What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric. Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

OF INTEREST TO WOMEN ***

WHEN BUYING YOUR SPRING HAT

Some of the Various Whys and Where fores Connected With This Important Proposition.

When you start out to invest in a spring hat what is the thing that you think of? Do you think first of what colors "they" are wearing, what shapes you have seen pictures of in the fashion magazines-or do you think first and foremost of that all important proposition, your own face and head and only in a secondary way of the other

Some women buy hats that they wear only a few times and then poke back on their shelves and try to forget or bravely send off to some impe cuntous country cousin who accepts or is supposed to accept gracefully any cast-off bit of wearing apparel that is sent for-hats that come to such ends are usually those that are bought by women when they forget the personal equation.

But with many women this never seems to matter, and they go wearing the hats that do not suit their type of face with the least concern in the world. Apparently they have the faculty of looking at their hats and faces in the glass quite disjointedly.

That is why, then, there are so many more than middle-aged women who persistently wear the most trying sort of brimless hats, apparently convincpersistently wear the most trying sort ed that such hats are smart. Smart they may be on a less mature face, but the older face is greatly softened by the half tone caused by the shadow of some sort of brim.

There are women of mature years whose cheeks sag, who wear the hair painstakingly marcelled and netted and drawn rather severely away from the face. They forget that this mode topped by a severely smart brimless hat adds years to their appearance.

Sallow or brown-skinned women frequently make mistakes in selecting hats of colors that accentuate the yel-BARRISTER, NOTARY, ETC. lowness of their skin. Especially fatal to such are the so called henna and mahogany tones. For this type of woman the best selection is usually black or some shade of blue-barring of course the very light blues. White hats in summer may be worn usually to good advantage by these women.

Often the very tall, small faced women make the mistake of wearing hats very broad, feeling that in so doing they detract from their attenuation. Often a well fitting small hat would be a better selection, as it tends to add character to the small face. F. M. O'NEILL, L. L. B.

BARRISTER, NOTARY, ETC., energy, the people always say, a pity her husband doesn't have some energy, the people always say, "What

GRANTS ANNUAL PASSES.

C. P. R. Encourages Loyalty in Service.

The C.P.R., to encourage loyalty service, and recognize the principle of co-operation has, through the president, Mr. E. W. Beatty, announced a new departure which will, doubtless, be much appreciated. This is the granting of annual passes to officers and employees and their wives under the following classifications:

Employee on a general superintendent's district, who has had continuous service for a period of not less than ten years, will be granted an annual pass good over district on which employed.

which employed.

Such employee, who has had continuous service for twenty years and over, will be allowed annual pass good over eastern or western lines upon whichever employed. Employee of any other department of the service will enjoy the same privilege. rilege as above, stating the terri-ory over which pass is desired. Head office employees who have had ifteen years' service will receive nnual passes over eastern or west-rn lines where employed. Women aployees are to be treated the same as men in this connection. This action expresses the policy of the C. P. R. to aim at the contentment and loyalty of the employees of whom there is an army of 60,000 at present, including all classes.

The Pension Fund, a free gift of the company, was the thought of Lord Shaughnessy. The employees contribute nothing. Already the operation of the fund has wrought great benefit. The effect of it has been to increase the contentment and loyalty of the employees, to give the sense of mutual co-operation, and to stimulate the general purand to stimulate the general purpose and interest of the company.

There are many all over the system on the Pension Fund, which offers protection in declining years. Millions of dollars are involved in the operation of the fund since its inauguration.

New York, March 17—According to the Globe this evening, the British govprevailing wholesale price of 24 ts, and is taking orders for lamb at 161/2 cents a pound wholesale, as compared with 30 cents a pound, the

This made feasible by the fact that the five year contracts which the Britsh government has hed with the meat ndustry of Australia and New Zealand are now expiring and these countries will be free to divert their sheep and lambs to any part of the world without restriction. The Globe forecasts extremely low retail figures as a result.

