

Children Cry for Fletcher's

CASTORIA

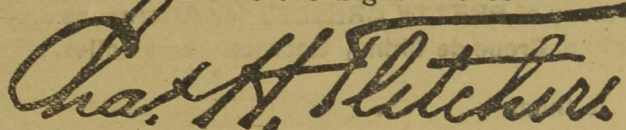

The Kind You Have Always Bought, and which has been in use for over thirty years, has borne the signature of and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

HON. MR. VENIOT DEALS WITH THE STUMPAGE

(Continued from page 6)

should have stood up, not when the lumbermen took the government by the throat, but when the government took the lumbermen by the throat and bled them white. That was the time when he might have made his influence felt. The whole story of that transaction had been disclosed by sworn evidence taken before a Royal Commission, and after the report had been made public the hon. leader of the opposition was one of those who supported a motion to whitewash his leader. And he might add he was not the only hon. member on that side of the House who had voted to apply the whitewash brush.

The hon. leader of the opposition in his address had made an error in one particular, possibly he had been misrepresented. He had been quoted as saying that a bond issue of \$500,000 had been increased by \$700,000 in 1919.

MR. MURRAY (Kings) "What I said was that it had been increased to \$700,000 in 1918."

HON. MR. VENIOT said the hon. leader of the opposition also had made a statement to the effect that there was the most rampant extravagance in every department of the government, and that the Minister of Public Works spent freely and without any good being returned whatever on the roads of the province. If such a condition existed the hon. member was recreant to his duty in not searching and finding. If such a condition existed there must be graft and boudle. He (Veniot) did not wish to boast of his honesty. The people could judge. But if the hon. leader of the opposition had any charges to make, let him make them before the House. Let him abandon innuendo. As an honorable member from St. John city was reported to have said there were things which should be said out in public and not whispered around lodge rooms. Such conduct was in marked contrast with that of the preceding opposition, one member of which, the hon. minister from Madawaska had made charges and proved them to the hilt. He (Veniot) challenged investigation of any alleged wrong-doing in the department of public works during the past three years. He hoped the opposition would not be like one hon. member who had refused to divulge the name of an informant and who made for political purposes statements behind the door of a Committee Room which he would not make on the floors of the House.

Reference had been made to the provision of ground lime by the department of Agriculture for the farmers. The matter had particularly interested him as Gloucester county contained a deposit of limestone of 97 per cent. purity. The Minister of Agriculture would establish a plant in Gloucester County for crushing limestone for the northern counties and also one near the city of St. John. His friends opposite would claim that they had originated the crushing of lime. Yet their efforts had been derided on the floors of the House by their own followers. A speech by Hon. Mr. Slipp strongly criticised the former government for its failure to act in connection with limestone and sheep raising. The opposition had tried to say that the hon. minister of agriculture deserved no credit for the agricultural prosperity of the province, that he was not a live minister. That hon. minister was sufficiently alive to pay attention to the business of his department, to know what the farmers need, to outline his own policies, and not take those of every Tom, Dick and Harry. His hon. friend from Albert had said that farmers soon would be occupying seats in the House in greater numbers. The hon. member should be consistent and should cooperate with the farmers. Rumor had it that he had become a member of the United Farmers. He had a perfect right so to do, as all farmers had a right to organize, but he should take a step farther and break away from the party with which he was connected, and to call down the Conservative Press for its attempts to be little the United Farmers Movement. The hon. member was allied with men who said the United Farmers were neither honest nor sincere, whose press berated them. If that was the type of men the United Farmers were to have to lead them, God held the United Farmers. On the government side of the House there was no opposition to the Farmers' Movement.

MR. SMITH (Carleton) "Of course not."

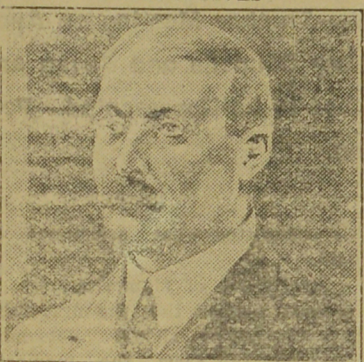

HON. MR. VENIOT asked where was the hon. ex-minister of public works when a United Farmer candidate ran for Ottawa in his own county? Where was he on nomination day? The farmers knew the hon. member well, and knew what were his political aspirations. While on the subject of the Federal bye-election in Carleton-Victoria, he would refer to another matter. Not only did that hon. ex-minister and his friends refuse support to Mr. Caldwell, but they had gone out of their way and imported from the province of Quebec the notorious Blondin, who had attempted to turn the French people of that province against the British flag, and who had told them that they would have to shoot holes through the Union Jack to breathe the air of liberty in Canada.

