

## THE LAST CHANCE

I have still a few imported Barred Rock Cockerels of high laying strain, which may be seen at my yards, corner of Brunswick and Northumberland streets. These birds come from the best bred-to-lay stock in New England and are possibly the best ever brought into this province. They were hatched on May 4th and some of the pullets in the flock started laying on November 6th. One of them laid six eggs during the first seven days, beating all the birds in the egg-laying contest at the Fredericton Experimental Farm.

PRICE \$3 and \$4 While They Last.

MORE NOTES  
IN CIRCULATION

Ottawa, Nov. 17.—Financing the crop movement has within the last four weeks increased the amount of dominion notes in circulation by nearly seven million dollars. At the same time, the amount of gold held remains practically unchanged. During the four weeks period, however, approved securities deposited against dominion notes has increased by rather more than the increase in circulation. Thus the total backing of dominion notes in circulation—gold and securities combined—bears practically the same ratio to the circulation that it bore a month ago.

The figures for the two months are:  
November—Dominion note, circulation, \$320,012,915; gold held, \$95,222,381; securities deposited, \$166,715,125.  
October—Dominion note, circulation, \$303,065,376; gold held, \$95,205,901; securities deposited, \$149,620,125.

When refusing an invitation because of dislike of others in the party to give that excuse to the hostess.

SAYS SECURITY EMBARGO  
IS HARMFUL TO CANADA

London Times Correspondent Who Visited Canada Does Not Accept Finance Minister's Reason for the Embargo—Declares That the Overloaded Condition of the Books of Certain Bond Dealers was a Factor.

Special to Daily Mail. Copyright 1920 by Cross Atlantic News Service.

London, Nov. 8.—The recent renewal by the Minister of Finance of the embargo on the importation of Canadian securities into Canada was attributed, officially, to the monetary stringency in the Dominion and to efforts to improve the market for Victory Bonds, but a correspondent of the London Times who had just returned from a visit to Canada puts a somewhat different complexion on the reasons for this action of the Finance Minister. He declares that the overloaded condition of the books of certain bond dealers was also a factor in re-establishing the embargo.

"However that may be," says the Times, "an artificial prohibition of this kind is obviously difficult to justify, for all the available money is needed to move the crops, why should the embargo begin and stop with securities. Importations of motor cars and diamonds from the United States which are still allowed are more harmful to Canada because her dollar stands at a discount in New York. If the Dominion hopes to maintain an artificially high price for her Victory Bonds by the imposition of the embargo, she will we fear, be disappointed for the price must eventually be regulated by supply and demand. By stopping the importation of securities Canada is hindering the exportation of her wheat and other crops."

"The question of principle apart, the embargo does not appear to have been effective. While the Canadian banks have doubtless cooperated loyally with the government in adhering to the terms of the Finance Minister's letter and have thereby checked direct sales of Canadian securities from London to Canada, they have been powerless to prevent importations on a large scale by way of New York. The Canadian banks have stopped the purchase on this side of stock cheques in respect of the export of securities to the Dominion, and they have been carrying out the Government's suggestion that "purchasers of sterling or foreign exchange in amounts of \$1000 or over and drawees of drafts received for collection from out-

side of Canada to the like amounts shall certify that the exchange so required for the draft from abroad does not represent the purchase outside of Canada of securities."

"But when the business is conducted through the medium of New York houses which buy from London and sell again to Canadian houses against the latter's cheques, the task of damping the tide of importation becomes very difficult, if not impossible. The fact is that with the foreign exchanges in their present state the incentive to transfer dollar securities from the Old World to the New is so strong that the Dominion Government has attempted the task of preventing water flowing downhill."

"It is perhaps significant that where as the premium quoted on the New York dollar in Montreal fell between the first and second half of September from 11 per cent to 8½ per cent, it has since been rising again, and is now about 10½ per cent, despite the great activity in the exportation of foodstuffs and other commodities from the Dominion. When the embargo was put on it was understood that it would be lifted by the end of November, but lifted by the end of November, when the crop moving demands on the banks had passed the peak. There are solid reasons for hoping that this forecast will be realized."

