## NIGHT COUGHS PREVENT SLEEP

WE'VE OUT THE SYSTEM

The dry, hacking cough, day and night is very wearing on the system. The constant coughing disturbs the rest and keeps the lungs and bronchial tubes in such an irritated and inflamed condition they get no chance to heal.

You will find in Dr. Wood's Norway Pine Syrup a remedy without an equal for curing coughs and colds, soothing the lungs, loosening the phlegm, strengthening and healing the breathing organs and fortifying them against serious pulmonary disease.

Mrs. Fred Fairburn, Copper Cliff, Ont., writes:—"I caught a heavy cold got a sore throat and had a terrible hacking cough that I could not get rid of. I could not sleep at night. I had tried quite a few remedies, but they did not seem to do me much good until I took Dr. Wood's Norway Pine Syrup. By the time I had taken two bottles my cough was all gone. It seemed to loosen the cough right away so that I could spit up the phlegm that gathered in my throat, and also took that hot, raw, burning fever out of my bronchial tubes. I feel that Dr. Wood's has no equal."

Price 25c. and 50c. at all dealers. Put up only by The T. Milburn Co., Limited, Toronto, Ont.

## ST. JOHN THISTLES OVERWHELMED LOCAL CURLERS

But One Fredericton Rink Won and One Tied—The Score Was 100 to 65.

The winning streak of the Fredericton Curling Club which was ended only by the defeat at Halifax by the West End Club had a severe crimp put in it Wednesday night by the St. John Thistles. The records of the two clubs show that they have been the hardest mutual opponents but the Thistles this season have got away on a big start. However Fredericton will have a chance at St. John to retrieve the laurels lost at home. The score was 100 to 65 in favor of the Thistles. Skip Tom Belmore of Fredericton was the only one of the six to emerge victorious. Skip R. F. Randolph did the next best playing Chip Olive to a tie. All other Fredericton rinks were beaten. Douglas Malcolm's victory over Skip Tom Fowler of Fredericton gave the Thistles twenty of their thirty-five point margin. Skip Fowler who has been playing well this season had an off day. F. A. McAndrews although a member of the Fredericton Club skipped a rink for the Thistles his former club.

The score by rinks is as follows:

## CANADA'S AFTER THE WAR PROBLEMS

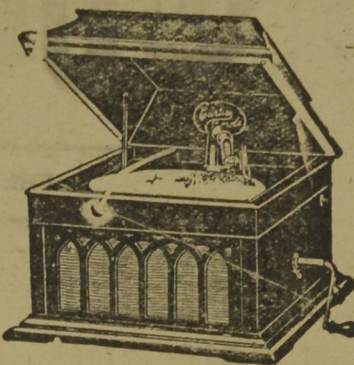

The following timely remarks on Canada's after the war trade prospects and possibilities and problems were made by the President of the Canadian Bank of Commerce in his annual address:

We can sell in another country only if the goods are at least equal to those of our competitors in price and quality, and we should aim to have the stamp "Made in Canada" represent absolutely undoubted quality, the best workmanship and the finest materials. It is only by producing a superior article that we can hope to make rapid progress in our foreign trade. Many manufacturers will urge at the moment that if they cannot get raw material or labor sufficient to enable them to fill home orders, it is idle to talk of foreign trade, and it is hard to answer such a statement. Nevertheless, when the pendulum swings the other way, we shall need the foreign trade and, indeed, in the future we shall not readily be able to meet our indebtedness on securities held abroad unless we can greatly build up our exports. For this reason we feel that the spade work which must be done should be begun now. We should be opening markets for Canadian goods in other countries for the purpose of building up a trade which we shall sadly feel we want of in a few years, if we ignore our present opportunities.

We have said before that Canada can solve its post-war problems more readily than almost any other country, but this of course means Canada at its best. We shall, I hope, settle our problems of taxation with reasonable fairness and common sense; so improve the relations between labor and capital that the country can do its very best in production; so direct the large immigration, which is coming both from Europe and the United States when transportation becomes less difficult and less costly, that it will greatly increase the numbers both of settlers on the land and of workers in factories; and thus enable our country to bear cheerfully the cost of the war and, better still, make every returned soldier think that such a country was worth fighting for.

Lima Beane thinks it must get monotonous to the sucker to be born every minute.

## U.N.B. HOCKEY TEAM MAKES ITS DEBUT TONIGHT

Will Go Up Against St. Stephen at the Arctic Rink—The Players Will Be Tried Out.

The hockey team of the University of New Brunswick will make its first appearance of the season tonight at the Arctic Rink. St. Stephen will be the opposing team. It is expected that it will be composed largely of new and young players although George (Ax-bell) Walker formerly of Fredericton may be with it.

Coach Blaine Pugh and the U. N. B. hockey council are determined to try out all the material there is available for the Red and Black team and that is the chief reason why St. Stephen has been brought here.

McKenzie of Campbellton is likely to be in the nets with Fred Shea at point and Jewett at coverpoint. The forward line will start with Burgess and Lounsbury on the wings and Flett at centre ice. Archie Williams will be worked out at point and Somers, Lindsay and Hagerman among the forwards.

Burgess is naturally a centre-ice

man but the circumstances of the squad demand that he play in a wing position. Flett has played before at centre but is not in the best physical condition. Jewett, Burgess and Lounsbury are playing with Fredericton in the N. B. H. L. and are sure of positions with U. N. B. McKenzie is expected to be a fixture at goal. The task is to select the other two players and the substitutes.

Sometimes it is a puzzle to determine what is history, what is tradition and what is allegory, but one plausible certainty is that Adam didn't originate the mother-in-law joke.

Tailors are talking of omitting pockets from men's suits. They probably figure that after a man buys a suit he won't have any use for a pocket.
