SEVERE RIOTS REPORTED AT LONDONDERRY IRELAND

Five Policemen Shot and Two Shops Burned to the Ground---Fray Began at 9 o'Clock Saturday Evening --- Shoppers Terrified---Property Destroyed Owned by Sinn Feiners.

Belfast, Nov. 7.—Wild scenes were witnessed in Londonderry Saturday night as a sequel to a sudden attack on policemen there. Five policemen were shot, two of them so seriously that they are not expected to recover, two shops were burned to the ground and several others were wrecked. All the property belonged to the Sinn Feiners. The attack on the policemen was directed against the officers who were guarding the customs house and a brisk exchange of shots followed. The fray occurred at nine o'clock in the evening in a busy neighborhood and so terrified the crowds of shoppers that they fled homeward in a panic. Afterwards the police and the military raided a large section of the city, holding up and searching every one they found out doors and invading and searching numerous houses.

Later in the evening a hostile crowd assembled in Waterloo square, a Sinn Fein thoroughfare, and had to be dispersed by the military. Even after the curfew hour there was almost unceasing revolver and rifle fire for two hours or more with occasional sounds like explosions of bombs.

A number of armed men passed along William Street, smashing shop windows with the butt ends of rifles destroying the lamps on the electric standards by rifle fire and plunging the whole street into darkness. Two premises were set on fire, one being a garage, which was completely destroyed. A number of domestic animals were burned to death and the motors in the garage reduced to scrap.

Many persons left their houses and spent the night in distant parts of the city.

Two policemen who had been wounded were found lying in Foyle street. It is not known how they received the bullet wounds from which they were suffering.

A fire brigade called to fires in William street had a thrilling experience. Before starting the firemen appealed for military aid and a number of armed soldiers traveled on the engines. On their way rifle fire was opened upon them from both sides of the road. The soldiers returned the fire and two men were seen to fall.

To escape the fusillade the engines took a circuitous route and called at the military barracks to get more soldiers before proceeding.

The official report of the disorders says that three constables in plain clothes received severe gunshot wounds, it is believed from the military escorting the fire brigade. Of two stores wrecked one belonged to a member of the Londonderry corporation.

Police Attacked

Dublin, Nov. 7.—An attack by a mob on two policemen Saturday night culminated in the shooting of two civilians, one of them seriously. The affray caused a great panic, as crowds of people were just leaving the theatres. The policemen who fled from the mob fired their revolvers at their pursuers.

BEWARE OF BRONCHITIS

Bronchitis is generally caused by neglecting a cold, or exposure to wet and inclement weather. It begins with a tightness across the chest, difficulty in breathing, and a wheezing sound comes from the lungs. There is a raising of phlegm, especially the first thing in the morning. This is at first white, but later becomes of a greenish or yellowish color and is occasionally streaked with blood.

On the first sign of bronchitis you should check it immediately by using Dr. Wood's Norway Pine Syrup, thereby prevent it becoming chronic, and perhaps developing into some more serious lung trouble.

Mrs. Brice Culham, Sheffield, Ont., writes: "In December, 1919, I was very sick with bronchitis, and had to stay in the house all winter. One day I saw Dr. Wood's Norway Pine Syrup advertised, so I got a small bottle which helped me very much; I then got a 60c. size, and it completely relieved me. I cannot praise 'Dr. Wood's' enough for what it did. Two of my neighbors are now using it for colds."

Don't accept a substitute for Dr. Wood's Norway Pine Syrup; the genuine is put up in a yellow wrapper; three pine trees the trade mark; price 35c. and 60c.; manufactured only by The T. Millburn Co., Limited Toronto, Ont.

Hon. J. P. Byrne of Bathurst, Attorney General, is at the Queen.

One policeman was captured and thrown in the street but was rescued by other police.

Arrests Denied

London, Nov. 7.—Official denial is made of Friday night's Central News despatch that 200 Sinn Feiners were arrested near Macroom after soldiers and police had surrounded an assembly of Sinn Feiners.

The correspondent of the Central News at Tralee reports he has received written warning that he will be shot if he transmits any despatches without first submitting them to the police.

Sir Hamar Greenwood, chief secretary for Ireland was questioned in the House of Commons last Wednesday regarding a story from a staff correspondent in Ireland of the Daily News to the effect that the correspondent's life was in danger from "black and tans" because he wrote the truth. The government said Sir Hamar had not been informed of the threat but he had instructed the district inspector at Tralee, where the threat was alleged to have been made, to give protection to all newspaper correspondents.

THE PULPWOOD SITUATION

(Journal of Commerce)

The pulpwood market is firm in price at the present time but some dealers see signs of a slump in prices by the time the snow comes. One dealer expressed the belief that rough wood would go down \$2 a cord within the next six weeks, although he did not anticipate any material reduction in the price of peeled wood. The situation has so shaped itself that but few dealers are buying pulpwood for speculative purposes. One leading Toronto firm which deals in pulpwood and lumber having bought and produced all the wood covered by its contracts is now going to play safe and buy no more, although the firm is in receipt daily of letters offering wood for sale. The firm however is not in the market for more wood. There appears to be considerable activity in the woods, farmers, settlers and others being engaged in taking out the wood in considerable quantities. Cordwood is exceedingly scarce and it is estimated that about five hundred cords would cover the available supply in the woods, although there is some in the wood yards. During the coal shortage of a couple of years ago woodsmen were urged to get out all the wood they possibly could and when the coal situation righted itself the consumption had kept pace with the production. Comparatively little cordwood has been cut since then and hence the shortage at the present time. If the Canadian woodsmen are going to be called upon to jump into the breach now that the world's coal supply is threatened by strikes in various countries it may mean a big call for cordwood and a consequent lessening of the production of pulpwood.