MR. SMITH (Carleton) "I wish to say that I had nothing to do with the bringing of the Hon. Mr. Blondin into the constituency. I did not even know that he was coming until I was informed that he had arrived."

HON. MR. VENIOT said he would accept the statement. The hon. ex-minister always was ready to get out of a hole. However, he had not protested against the presence of Blondin in the constituency, nor had he raised his voice against him. He (Veniot) as a Frenchman was proud that Blondin could not influence the hard-headed and hard-working French farmers of Victoria County. If rumor was correct the United Farmers would not long have to fear the activities of the hon. ex-minister. It was reported that he was about to transfer his activities

HAD RHEUMATISM FOR FIVE YEARS

No Return of the Trouble Since Taking "FRUIT-A-TIVES"

MR. JOHN E. GUILDERSON

P. O. Box 123, Parrsboro, N. S.

"I suffered with Rheumatism for five years, having it so badly at times I was unable to get up without assistance."

I tried different medicines I saw advertised and was treated by doctors in Amherst, also in my home town, but the Rheumatism came back.

In 1916, I saw in an advertisement that 'Fruit-a-tives' would stop Rheumatism, and took one box and got relief; then I took them right along for about six months and the Rheumatism was all gone and I have never felt it since.

Anyone who would care to write me as regards 'Fruit-a-tives' I would be glad to tell them what 'Fruit-a-tives' did for me."

JOHN E. GUILDERSON,
Contractor and Mason.

50c. a box, 6 for \$2.50, trial size 25c.

At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.

to another country. It was to be hoped that he had not become so disgusted with conditions, political and otherwise in New Brunswick that he was to leave. He could perform a valuable duty by remaining in the House and take a few raps from hon. members on the government side.

The matter of school teachers' salaries was one of pressing importance. The hon. member for Carleton (Sutton) and himself were on the Committee on that matter, which would report upon the following day. Under the circumstances he was not prepared to say what the Committee would recommend, but he hoped that the House would be a Unit on this question.

A Cure for Bad Breath

"Bad breath is a sign of decayed teeth, foul stomach or unclear bowel." If your teeth are good, look to your digestive organs at once. Get Seigel's Curative Syrup at druggists. 15 to 30 drops after meals, clean up your food passage and stop the bad breath odor. 50c. and \$1.00 Bottles. Do not buy substitutes. Get the genuine.

MOVEMENTS OF THE STARS IN FILMLAND

Two special watchmen will be sent into Santa Monica canyon, near Los Angeles, to guard the bazaar which is to be constructed for use in filming Owen Moore's third Selznick picture, "His Word of Honor." A typical county fair will be built and several hundred persons will be used in the various scenes.

"The Witching Hour," one of the most dramatic of the Augustus Thomas plays, is to return again in pictures. The motion picture rights have been added to the growing collection of Famous Players-Lasky, and it is destined to come forth shortly as a special production. "The Witching Hour" needs no introduction to either stage or screen patrons; it has sufficed as a vehicle for both in the past.

It is said that Georges Carpentier, heavyweight champion of Europe, who is to be featured in a Robertson-Cole special picture, is to bring a bride with him to America. Rumor also adds that the future Mrs. Carpentier is a famous Parisian beauty.

Patsy De Forest, a musical comedy favorite, has returned to the screen after an absence of two years spent on the spoken stage. She will be leading lady for Montgomery & Rock, in their Viograph comedies, appearing in their next comedy as a Spanish senorita.

Bill Hart's next release will present him in a somewhat different aspect than the public is accustomed to. Instead of the outdoor western character that he usually plays, he will be a soldier just back from France.

on. If the report should not be entirely satisfactory let the two parties drop politics and do what they can in the interests of the province. Too many good teachers were being lost. He believed that his colleagues on the committee would agree with him that there should be a caucus of the whole House. As one would say in French there should be a meeting en famille.

MR. SUTTON "Hear, hear."

HON. MR. VENIOT, continuing, said that during the debate many irrelevant matters had been touched upon. On the previous day there had been a reference in one speech to which he made no answer he might be considered guilty of cowardice. His own legislative experience went back over a period of twenty-five years, and he could safely say that it was the first time in which he had heard the dignity of the House lowered in the manner in which it had been. For that reason he had decided to treat the remark in the manner it deserved, with silent contempt.

