

ANOTHER EPIDEMIC OF THE SPANISH INFLUENZA

A great many authorities have predicted a return of that terrible plague which swept Canada from one end to the other not long ago and left so many deaths in its wake and those who did survive were left in a great many cases with some serious after-effects such as weak heart, shattered nerves, impoverished blood and a general weakened and exhausted condition of the system.

If you are run down heart not just right, nerves a little shaky, take a few boxes of Milburn's Heart and Nerve Pills and fortify your system against this terrible plague.

If you had the "Flu" before and it left you with any bad after effect Milburn's Heart and Nerve Pills will bring you back to health and strength. Mrs. C. C. Palmer Keppel, Sask., writes: "I wish to inform you of the great good Milburn's Heart and Nerve Pills did for me. After a bad attack of the Spanish influenza my heart and nerves were left in a very bad condition. I got two boxes of your pills and must say they are the best I ever used and I have taken a great many different kinds. I will always keep Heart and Nerve Pills in the house."

Price 50c. a box at all dealers; or mailed direct on receipt of price by The T. Milburn Co., Limited, Ont.

Toronto Globe: The work of the Canadian National Committee for Mental Hygiene grows apace, and before long practically every province in Canada will avail itself of the services of their experts. Alberta, New Brunswick, and Nova Scotia have all asked for surveys of their provinces with the idea of bettering conditions in connection with the insane and mental defectives. Quebec and Ontario should fall in line in due course, as recent developments have shown that a great deal of constructive work desires to be done in these provinces. British Columbia and Manitoba have not only had surveys made, but have adopted the suggestions of the committee very extensively.

C. J. McDonald of Halifax is a guest at the Barker House.

It's hard work convincing the new father that three can live as cheaply as two.

According to an antiquarian the influenza was prevalent in Bible times. It would be interesting to know whether, when Solomon got the grip, all his wives told him at the same time that he was as "cross as—" or appointed a committee for the purpose.

ALBERT COUNTY MEMBERS AGAINST THEIR LEADER

Continued from Page Two
the men who were willing to bind the province down to a fixed rate for ten long years. They claim now that they rescinded that order. They did so, but not until it was established in the courts that it was a fraudulent transaction. It was too late now for him (Veniot) to raise a point of order, but he believed that if such a point had been raised it would be the duty of Mr. Speaker to decide in favor of it. The rules of Bourniot showed that the amendment was out of order, but the government had allowed the debate to go on, feeling that if a point of order was taken the Standard would come out with big headlines stating that the government was afraid of the issue and had bowled the amendment out.

There was no warrant for saying that the government was afraid of the lumbermen. Time and again they had been approached by delegations asking for concessions, and had refused them. They had been asked to fix a rate of stumpage for five years, but had not done so. There had been no hand greasing and smiling over the matter, because the government felt that the price of lumber must go up and if it did the stumpage should go up. That was the stand taken by the hon. premier in the public interests and was supported by every member of the administration. He did not know what the hon. leader of the Opposition would say to the two hon. members for Albert, but he (Veniot) could tell them that if they felt uneasy he would provide them with cross benches.

There had been rumors of disagreements among hon. members opposite and now they had the proof of it. It had been rumored that the hon. leader of the Opposition had not consulted all of his supporters with regard to the amendment. It was even said that the Ex-Minister of Public Works was the only one who had been taken into the confidence of his leader. It was also said that it was largely due to the influence of the ex-Minister that the hon. member had been restored to party leadership. As he looked across No Man's Land he could see from the contortions in the faces of certain hon. members that they were not pleased when certain others arose to speak and there was other evidence to show that hon. members opposite were not of one mind with their leader.

In dealing with the amendment he wished to point out that lumbering

conditions in the southern and central portions of the province were not similar to those which prevailed on the North Shore, and a fair comparison of the cost of operation could not be made. On the North Shore it was necessary to portage supplies for a distance of eighty miles. The cost of portaging ran as high as \$65 and \$70 per ton which meant that hay landed in camp cost the operators \$100 per ton. It was often necessary to drive lumber from 80 to 100 miles to get it to the mills. In view of conditions in the northern part of the province there was no justification for the hon. leader of the Opposition's statement that lumbermen made a profit of from \$15 to \$20 per thousand. There were many operators over North who did not make a profit of even \$10. The hon. leader of the Opposition had been unfair in his statement about laths paying for the manufacture of long lumber. He should know that laths were only a flash in the pan and fluctuated in price. In the last few weeks there had been a drop in the price of \$3 per thousand. He (Veniot) knew of a large order of laths which had sold last year for \$2.95 per thousand but two months ago they had sold up to \$4.85 per thousand. That showed that there was no stability in the market.

