PULP AND PAPER

The Quebec Telegraph is of the opinion that Canadians have no need to look very far ahead of them to convince themselves that in the campaign against our pulpwood policy engineered by Senator Underwood and the International Paper Company, the bark of these latter is really much worse than their bite. The inconsistency of the cool demand that the Provinces interested shall change the conditions upon which they sold certain cuts of pulpwood, in order to benefit United States industry at the expense of that of Canada is all the more glaring when it is borne in mind that the Canadian Provinces are doing nothing more than securing the utilization of their own natural resources in their own territory—a policy which has been most consistently followed by our neighbors.

How idle says the Telegraph, is the threat that unless our export conditions and those of our sales of limits are exchanged to meet the idea of American pulpwood men, we may expect retaliatory treatment and a cutting off of our coal supply, may be judged of from the fact that in 1919 the United States received from us nearly 625,000 tons of newsprint and a very large quantity of pulp. "How would our neighbors better themselves in regard to the existing newsprint famine in their country by the adoption of a policy which might further deprive the most of this large source of supply? The bluff will not work."

Canada has greatly increased her production of pulp and paper in recent years, according to price values. In 1900 exports of pulp and paper were valued at \$4,464,000; last year the exports were valued at well over \$90,000,000.

In 1910 the amount of capital invested in pulp and paper making in Canada was less than \$50,000,000; in 1918 the total investment reached \$168,000,000 and this figure has been considerably increased since.

According to the latest Dominion statistics, there were 37 pulp mills, 31 paper mills, and 26 combined pulp and paper mills, representing a capital investment of \$241,344,704. Distribution of investments by provinces are given as follows:

British Columbia	\$ 42,700,000
Ontario	88,576,000
Quebec	101,456,000
New Brunswick	7,850,000
Nova Scotia	753,000

Employees engaged in the pulp and paper industries numbered 24,712 male and 1,151 female, and payments in wages and salaries amounted to \$26,974,226. As to production, the pulp was valued at \$42,608,000 and the paper at \$76,700,000. The total cost of materials used in making wood pulp was \$29,825,000. Materials used included 1,638,000 cords of spruce; 447,000 of balsam, 89,000 of hemlock, 9,800 of poplar, and 25,800 of Jack pine.

Senator Warren G. Harding of Ohio, "a dark horse", won the Republican nomination for the presidency at Chicago convention on Saturday. Governor Coolidge of Massachusetts was selected as the candidate for vice-president. Senator Harding was born on a farm, is a newspaper man by profession and has been a United States Senator since 1914. He is not as well known outside of his own State as General Wood, Senator Johnson and others who aspired for the nomination.

The members of the National Editorial Association of the United States, now touring Eastern Canada are in St. John today and will reach Fredericton tomorrow afternoon by the Valley Railway. While their stay in the capital will be short it is up to the citizens to see to it that they have a good time and carry away a good impression. They are entitled to a real old fashioned Fredericton welcome.

Fredericton has lost a good citizen by the death of Mr. John McKnight, who passed away at his home here yesterday. The late Mr. McKnight carried on a grocery business here for many years with great success and had served in the city council. He was a man of high character thoroughly honorable and upright and was highly esteemed in the community.

The inventor of the ice cream soda, Robert McKay Green—has just died in Philadelphia. While exhibiting at the Franklin Institute exposition in

Philadelphia two years before the centennial, Mr. Green, to get ahead of a competitor, conceived the idea of mixing the ice cream with the soda, and before the close of the exposition his receipts were more than \$200 a day.

There has been quite a drop in the price of lumber and mill owners report that the demand is not nearly as keen as it was a few months ago. Some mill owners have their seasons cut contracted for and they, of course, are not worrying over the slump in price.

A big sale of mens and boys clothing is now going on at Madison Square Garden, New York. Stock to the value of \$5,000,000, contributed by twenty-seven manufacturers, who are anxious to turn their surplus stocks into cash is being offered for sale.

