

# The Holiday Smoke

At all summer camps—on the lakes and in the mountains—whipping trout streams, paddling canoes and when you are "just lolling 'round"—**OLD CHUM is the holiday smoke.**

The happiest recollections of summer pleasures are associated with OLD CHUM Tobacco.

It is an old, old favorite with every smoker who loves the great out-doors.

## OLD CHUM

Canada's Favorite Pipe Tobacco

also put up in pound tins for week-end and holiday trips.

### HIND WHEEL OF A FORD AUTO PUMPED WATER FOR A TOWN

When Jumping Brook jumped the dam recently, Ashbury Park, New Jersey and its 15,000 inhabitants faced an unpleasant drought. The Monmouth County Water Company, which supplies Ashbury Park and the surrounding country, was up against it. Just as the water was lapping the bottom of the reservoir, Chas. H. White, Superintendent of the Monmouth Company solved the problem with a Ford Runabout.

In a letter to Mr. Henry Ford, Mr. White tells of the breaking of the dam and subsequent water shortage:

"This let down the water which is supplied from the storage plant to our coagulating tank, thence to our reservoir and cut off all supply of water and we could not get any after our reservoir was dry to supply the city. The dam broke out at 11.00 o'clock at night and we were completely out of water by the next morning.

"The writer was at a loss what to do for a rigging to pump water from our brook into our coagulating tank. I scoured the surrounding country for pumping outfits; the best I could do was get delivery in two weeks.

"I had a centrifugal pump in my store-house that was dismantled seven or eight years ago. I immediately had this brought to the brook-side and rigged up. In the meantime I attached a pulley to the rear wheel of one of your remarkable Ford roadsters, blocked the rear wheels, attached a belt to

one of them and pumped the water from the brook to our coagulating tank, thus saving the day.

"This outfit pumped 750,000 gallons of water in twenty-four hours."

### Ladies of Culture and Refinement Use DELMAY'S FRENCH HAIR TONIC—It Makes the Hair Beautiful and Lustrous.

At last a remedy has been discovered that will positively destroy the pest Dandruff.

That Dandruff is caused by germs is accepted by every sensible person. Dandruff is the root of all hair evils. DELMAY'S FRENCH HAIR TONIC will kill the dandruff germs and remove dandruff in ten days, or money back.

The manufacturer guarantees it. It will grow hair, stop itching scalp, falling hair and make the hair thick and abundant. It prevents hair from turning gray, and adds life and lustre.

DELMA'S FRENCH HAIR TONIC is a hair dressing that has become the favorite with women of taste and culture, who know the social value of beautiful hair. A large, generous bottle costs only \$1.00 at leading druggists everywhere. The name "DELMAY'S FRENCH HAIR TONIC" is on every bottle.

Sold at A. J. Ryan's Drug Store, Fredericton; A. W. Coombes' Drug Store, North Devon.

"It's a poor sort of husband," remarked the Man on the Car, "who wants his wife to keep seven of the Ten Commandments while he keeps the remaining three."

### BOY UPSET HOT WATER ON HIMSELF

Toronto, July 3.—Childish impatience to get a drink of water caused an accident last Sunday morning which resulted in the death of Tuesday of Douglas Charles Hughes, aged two years and five months. The lad had been playing in his home, and as his mother took the kettle of boiling water from the stove he asked for a drink of water. He followed his mother upstairs, and when she left the kettle for a few moments in the bathroom he climbed up the stand and in some way managed to spill the scalding contents over himself. Dr. Kenneth was immediately summoned but all efforts to save the child's life failed. He died from the effects of severe body burns on Tuesday morning.

### A BIG PROBLEM UNDER DISCUSSION

(New York World.)

Question—Should a wife beat her husband because he upbraids her for chewing tobacco in front of the children?

O. U. Bugg Lighthouse Point, writes: No, if my wife were to beat me for any reason I should be quite vexed.

Mrs. Pretty Dense writes: No woman shouldn't chew tobacco. If she does she ought to be called down. Let her beat him for some other reason.

Eloise Pink writes: To beat one's husband is wrong. I am ashamed to admit I struck mine once and knocked out all his front teeth. But he loves me still, though he looks rather queer.

### BIG LEGAL BATTLE IN CHICAGO OVER DISPOSITION OF A FORTUNE

Chicago, July 1.—The battle over the six words that stand between Mrs. Mary C. Melvin and \$5,000,000 left by the late James C. King went into another round of undiminished excitement today.

The words are the signatures of Mr. King, Byron Smith and Addison Melvin to the alleged second will of the millionaire lumberman is supposed to have made leaving his estate to his widow instead of to the James C. King Home for Old Men.

