## THE BRITISH ROYAL FAMILY ARE KEENLY INTERESTED IN THE MACSWINEY HUNGER STRIKE

### IRISH MAIDS ARE EMPLOYED BY KING

Were Granted Permission by His Majesty to Attend a Service at Catholic Cathedral for Cork's Lord Mayor—No Truth in Report That King Sought a Pardon for MacSwiney.

(Special to the Daily Mail. Copyright)

London, Sept. 13—The British Royal Family household is evincing the keenest interest in the hunger strike of Lord Mayor MacSwiney of Cork. There are twenty-two Irish maids in the service of the Royal household and yesterday, twelve of them, who are with the King, who is on his vacation at Balmoral Castle, asked leave to attend the services for MacSwiney, at the Catholic Cathedral in London. When the house steward refused they appealed to the King who not only granted their request but paid their fares to London. Nine Irish servants of Queen Alexandra at Sandringham asked the Queen that prayers be said for MacSwiney on Wednesday at the evening service at Sandringham Church. The Queen consented but the Rector refused, saying that such action was equivalent to praying for the release of the Irish prisoner, and that he would not do so without the order of the King. Queen Alexandra immediately telegraphed the King who instructed the Rector to offer prayer. However, the King has made no attempt to interfere with the official handling of MacSwiney's case. An official statement from the home office denies he sought pardon for MacSwiney or reached any breach with the cabinet over the matter. It is pointed out that the matter is out of his jurisdiction and that he was without power to move should he desire.

## WON PRIZES AT ST. JOHN EXHIBITION

Although only a few local poultry fanciers exhibited at the St. John exhibition last week all were successful in winning prizes. The poultry display was rather slim, there being only about three hundred birds on exhibition, and some of the specimens seemed to lack class. The judging was done by Mr. J. W. Clarke, of Calnsville, Ontario, one of the leading poultrymen of the Dominion. It is understood that in the report he made some recommendations to the Exhibition Association which if carried out should result in a much larger display at the next show.

Mrs. George Danby of North Devon showed twelve White Wyandottes and made almost a clean sweep in the prize list. She won first on utility pen, first in young pen, first cockerel and second and third on pullets.

Mr. Elwood Burt of this city won second prize in Barred Rock cock and pen defeating a big rooster imported from Oregon last spring by a provincial poultryman at a fancy price.

The West End Poultry Yards of this city won three firsts and a second on Partridge Wyandotte birds and second on a young pen of Barred Plymouth Rocks in a strong competition.

Two Sunbury County poultrymen who exhibited young Barred Rocks had their birds disqualified because of feathers on the shanks of the cockerels.

## SAYS BEAVERBROOK UNLIKELY TO BE NEW HIGH COMMISSIONER

(By Hugh Dryden, staff correspondent of The Daily Mail. Copyright, 1920, by Cross-Atlantic Newspaper Service.)

London, Sept. 13—Canadians here regard as unlikely Beaverbrook's succession to Sir George Perley, as Canadian High Commissioner. It is believed that the former is too absorbed in his newspaper enterprise to afford the time that is demanded by the post. In the meantime Perley's non-return from Canada is considered definite. He will likely accept his friend, the Duke of Connaught's invitation, to visit India when the later goes. Immigration Minister Calder will possibly remain in London. He is daily in conference with Secretary Griffiths at the Commissioner's office.

## POLITICAL LIFE IN GREAT BRITAIN HAS REAWAKENED SINCE PREMIER'S RETURN

Rumored That Parliament May Assemble Earlier Than Usual to Deal With the Coal Situation—Hopeful That Crisis May Be Avoided—Cat and Mouse Treatment for MacSwiney.

(By J. M. Denvir, staff correspondent of The Daily Mail. Copyright 1920, by Cross-Atlantic Newspaper Service.)

London, Sept. 13—Political life has been re-awakened and political clubs are humming since Lloyd George returned from Switzerland. It is strongly rumored that Parliament will be recalled earlier than usual to deal with the coal situation. There is confidence, notwithstanding the hitches that the crisis can be avoided. The Government's failure to apply the cat and mouse treatment to MacSwiney is considered unaccountable. This was used against the suffragettes and in the women were near death from hunger striking, they were released until they regained their strength, when they were arrested again.

### MAY BE A CANDIDATE

The Duchess of Marlborough has been sought by the Labor Party as a candidate for Parliament for a London constituency, and she has assured one of the organizers that she is seriously considering being a candidate for Southwark. The Duchess has had experience as a member of the London County Council which has sharpened her interest in Labor. The financial condition of the party is deplorable, and it is hoped that she comes to the rescue.