HON. MR. VENIOT moved the adjournment of the debate which was made the order of the day for tomorrow at 3 o'clock.

MR. MURRAY (Kings) asked for leave of absence for Dr. Taylor until the 24th.

MR. JONES asked for leave of absence for a few days for Mr. Dickson on account of an accident.

HON. MR. FOSTER, in reply to Mr. Murray (Kings) said that the Comptroller General's Report would be tabled later in the week, or as soon as the amendment was disposed of. Adjourned at 6 p. m.

ALL SHE ASKED.

Boreleigh (at the dance)—May I offer you some refreshment?

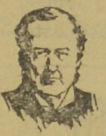

The Girl—Yes, just give me a few minutes to myself.

A TIGHTWAD.

"Mr. Ginks holds his own, doesn't he?"

"I should say he does. I don't know anybody who has ever been able to get anything out of him."

Hall's Wine

THE SUPREME TONIC
THE spirit of the age—progress and expansion—call for unlimited energy, health and strength. Hall's Wine supplies the sense of well-being.

THE RESTORATIVE THAT NEVER FAILS
Hall's Wine has been recommended by doctors in England for over a quarter of a century.

Buy a bottle of Hall's Wine to-day. If, after taking half of it, you feel no real benefit, return to us the half-empty bottle, and we will at once refund your entire outlay.

Your Druggist Sells it.
Extra Large Size Bottle \$2.25.

FLOODS CARRY AWAY BRIDGES

Halifax, N. S., March 17—Officials of the Nova Scotia Highways Board today said that the damage to the bridges in Annapolis county during the recent flood will be at least \$100,000 and that it will be several months before vehicle traffic across the Annapolis and Lehigh Rivers can be resumed. Four steel bridges, two wooden bridges, and at least a dozen smaller ones were demolished to a greater or less degree.

The largest loss was in the bridge across the Annapolis River at Bridgetown, which is of steel and has a 150 foot span.

SPRING WEATHER HARD ON BABY

The Canadian Spring weather—one day mild and bright, the next raw and blustery is extremely hard on the baby. Conditions are such that the mother cannot take the little one out for the fresh air so much to be desired. He is confined to the house which is often over-heated and badly ventilated. He catches cold; his little stomach and bowels become disordered and the mother soon has a sick baby to look after. To prevent this an occasional dose of Baby's Own Tablets should be given. They regulate the stomach and bowels, thus preventing or relieving colds, simple fevers, colic or any other of the many minor ills of childhood. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

The Germany militarists evidently believe they have Kapped the climax.

The pretty girl who kisses with her eyes shut has them open the rest of the time.

It makes a man cross when his wife asks him to explain something to her that he knows nothing about.

It is doubtful if any neckties that cost \$4.50 are worn by any man past fifty.

It isn't being kissed that a girl objects to so much as the thought of his thinking she wouldn't resist.

In driving a horse, the horse supplies some sense. In driving an automobile you have to furnish it all yourself.

A man will spend half his life looking for the ideal woman and the other half wishing somebody had blindfolded him and held him until she got past.

This is a test—If a young man in calling on a girl has eleven pillow cushions tucked around him, he knows he is regarded as eligible. If he has to pick up his own, well—it's a hint, you know.

It won't be long until the man who hates to carry out ashes will have a chance to hate to cut the grass.

Munchausen told some big ones, but it's plain he didn't tell them around home.

GROFAST CALF MEAL

Grofast Calf Meal will raise your calves and save all your butter fat.

Grofast Calf Meal will raise four or five calves at the cost of raising one calf on new milk.

Grofast Calf Meal is easily mixed, calves like it and they grow and develop as rapidly as on new milk.

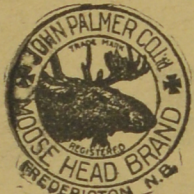

Keep your calves growing. Stunted calves never develop into fine cows or steers. Grofast Calf Meal will keep your calves in a thriving condition so that they will grow rapidly. It is a dependable milk substitute.

Grofast Calf Meal is a scientific high grade substitute for milk in the quick growing of calves. Many inferior imitations are on the market which contain hulls, or other indigestible ingredients.

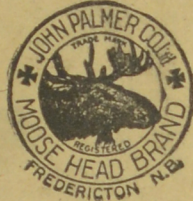

Try a 25 lb. bag of Calf Meal at \$1.75.
