KEEP WINTER LAYERS

They shell out the eggs when prices are the highest, and pay the best. The Barred Plymouth Rock easily holds first place as the best general purpose fowl. They are prolific layers and can stand the severe cold of our winters. During the months of December, January and February of last winter I gathered 515 eggs from a pen of twelve hens. In an experience of thirty years with many varieties, I never owned such a pen of high class layers. Eggs from the pen are now testing 90 per cent. fertility. I will have for sale a limited number of eggs for hatching from two choice pens headed by Ontarlo A. C. cocks, at \$2.50 and \$2 per setting of fifteen.