The Huns just couldn't bear to drop ter buckles out of publicity.

Victims Are Left Weak, Tired and Mentally Depressed - Tonic Treatment is Strongly Recommended.

No pestilence in years has caused more widespread suffering than the epidemic of influenza which swept over Canada in the fall and winter of 1918-19 and again this winter. danger from this trouble is seldom over when the characteristic symptoms, the fever, headache and the de pression of spirits have passed aay Influenza leaves behind it weakened vital powers, thin blood, impaired di-gestion and over-sensitive nerves Men and women who were robust be fore stricken with influenza find their bodies racked by pains previously unknown to them. This condition is due to an abnormal thinning of the blood and leaves the system an easy prey to other serious troubles. This is the time when the convalescent from influenza should build up the blood with a reliable blood-making tonic such as Dr. Williams Pink Fills. Weak means impoverished impaired digestion, a feeling of tired ness after even slight evertion, and sometimes even more serious symptoms. When the blood regains it ch red quality the nerves recove their strength and the organs of the body function naturally. In fact build ng up the blood will vitalize the whole system.

The experience of Mr. Andrew Marty Bathurst, N. B., will prove of value to a host of influenza sufferers who still suffer from the effects of the disease. Mr. Marty says: "Th new life and consequently new hope brought into my life through the use of Dr. Williams Pink Pills is almost beyond my power of expression. Following a severe attack of influenza in 1918 I found myself rapidly failing in health, and was naturally much alarmed. I began to lose in weight, could not eat, did not sleep well, and n a word I was reduced to a mere shadow. I was forced to discontinue work because of my weakened conwork because of my weakened con-dition and things had a very blue and Australian sheep in New York at 1234 cents a pound wholesale, against ed remedies, but without benefit And outlook. I tried a number of suggest-ed remedies, but without benefit. And then one day Dr. Williams' Pink Pills friend's advice began taking these pills and soon felt an improvement. full restored to my old-time health. From my own experience I formed penetrated that if given a fair trial, there is tens the paste. no medicine superior to Dr. Williams When the chi Pink Plls in bulding up a run down

CANADIAN MILLING

INDU since 1914, made progressive and flour exports between the and 1919 increased nearly flouring Today this business has an enrual capacity of slightly more than 35,-000,000 barrels a year and new mills canada exported 115,099 barrels of flour valued at \$521,388. By 1910 this had increased to 3,064,128 barrels valued at about \$15,000,000. In the fiscal year of 1919, 9,196,306 barrels were pulled at a value \$390. rels were milled at a value of \$99,-

Great Britain has been by far, Canada's best customer for flour, her imports from the Dominion of this commodity, for the las' fiscal year, being equal to about 60 per cent. of the total, or \$56,000,000 out of nearly

year were as follows:—Great Britain \$56,270,225; United States \$99,794; British South Africa \$17,309; Newfoundland \$34,147,527; British West Indies \$6,329,527; Other countries \$34,147,752.

The Trade returns for the present fiscal year show that, as yet, the exports of flour are holding their own, though the European countries are again engaged in grain growing and milling. In the last available period of five months 4.928,164 barrels of flour were exported, as compared with 4.461,313 in the same period in 1918. Of these 3.912.405. period in 1918. Of these 3.5/2403 barrels went to the United Kingdom; 38,423 to British Guiana; 146,596 to the British West Indies, 237,845 to France; 100,182 to Greece; 55,735 to Italy; 73,109 to Newfoundland; and 193,084 heavels to other countries Italy; 73.109 to Newfoundland; and 228,084 barrels to other countries. Great Britain took a little more than 1.000.000 more barrels than she did during the same period in 1918, and 1.700,000 more than in 1917. Other departments of the milling industry loom large also, as the following figures show: catmeal \$4,932.567; cereals \$4,247,249; bran. etc., \$1,592,

trade ray fell off considerably, the vity produced during view is in a very strong position and should be able to hold its own in the period of competition which is undoubtedly ahead.
