A POULTRY CHANCE

I am offering for sale twenty five pure bred Barred Plymouth Cockerels of high laying strain. These birds were imported as baby chicks from one of the largest poultry farms in the New England States. All are from trap-nested stock, having an egg record of from 230 to 250 eggs per year.

Remember, a high class pedigree male bird is fifty per cent of your flock. I have undoubtedly the finest poultry stock ever brought to Fredericton. One of these birds purchased across the line would undoubtedly cost from \$8 to \$10. I am selling them from \$4 upwards.

Will be sold for immediate delivery or kept until September.

Book your orders at once as they are going fast.

WELL DESERVED PRAISE FOR THE FOSTER GOVERNMENT

Cleaned Up the Mess Left by the Old Administration and the Province of New Brunswick is No Longer the Cause for National Finger-Pointing—The Government's Policy Commands Commendation and Merits Endorsement.

(St. John Globe, Ind.)

Although the provincial opposition held a party convention last year, named a leader, drew up a platform and made other political preparations the call has gone out for another convention next week. This call suggests a change in leadership if not in the platform and policies on which the opposition will fight the government in the short campaign to end October 9. Called to office following the general election of February 24, 1917 the Foster government has been in control of provincial affairs a little more than three years. In that brief time a good deal of history has been written. Official disclosures before legislative committees, royal commissions and courts of law revealed a condition of political rottenness under the old administration which every right-thinking New Brunswick man and woman must forever remember with regret. The chapters of graft, fraud and mismanagement in connection with the administration of the crown lands, the construction of the Valley Railway

and if there is a public conscience they must exercise a tremendous influence in deciding men and women how to vote and how not to vote in the coming contest. There are other pages of the three years and a half of history written since the present government took office which are not so depressing and which must also have their influence in determining the result of the elections. The administration of the crown lands, the extension of good roads, the interest in health matters are a few of the larger events of the three years' rule of the Foster government which command commendation and merit endorsement. Then there is the new policy now taking shape for hydro development on a broad scale to give every section of the province the benefit of that cheaper power which is the essential of industrial success. The government has not contented itself with uncovering the record of its predecessors. It has put into the balance against those misdeeds of a past administration achievements which command the attention

HON. W. E. FOSTER, PREMIER OF NEW BRUNSWICK
Who is now appealing for a renewal of public confidence.

and the despatch of a gift of potatoes to the starving people of Belgium showed ministers of the government, private members of the legislature and departmental officials all identified with proceedings which every effort was made to cover up conceal and prevent becoming public property. The facts are fresh in the public mem-

ory of all Canada. The three years have given New Brunswickers themselves cause again to raise their heads with a substantial and justifiable degree of pride and to feel that legislative affairs in this province, instead of being a cause for national finger-pointing, have become a cause of national interest. For that the Foster administration must have all the credit.
