,
St. John, N. B."

Sold by all druggists and general stores. The same price every where—25c. & 50c. None genuine without Company's Name.

HAWKER'S LITTLE LIVER PILLS CURE ALL STOMACH ILLS.

HAWKER'S NERVE AND STOMACH TONIC THE GREAT INVIGORATOR. BUILDS UP THE SYSTEM.

LOCAL NEWS

Sale and Tea.

The Senior Mission Band of the Brunswick Street Baptist church will hold a supper and sale of fancy and useful articles in the Vestry of the church on Wednesday, April 7th. Supper will be served from 5.30 to 7 o'clock for the sum of 40 cents.

Death of Child

The many friends of Mr. and Mrs. John Markey will sympathize with them in the loss of their one year old son Robert B., who died last night at the home of his parents on King Street. Besides his parents one brother George survives. Interment will be made at the Rural Cemetery, Rev. A. F. Bate will conduct the service at 2.30 p. m. Wednesday.

Entertained Last Evening

Miss Jessie Dennison entertained a few of her friends at her home in Marysville last evening, the occasion being the anniversary of her birth day. The boral decorations were pink and white, and the place cards were of Easter design. A very enjoyable evening was spent with music and games. Miss Dennison was the recipient of many beautiful gifts.

Children's Aid Took Child.

Moncton Times: Mary Celina Doyel, a ten-year-old girl who was taken from the care of some squaws living in this city on Thursday night, was yesterday brought by the authorities before Sitting Magistrate MacDougall and after the evidence of police officers had been taken, was then committed to the Children's Aid Home. The child was taken in charge by Mrs. W. A. Ferguson, representing the home, and in future will be properly looked after. Evidence produced by the officers showed that the girl had received cruel treatment at the hands of her dusky guardians, oftentimes receiving the most severe whippings when she did not please them.

don't do anything much on that account.

Mistakes of youth are made through impulsiveness; of middle-age through caution. But it can't be helped.

SAYS THE DRUG IS AN ETHER COMPOUND

Just a few drops loosens any corn so it lifts out without pain.

You simply say to the drug store man, "Give me a quarter of an ounce of freezone." This will cost very little but is sufficient to remove every hard or soft corn from one's feet.

A few drops applied directly upon a tender, aching corn should relieve the soreness instantly and soon the entire corn, root and all, can be lifted out with the fingers without pain.

This new drug called freezone is an ether compound discovered by a Cincinnati man, who says that while freezone is sticky, it dries in a moment, and simply shrivels up the corn without inflaming or even irritating the surrounding tissue or skin.

Don't let father die of infection or lockjaw from whittling at his corns, but cut this out and make him try it

JOHN J. WEDDALL & SON'S Ladies' Silk Hose

VENUS, in Black, White, Grey, Bronze and Navy Blue.
