

A CANINE CALCULATOR

(By Maurice Lange, staff correspondent, C. A. N. S.)

Munich, Dec. 17.—The accomplishments of a wonderful dog were demonstrated at a meeting of the Society for Studying the Soul of Animals at Stuttgart. Professor Ziegler produced his dog "Ama", which is "quicker at figures" than many a ten-year-old child. He gives the results of sums set to him by knocking on the floor with his paw, and in additions and subtractions up to thirty he never makes a mistake. The dog is also able to spell any Christmas name called out. He performs this task by the method well-known to prisoners, who knock the alphabetical number of each letter against the prison wall; Ama using his paw on the floor.

Ama is a descendant of a famous dog Rolf, whose arithmetic and spelling baffled scientists.

Just as the girls begin wearing 'em that way the days get shorter too.

TO DIE AFTER A YEAR IN JAIL

(By Viggo Teopier, staff correspondent, C. A. N. S.)

Berlin, Dec. 18.—A remarkable sentence was passed by the Potsdam criminal court on Anton Ludwig, a clerk twenty-four years old, who robbed and murdered a nurse aged fifty-two. The court sentenced him to death, perpetual loss of civil rights, and one year's imprisonment. This means, if the sentence is carried out literally, that after he has served his year in jail (which is the punishment for the robbery) he will be executed. The loss of civil rights is merely a legal formality and of course unnecessary. Usually, a death sentence is carried out immediately.

Now comes the season, if ever, when the joy of being the father of a family is at flood tide.

If a girl has no dimpled chin she shouldn't be unhappy. Maybe her knees are dimpled.

BRAINS BUT DULL EYES

(By H. W. Francis, staff correspondent, Cross-Atlantic Newspaper Service.)

Paris, Dec. 17.—That Parisians develop mentally at the expense of their physique is the inference drawn from result of researches by Doctors A. Marie and Leon MacAuliss into the influences of environment on race development.

They found that the climate and living conditions of Paris have certain effects on the human body. The eyes and hair of Parisians, they say, are less brilliant than those of provincials, while the growth of the temples is quicker than that of other parts of the body, and the measurements of the limbs show a marked inferiority.

The Joy of Living

Do you feel like these children in the morning, full of energy and buoyant spirits?

Do you get up refreshed by your night's sleep ready for anything the day may bring forth?

You should and you may if the simple rules of health are observed.

It is possible that by some excess in eating, or over-exertion, your heart has not been working with its accustomed regularity, and you are not getting undisturbed and refreshing slumber.

Your sleep may be broken with terrible dreams, smothering spells, sinking sensations, and even fear of impending death.

Milburn's Heart and Nerve Pills have brought relief to hundreds of such cases.

Milburn's Heart and Nerve Pills enrich the blood, strengthen the heart and tone up the nerves, making the whole organization work in harmony, and bringing back in a few days that blessed condition where you sleep as peaceful as a child and hail with joy the return of another day.

Mr. Harold Acker, Springfield, N.S., writes:—"I was bothered all the time with nervous headache and dizziness. I could not stoop down at times, as everything would get black before my eyes. I could not sleep at night, and my appetite was very poor. I was almost on a nervous breakdown. I used four boxes of Milburn's Heart and Nerve Pills and they helped me fine. I would recommend them highly to any person troubled with their heart or nerves."

Milburn's Heart and Nerve Pills are 50c. a box at all dealers, or mailed direct on receipt of price by

SAID U. S. A. WERE BROKE

New York, Dec. 18.—A wild yarn was passed along Friday through Wall st, among the element that jumps at any rumor that the United States Treasury was broke and could not pay off its employees. The hoax was the result of the fact on Dec. 6, that the Subtreasury was closed and the Federal ghost was instructed to walk at the Federal Reserve Bank, just across the way.

A British scientist is trying to make people believe that the cackle of a hen after laying is akin to laughter. Right now it sounds more like a hallelujah.