MADE WAR ON  
SCIENTISTS

Copenhagen, Nov. 18.—"There is not a scientist alive in Russia," declared the Russian professor Rusytovtsev, who arrived from Helsinki, Finland, bring the story of the fate of many of his internationally known fellow countrymen. "Of fourteen professors in Universities in Petrograd, Moscow, Kieff, Floridski and Rejev, Naumenko has been executed; Evostov and Vectorov committed suicide; Smirov, Inostrantsev, Lappindilievski, Djakonov, Shammatev and Tura-jev were starved, and only Kondakov, Crimm and myself escaped."

THE BAVARIANS  
ARE SICK OF  
PRUSSIAN RULE

Special to Daily Mail. Copyright 1920 by Cross Atlantic News Service (By Viggo Toepfer.)

Berlin, Nov. 6.—The possibility of the return of the Hohenzollerns has greatly agitated the minds of the people of Bavaria who are determined under no circumstances to submit to the Prussian rule of violence under which they have had to suffer from the day when Bismarck at Versailles proclaimed William I the first German emperor.

The Bavarian people's party, by far the strongest political body in the country, has definitely broken with the German party of the Centre, and has in very plain words notified the Berlin government that, although Bavaria desires to remain German, it will insist upon being an absolutely independent and sovereign country. Bavaria has also informed Berlin that she intends to send her own ambassadors abroad and also to conclude whatever treaties she desires with foreign powers.

The Pan-Germans of course are furious and in true Prussian manner they have demanded of the Bavarian Prime Minister that he must refuse to support these demands. His answer to this tactless demand is diplomatic but none the less plain, in as far as he has simply stated that the demands do not yet form part of the program of the Bavarian government, but he adds significantly that "the new Germany must either become federalistic or it will never come into being."

What particularly enrages the Pan-Germans is the fact that Bavaria loses no opportunity to show that she looks upon the Hohenzollerns as mere upstarts in comparison with the Bavarian royal house of Wittelsbach, which is indeed one of the oldest dynasties in Europe and the popularity of which is constantly increasing.

DEFENDANT  
WINS ACTION IN  
COUNTY COURT

Jury was Out More Than an Hour in William Illingsworth vs. Wardlow S. Kilburn.

In the York County Court Thursday afternoon in the case of William Illingsworth vs. Wardlow S. Kilburn, the jury after being out for upwards of an hour brought in a verdict to the effect that the accident was unavoidable and that the wife of the defendant exercised due care, also that no damages should be awarded. In view of the verdict, the court gave a verdict for the defendant. The action was for damages for injury to a cow struck by an automobile driven by Mrs. Kilburn on the highway road in Kingsclear. It was tried before but a new trial was ordered on appeal.

The jury was composed of Joseph Walker, foreman, L. A. Cliff, S. Allen Robinson, Warren Ebbett, Frank Cliff.

Four questions put by His Honor Judge Wilson and the answers of the jury were as follows:—

1. Was Mrs. Kilburn driver of this car guilty of negligence in driving the car from the time when she saw the cows after she came over the brow of the hill until she struck the cow? No.  
2. Was young Illingsworth guilty of contributory negligence in allowing the cows to get beyond his control when driving them on the highway road from the pasture to the barn to be milked? No.

3. The negligence of which party caused the accident on June 29, 1919, without which such accident would not have occurred? We consider the accident was unavoidable under the circumstances.

4. At what amount do you assess the damages? No damages.

## A LITTLE LESS.

Better have a little less  
And wear an honest face,  
Then seek ill-gotten gains that would  
Involve you in disgrace.

Better have a little less  
And keep your conscience clear,  
Than gain a lot by crookedness  
And live in guilty fear.

Better have a little less  
And earn an honest wage,  
Then by a wanton course consume  
The toiler's heritage.

Better have a little less  
And eat a frugal meal,  
Than hobnob with a set that will  
Not stand for a square deal.

Probably it is not true that a man can grow fat laughing, but it does seem easy for a fat man to laugh.

GREECE FREE  
OF SERVANT  
PROBLEM

Special to Daily Mail. Copyright 1920 by Cross Atlantic News Service.

London, Nov. 9.—"If you would escape the servant problem you must go and live in Greece. It does not exist there," says an Athenian woman here on a visit.