Scores of State attorneys, Government detectives, trained psychologists, photographers, chemists and other experts have during the two years since the filing of the alleged second will focused their concentrated attention upon the six words.

Today the deposition of David N. Carvalho, one of the many experts who has functioned in the case, was

read before Judge Baldwin. Mr. Carvalho served for forty years as handwriting expert for the District Attorney's office in New York. Mr. Carvalho testified that on examining it he had arrived at the conclusion that it was genuinely signed, "assuming that the signature standards submitted to me for comparison are genuine."

According to a scientific writer, married men are braver than bachelors. They need to be.

"Usually the fellow who wants the earth," remarked the Man on the Car, "wants somebody to plow it for him."

This world may be a fleeting show, but it doesn't distract the small boy's attention from the circus posters.

### LOWER PRINCE WILLIAM

Lower Prince William, June 2.—The weather for the past few weeks has been very warm and dry and the recent rain was much needed.

Mrs. John Courser who has been seriously ill, is slowly recovering.

Mrs. David Burden and Mrs. Samuel Moore visited Mrs. Ludlow Hoyt last Tuesday afternoon.

An automobile party, consisting of Mr. and Mrs. George Kilburn and Miss Long of Fredericton and Mr. Samuel Cook and daughter Marian of Edmonton visited Mr. and Mrs. Hayward Long on Sunday last.

A public meeting in the interest of Prohibition, will be held here this evening.

James Miller has purchased an Overland car.

Mrs. Ersel More and children will return this week from Millinocket.

The closing exercises of our school took place Tuesday afternoon and proved very interesting. A goodly number were present. The blackboards were suitably decorated with drawings and with the names of those with best attendance. The highest general standing during the term was made by Willie Walker with Harold Smith second. The pupils were examined in the different branches of study after which the following program was nicely carried out.

A Word of Welcome—Mildred Moore.

Song—O Canada, School.

Recitation—Going Down to Grandpa's, Willie Walker and Harold Smith.

Recitation—A Dead Doll, Effie Hood.

Dialogue—Two Kind of Greenhorns, Harold and Karl Smith.

Recitation—Our Flag, Mildred Moore.

Reading—Peter's Party, Willie Walker.

Exercise—A Dream of Mother Goose, nine pupils.

Reading—The Photographs, Karl Smith.

Recitation—A Little Boy's Trouble, Harold Smith.

Recitation—A Queer Clock—Ruth Dykeman.

Dialogue—Uncle Hiram's Cold, Seven pupils.

Recitation—A School Day, Camilla Burden.

Recitation—The Woodpecker's Lesson, Karl Smith.

Reading—Enjoying a Telephone—Edna Hoyt.

Dialogue—Painting a Chair, four pupils.

Duet—On the Road to Home Sweet Home, Edna Hoyt and Beatrice Lounsbury.

Exercise—I wish, six pupils.

Valedictory.

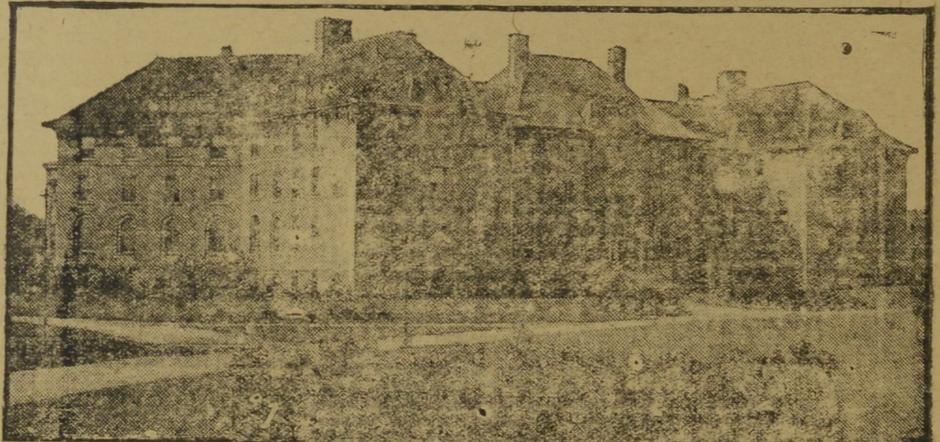

God Save the King.

Scientists say plants sleep from 6 a. m. to 9 a. m. Bet the weeds in the garden never sleep.