## LAIID CORNER STONE OF THE UNION CHURCH

(St. John Telegraph.)

Saturday was a notable day in McAdam, as the corner stone of a new church building was laid by Grant Hall vice-president of the Canadian Pacific railway, in the presence of a large assembly of spectators. Mr. Hall came from Montreal on his private car, for the purpose, and was accompanied by Mrs. Hall. The weather was favorable, and the ceremony was of an interesting character. The church choir was present and sang suitable selections. Rev. Donald MacGuire, the minister of the Union church, presided, and gave a brief sketch of the efforts of the Baptists, Methodists and Presbyterians to work together in maintaining Gospel services in the community. Union upon the part of these three denominations has been carried on for many years with a remarkable degree of harmony and success.

Rev. W. H. Lance, of the Episcopal church read the scriptures. Rev. Dr. James Ross, superintendent of missions, offered prayer. Mr. Hall in the "name of the Father and the Son and the Holy Ghost" declared the corner stone of St. Paul's Union church "well and truly laid." Mr. MacGuire gave the prayer of dedication. Dr. Ross spoke briefly, encouraging all the congregation, young and old to have a part in building a beautiful church which will be a great blessing to the community. A presentation on behalf of the congregation to Mr. Hall was made in a very happy manner by J. W. Hollet, Miss Grant, in a very charming manner, presented Mrs. Hall with a beautiful bouquet, and Mr. Hall with a handsome silver trowel as a memento of the occasion. Mr. Hall has taken a warm and personal part in furthering the interests of the new church.

Rev. Dr. Ross, of Chamcook, occupied a seat on the platform. Much regret was expressed that representatives of the Baptist and Methodist church, who were invited, were unable to be present. In the afternoon many occupied themselves with games and amusements. The ladies of McAdam dispensed bountiful repasts to the hall to an appreciative audience. The financial results were of a very generous character, the collections for the day amounting to \$800. Fellowship and good feeling abounded on every hand.

## BEAVERBROOK AT NEWCASTLE

Newcastle, Sept. 11—Lord Beaverbrook arrived here today in his private car, Mayflower, attached to the Ocean Limited. He received an enthusiastic welcome from the residents of his former home, being met by the mayor and other representative citizens. The band played several selections at the station. Lord Beaverbrook will make a short visit to his mother and sister, Mrs. Aitken and Miss Laura Aitken.

Sub Inspector McAinch of the Prohibition Department arrived here from Woodstock this morning.

## MANAGEMENT EXTENDS TIME FOR ENTRIES

Notification has been sent out to the horsemen that the time for receiving entries for the Fredericton Park Association's fall races on September 21, 22, and 23, has been extended up to and including Tuesday, September 24. The 2.16 class has been made a mixed event and the management says that under the new conditions it is sure of ever yollars being well filled.

The programme for these races is composed entirely of class races for which all horses must have been eligible on September 6, which means it will be the first meeting at which all the harness stars will be compelled to race in the classes where their performances have shown they should be.

## COSSACKS LOSS HEAVILY

(Special to the Daily Mail Copyright by C. A. N. S. 1920.)

Warsaw, Sept. 13—The Bolshevik General Budenny, suffered his third defeat of the month with his Cossacks, entrapped by the Poles, had to fight their way through the Polish lines with heavy losses. General Budenny's force had broken through the Polish lines to capture Lublin. When he reached Zamose his lines formed a long narrow salient which the Poles attacked from the North and South, trapping the Cossacks.

## SUGAR WILL BE CHEAPER

(Special to the Daily Mail Copyright by C. A. N. S. 1920.)

London, Sept. 13—A reducing of four cents a pound in sugar will be announced according to the London Daily Mail. The drop in the price is due to over-buying from the United States, and of American buyer-underestimating the best sugar resources of Europe. It is said that they speculated on the world shortage of sugar which failed to come about. The prices are expected to go still lower.

## CANADIAN WON GOLF MATCH

London, Sept. 13—Canada defeated Britain in an exciting golf match at Hendon by two up recently. Stanley McLean and Ralph Corson of Toronto represented Canada and Lord London and E. Lewis represented England.

Mr. and Mrs. J. A. Tingley of Amherst, N. S. arrived here by auto on Saturday and are the guests of Mrs. R. P. Allen, Charlotte Street.

## PROHIBITION IS LOOKED UPON AS BY SOME PEOPLE IN ENGLAND AS A PIECE OF CRANK LEGISLATION

### CHASED TRAIN WITH AUTO AND CAUGHT IT

Labor Delegates With Pressmen Had an Experience While Party was at Woodstock.

