HOUSING BOARD

NOTICE TO THE PUBLIC

Notice is hereby given that tenders for the erection of dwellings in Fredericton, under the Housing Scheme, have now been received, the prices being approximately the same as the Moncton prices. Those desiring to avail themselves of this opportunity will please advise whether they are prepared to put up the difference between the contractor's price and the maximum allowed by Government.

Please apply at the office of the Board for application forms and information.

SILVER FOX RANCHING GAINING A FOOTHOLD

The United States and Japan are Enlarging on the Business
—Has Proved Profitable Since Wild Cats Were Eliminated
—The War Put the Kite Fliers Out of Business and Only the Actual Fur Raising Concerns Survived.

Canadian silver fox ranching has been investigated and studied by the Japanese and United States Governments and is rapidly gaining a foothold in those countries. This gives a decided impetus to Dominion fox ranching says the head of one of the largest fox ranches in Canada.

The United States Government report lists the various states where fox raising is practical and ranches have been started in localities as far isolated as Idaho and Illinois. Thirty pairs of foxes were sold a few days ago in the States by one Prince Edward Island fox breeder. All were black foxes worth from \$800 to \$1,400 a pair. A number of fox raising companies have been formed in Japan and about twenty five pairs of silver foxes sent there.

Nearly all the silver fox ranches of Canada are in Prince Edward Island. The climate there is ideal for fur producing. The first ranch in Canada was started in 1902, but the industry was undeveloped until 1909, when a well organized ranch was founded.

Silver fox farming as a get rich quick scheme seized the public fancy and in 1912 and 1913 there was a flood of fake companies formed to get the public's shekels. These companies put the silver fox game into disrepute, but meanwhile the legitimate ranchers were going ahead with their fox breeding. The war killed off the fake companies and the present day fox ranchers are anything but conductors of stock floating enterprises. At the apex of the boom as much as \$18,000 was paid for a pair of breeding foxes, now the prices rarely run over \$1,500.

At present however, the foxes are actually being bred instead of appearing largely in prospectuses. On Prince Edward Island there are about 400 ranches and there are a half dozen companies that are incorporated at from a half to a quarter of a million dollars.

Silver foxes start as accidents or casualties in a litter of red foxes, but they breed true to form. For instance

a red fox may have a silver fox among her cubs, but all the cubs of a silver fox will be silvers.

Fox ranchers only kill the poorest foxes for furs. For in spite of the fabulous prices paid for silver fox furs with the new scope given the fox ranching industry the foxes are worth much more to sell for breeding. Furs are graded according to quality and length of hair and fullness of the brush and are shipped to the St. Louis and London fur markets.

Eggs and milk are the principal articles of diet for the young foxes. The older ones are fed fox biscuits and skimmed milk, apples, rabbits and chickens and inspected horse meat.

One of the big problems of the fox ranchers is to prevent stealing. A few years ago there were organized gangs who ranged over the island and raided the fox ranches. With a fox worth \$1400 as easy to steal as a pullet it was a better business than bank robbing.

Now every ranch has its armed watchmen and a pack of blood hounds. Some one is on guard day and night. In addition each fox rancher has some system of marking his foxes so that he can positively identify them if they escape or are stolen. These marks are usually branded on the pads of the feet or else the teeth are marked.

An organization of fox ranchers called the Prince Edward Island Fox Breeders' Association is keeping the pedigrees of all silver foxes and standardizing the breeding. They also look after legislation that will help the ranchers.

Vote FOR Prohibition

Saturday, July 10th

ELECTION INFORMATION

The Act in Brief

The present Prohibition Act legislates against the sale of intoxicating liquors for beverage purposes, and only allows it for manufacturing, sacramental and medicinal purposes.

The Act also provides for enforcement of the law and penalties for violation.

This Act was a war-time measure and the Government now wish to know from the electors whether they want Prohibition or not.

We Know Its Faults

The Act is weak in that it allows too much latitude in the case of doctors, druggists and vendors who have practically the dispensing of liquors within their own hands.

Further Legislation Depends on You.

Application has already been made by the Temperance people to have the Act amended in regard to the recognized weaknesses and the Government is sympathetic —BUT NOTE THIS—the Government put off the granting of these improvements to make the Act more effective.

until the result of this election PROVES that the people want Prohibition, and by the majority of the vote the Government will know just how badly the Electors do want it.

Your Vote

at this Election may have very important influence on the future action of the Government.

WHAT YOUR BALLOT CAN DO JULY 10th

FIRST—Provide the way for necessary Amendments to the Act that will make it really effective.

SECOND—Show the Government that the people demand Prohibition, and want the laws enforced.

THIRD—Hasten the election that can shut out the importation of liquor into the Province.

Are You Aware of This ?

In 1919 an Act Passed the House, providing that the Government shall take over the entire liquor business within the Province, for the three purposes contained in the Act, and also giving them more stringent control over the sale of extracts, essences and tinctures —But Mark You, the Government has refused to take action on this amendment until the voice of the people has been heard at the coming election.

Stop Importation Our Next Move.

Authority to Prevent the Importation of Liquor into the Province does not rest with the Provincial, but with our Dominion Government, which has already stated that a vote may be taken on the question in New Brunswick, on the recommendation of the Legislature. If the result at the coming election satisfies them that the people actually want Prohibition—we are sure to get it.

REMEMBER You are Voting for Prohibition as
Against a Return to the Bars

Don't Fail to Do a Man or Woman's Part July 10th