"We have no trouble in obtaining servants," she says. "We have no trouble in keeping them. And their wages are no problem to us. We pay them no monthly recompense at all. When they leave us they get a lump sum. We furnish linen and clothes to the girls who leave to marry."

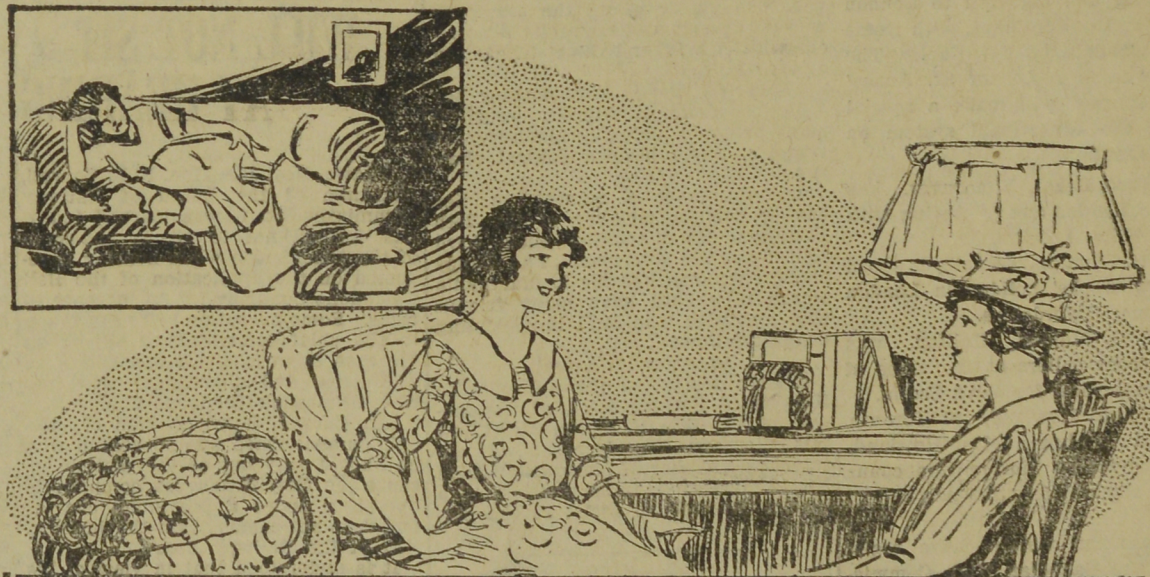

"The servant in Greece is part of the family institution. When my parents went out the children would go, too under the charge of a servant, walking with her instead of with father and mother. She does not really need any money, and if she should, she asks for it and gets it. The family furnishes her clothes, board and lodging. And it is quite improper for her to go out unless someone takes her, so she needs no money for that."

SUGAR PRICES  
IN NEW YORK

New York Nov. 16.—The local market for raw sugar was unchanged early today. Prices were quoted at 5½ cents for Cubas, cost and freight equal to 6.05 for centrifugal. The range of prices is now \$9.75 to \$10.50 for fine granulated.

Sugar futures were very quiet, although the undertone was steadier and prices at midday showed advances of 10 to 20 points on trade buying.

Bread must be made of feathers, the way it stays up.

## "Yes, I've Gained Glowing Health"

"THANKS to your advice to try Milburn's Heart & Nerve Pills, I am back to joyous health. They've accomplished more for me in a few days than months of previous doctoring by strengthening my heart and restoring my shattered nervous system."

The pace of life to-day is faster than that of the generations in the past. Medical Science tells us repeatedly the necessity of replenishing the heart and nerve systems of the human body. When the heart begins to falter, the brain grows weary, the nerves become unhinged, ordinary

duties become a burden and even pleasures drag heavily. Milburn's Heart & Nerve Pills is the remedy that stands alone without a rival. Their principle is to free you from the consequence of disease, build up your health and fit you to take your place in life.

## MILBURN'S HEART &amp; NERVE PILLS

People from all walks of life have gratefully written to us of their regained health through Milburn's Heart & Nerve Pills. These testimonials are open for your inspection any time.

Price 50c, a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.