AFTER EFFECTS OF INFLUENZA OFTEN SERIOUS

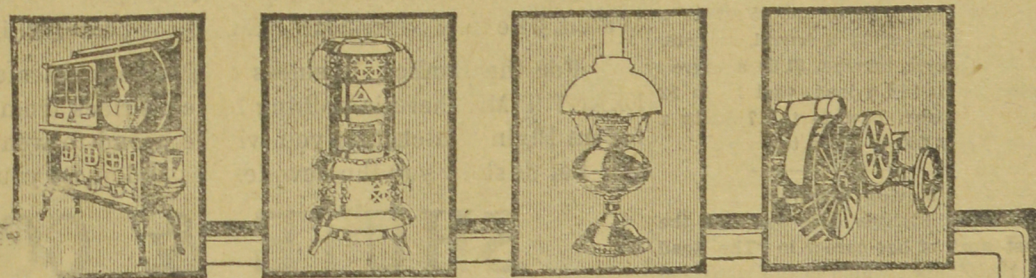

Victims Are Left Weak, Tired and Mentally Depressed—Tonic Treatment is Strongly Recommended.

No pestilence in years has caused more widespread suffering than the epidemic of influenza which swept over Canada in the fall and winter of 1918-19 and again this winter. The danger from this trouble is seldom over when the characteristic symptoms, the fever, headache and the depression of spirits have passed away. Influenza leaves behind it weakened vital powers, thin blood, impaired digestion and over-sensitive nerves. Men and women who were robust before stricken with influenza find their bodies racked by pains previously unknown to them. This condition is due to an abnormal thinning of the blood and leaves the system an easy prey to other serious troubles. This is the time when the convalescent from influenza should build up the blood, with a reliable blood-making tonic such as Dr. Williams' Pink Pills. Weak blood means impoverished nerves, impaired digestion, a feeling of tiredness after even slight exertion, and sometimes even more serious symptoms. When the blood regains its rich red quality the nerves recover their strength and the organs of the body function naturally. In fact building up the blood will vitalize the whole system.

The experience of Mr. Andrew Marty Bathurst, N. B., will prove of value to a host of influenza sufferers who still suffer from the effects of the disease. Mr. Marty says: "The new life and consequently new hope brought into my life through the use of Dr. Williams' Pink Pills is almost beyond my power of expression. Following a severe attack of influenza in 1918 I found myself rapidly falling in health, and was naturally much alarmed. I began to lose weight, could not eat, did not sleep well, and in a word I was reduced to a mere shadow. I was forced to discontinue work because of my weakened condition and things had a very blue outlook. I tried a number of suggested remedies, but without benefit. And then one day Dr. Williams' Pink Pills were suggested to me. I acted on my friend's advice began taking these pills and soon felt an improvement. Every day I seemed to grow stronger, and after four weeks' treatment I felt full restored to my old-time health. From my own experience I feel that if given a fair trial, there is no medicine superior to Dr. Williams' Pink Pills in building up a run down system."

Dr. Williams' Pink Pills are a tonic not a stimulant. They build up the blood, and not only the disastrous after effects of influenza but also troubles due to poor blood, such as anaemia, rheumatism, indigestion and the generally worn-out feeling that affects so many people, disappear. You can get these pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams Medicine Co., Brockville, Ont.

Hens always seem to lay more eggs in an advertisement than in a nest.

HIGH GRADE OIL AT LEAST COST

Your heat, light and power needs are best served with Imperial Royalite Coal Oil. Every drop is clean, powerful and absolutely uniform. Imperial Royalite gives you the highest fuel satisfaction and costs no more than ordinary coal oil.

Imperial Royalite Coal Oil meets every test of a perfect oil, allows you full power from tractor or stationary engine. Used in oil heaters and stoves, it burns clean—no smoke or soot—and it's best for oil lamps, too.

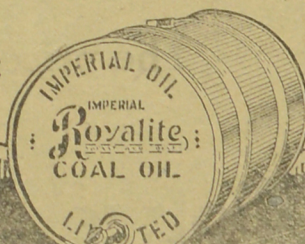

You can get Royalite everywhere when you want it. Our unlimited means of distribution assures that.

No coal oil is better than Imperial Royalite, so why pay higher prices?