The Great English Preparation. Tones and invigorates the whole nervous system, makes new Blood in old Veins. Used for Nervous Debility, Mental and Brain Worry, Dependancy, Loss of Energy, Palpitation of the Heart, Failing Memory. Price \$2 per box, 3 for \$5. Sold by all druggists, or mailed in plain pkg. on receipt of price. New pamphlet mailed free. THE WOOD MEDICINE CO., TORONTO, ONT.

## Education in Canada

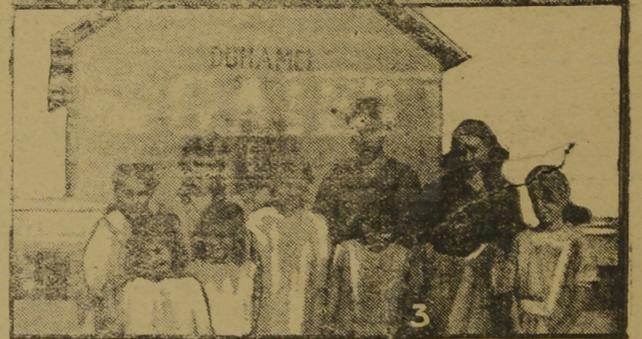

Under the British North America Act of 1867 the right to legislate on matters respecting education in Canada was reserved exclusively to the provincial legislatures. In general throughout Canada there are two fundamental systems of education, one that of the Protestant communities free from the control of religious bodies, and the other that of Roman Catholic communities in which education is united with the religious teaching of the church.

In all the provinces the cost of education is defrayed from the public revenue provincial or local, and public and elementary education is absolutely free. With the exception of Quebec all the provinces have laws of compulsory school attendance, uniformity in the training of teachers, text books and the grading of children. Upon application the provincial government gives immediate financial assistance for the erection of new schools where settlement warrants this or increased attendance demands a large edifice. Each year thousands of new schools are built throughout the length of the country especially in the ever growing western provinces. Assistance in the payment of teachers is given by a system of grants. Nature study, manual instruction, school gardens, domestic science and technical education have been taken up energetically, whilst agriculture, which after all is the country's prime interest forms an important item in the curriculum of all schools.

In the cities and towns of the Dominion no expense is spared in the erection of handsome, spacious school buildings, where health conditions are the prime consideration and they form no mean part in the aggregate of Canada's fine public structures. Solicitude is exerted in the health and the general welfare of the pupils in the plans of construction, and medical officers and health nurses supervise the general well-being when they are in operation.

In the rural districts naturally where in the first settlement farms are often widely separated, scholastic facilities do not exist in the same perfection, though everything is done by the education departments to meet the more difficult conditions and the child of the farmer need not fall far behind his city brother in the progress of learning. The majority of the schools are ungraded, that is several small classes are taught by the one teacher, and the districts are of such dimensions as to make the school house easily accessible from the furthest limits. Fully trained teachers are provided from the provincial normal schools; attendance is compulsory as in the city.

- (1) Macdonald College, Ste. Anne de Bellevue, P.Q., where many Canadian teachers are trained.
- (2) At the Agricultural College, Olds, Alta.
- (3) A Group of Pupils at a Rural School in Western Canada.

Every province possesses fully equipped agricultural colleges with up-to-date facilities of scientific farming experts where the most progressive and modern methods of agriculture are taught and where the degree of Bachelor of Scientific Agriculture is conferred at graduation. As it is impossible for many of the sons and daughters of farmers to attend all the year round and complete the courses, winter sessions are held in every province where short courses are given imparting a thorough training to boys and girls over the public school age in intelligent farming and scientific methods, domestic science and other phases of farm work. These courses have proved of immense interest and value and are widely appreciated by agricultural communities whilst the attendance is yearly increased as the benefits to be derived from these short terms are the more fully realized.

There is virtually no limit to educational facilities in the Dominion and the child having completed public and high school courses may go further and has twenty-six universities to choose from, ten in Ontario, four each in Quebec and Nova Scotia, two each in New Brunswick and Saskatchewan and one each in Alberta, British Columbia, Manitoba and Prince Edward Island. Through the Rhodes Scholarships these young Canadians have the opportunity of entry into the colleges of Oxford and Cambridge fostering the Imperial union and continuing their scholarship with students from every part of the globe. Some of the Canadian universities, notably McGill at Montreal and Toronto University have won world-wide reputations and furnished European universities with professors.

## A Staunch Building Food

—made in our own factory at Windsor from prime Canadian-grown grains

## Grape-Nuts

The true food values of wheat and malted barley, perfectly blended into appetizing form.

Ready-to-eat and rich in nourishment. Needs no sugar.

"There's A Reason" for GRAPE-NUTS

Canadian Postum Cereal Co., Ltd. Windsor, Ontario