The correspondent of the London Financial Times who accompanied the Imperial Press delegates to Canada, writes of the following incident connected with the visit of the party to the town of Woodstock:

"Canadian railway conditions can be glimpsed by means of a tale that is worth the telling, though it may quite possibly have reached you by cable already. We have been frequently and sternly warned that our special trains must depart to the minute at their scheduled time, and that there can be no waiting for anybody. While we paused at Woodstock for half an hour, to exchange handgrips and good wishes with the good folks of the town, the two Labour delegates (Mr. T. E. Naylor and Mr. Isaacs) strolled up the street on exploration bent. During their absence the train pulled out, and they were left behind. The report of their misfortune found the resourceful Canadians undismayed. They were advised to take a motor and race the train till they caught it. This they did, winning the contest, I believe, after a run of about 15 miles. The motor driver, learning the identity of his clients, declined to accept any fare. Messrs. Naylor and Isaacs are fain to admit that they never knew what fast motor travelling was until they put a Canadian chauffeur on his mettle in a tussle with the locomotive. The rest of us, knowing the condition of the average Canadian road, are in no way anxious to share their experiences. We desire to return home as entities, not as fragments. But what would you say of an attempt to overtake a London and North-Western special train by means of a motor car?"

## TRYING A NEW PLAN TO TAKE JOY OUT OF LIFE

(Special to the Daily Mail. Copyright)

London, Sept. 13—Following the Government's refusal to release Terence MacSwiney, Lord Mayor of Cork friends in London are urgently petitioning the Irish Republican Government to release him from the oath not to eat, and to use their influence to get him back from the hunger strike.

## THE WORLD'S CROPS WILL ABOUT EQUAL THE REQUIREMENTS

(Special to the London Daily Mail and The Daily Mail. Copyright, 1920, by Cross-Atlantic Newspaper Service.)

London, Sept. 13—The world's harvest prospects show a total yield of just equal to the requirement. Wheat crops in the United States, Canada, Spain, Italy and Switzerland are estimated at 95 per cent. of the yield of 1919. Rye, barley and oats in most countries will greatly exceed the average. Potatoes in Canada, the United States and Switzerland are estimated at 184 per cent.

### STRONG DISPOSITION TO BELITTLE IT

All the Same the Dry Movement in the Old Country is Steadily Gathering Force—The Electorate Has Had No Opportunity to Pronounce on the Question.

(By Hubert Wales, leading British novelist. Specially written for Cross-Atlantic and the Sunday Pictorial.)

London, Sept. 13—There is evident on all sides a disposition in this country to belittle the prohibition of the sale of alcoholic beverages which is now law in the United States and in part of Canada. It is looked upon as a piece of crank legislation that is too fantastic to endure, and consequently the British people appear to be possessed of a light hearted notion that the thing is too silly to last, and that something is sure to happen to relieve America.

But that is not how the matter strikes me. I cannot pretend to see in the American prohibition law a mere freak measure. I see rather a simple culmination of a national movement which has been gathering impetus for many years, led doubtless by scribes and pharisees, but nevertheless supported by the deliberate judgment of the modern men and women of the United States.

We must be wilfully blind if we fail to notice a similar movement in Great Britain steadily and silently gathering force. To my thinking Great Britain is not going dry, it is dry at the present moment. This fact is obscured only because the electorate has not yet had, and for several years may not have the opportunity to express their opinion on this matter to make a clear issue of it.

## MISSION AT ST. DUNSTAN'S BEGAN SUNDAY

The mission at St. Dunstan's Church opened on Sunday, Rev. John Cox, S. J., of Montreal, leader of the mission preached at all three masses, and at the opening of the mission to women in the evening Rev. Joseph Primeau, S. J. also of Montreal, companion of Rev. Father Cox, is to arrive Wednesday to assist in the mission.

The mission will continue for a fortnight, the first week being for women and the second week for men and children. The hours of the daily services are 5 a. m., 6.30 a. m., 7.30 a. m. and 7.30 p. m.

In these services emphasis is laid upon the necessity of renewal of Christian life.

Rev. Father Cox is well known as a preacher of power and the same is true of Rev. Father Primeau. Both priests have devoted much of their lives in mission work from coast to coast in Canada and also in the United States. When they conclude their labors here they will go to New York State on similar duties.

## TO TAKE JOY OUT OF LIFE

Chicago, Sept. 11—A method of making flavoring extracts non-alcoholic was proposed to the American Chemical Society annual convention today by Dr. M. de Grote of the University of Pittsburgh.

He favored substituting glycerine for the alcohol in these extracts and said glycerine made not only a better but a cheaper extract.