THROUGH OUR SIEVE

Genius can write a lot of fiction around one small fact.

It's an art to clean a furnace properly and a black art at that.

Town people don't want the farmers to desert the farms for town unless they come to their town.

Some people get credit for being patient when in reality they are too cowardly to start something.

Opportunities are like apples: if you pick them too soon they are green, and if you wait too long they are rotten.

When a girl turns a young man's proposal down he is apt to take it to heart because he feels sorry for her.

They put the price of gasoline up every little while because they realize, perhaps, that one is driven to it.

Some men are so level-headed that they can turn down all appeals made to them to buy oil stock or a hair tonic.

After a few years, a married man gets so used to acting on the defensive that if his wife utters a protest when she steps on a tack, he calls it "nagging."

WOULD SAVE CONFUSION

Ottawa, June 12—Sir Henry Drayton, on being asked last night by your correspondent for a definite ruling as to when any modifications of the new taxes would go into effect, said that they would go into effect immediately following the passing of each resolution incorporating them. He said that he desired to have only one change in tax collection for each class of goods in order to save as much confusion as possible. Therefore each tax had to be demonstrated as acceptable to parliament before notification would be sent out to the collectors. Notice in the press would be considered sufficient.

WHY HE WORE THE BUTTON

Chicago, June, 12—An aged negro retainer of a Michigan visitor to the Republican Convention steadfastly refused to allow himself to be decorated with any of the candidates' buttons, feathers and other insignia.

When he appeared wearing a button labelled with the name of New York's favorite son, Dr. Butler, his employer asked him if he had at last attached himself to a Presidential aspirant.

"No, suh," the negro replied; "dis heah button jus' expresses mah callin', Butler I is, and butler I weahs."

Preached at McAdam.
 Rev. Father Carroll, curate at St. Dunstan's Church, was the preacher at McAdam on Sunday on account of the illness of Rev. Father McLaughlin. The latter is improving.

NEW MOTHER GOOSE.

The king is in his counting-house counting up his money.

The queen is in the parlor eating bread and honey.

No maid is in the garden hanging up the clothes.

You cannot hire a maid today as everybody knows.

Famous Words of Famous Women

She's so afraid I'm going to vamp that husband of hers. Why, I wouldn't look at him cross-eyed. RID.

Famous Words of Famous Men.

"Has anyone ever told you before what beautiful eyes you have?" M. E. S.

Famous Words of Famous Children

"I don't wanna go to bed." M. E. S.

Famous Whoppers.

"I did but the line was busy."

RAFTSMEN'S STRIKE WAS SETTLED

Employees of Nashwaak Pulp & Paper Company Returned to Work on a Nine-Hour Basis.

The strike of the rafting crew of the Nashwaak Pulp & Paper Company which works at the mouth of the Nashwaak River, ended this morning. The men went back to work on the basis of a nine-hour day, with pay the same as it had been for a ten-hour day. Boom Manager George Kilburn stated today that the men were at work again and operations proceeding as before.

The crew composed of some sixty men quit work at five o'clock Friday night completing a nine-hour day. Friday the rafting grounds were in idleness while negotiations were on. The company finally agreed to the demand of its employees for a nine-hour day.

TO STAMP OUT VENEREAL DISEASES

Ottawa, June 11—The federal government through the department of health, plans to take an active part in a Dominion wide campaign against venereal diseases. To this end an order-in-council has been passed which was tabled in the House of Commons today by Hon. N. W. Rowell, minister presiding over the department of health providing for the distribution of \$200,000 among the nine provinces, to assist them in combating venereal disease. The grants are to be made on a basis of population, and in two payments. The first of these will be made when the province has given assurance that it will spend an equal amount in the fight and has submitted an outline of its plans of campaign.

The provincial department of health must also sign agreements which will provide for the establishment of approved clinics under the care of specialists with assistants, hospitals, beds with free treatment, diagnostic laboratories and efficient inspection and treatment of patients in jails and other public institutions.

The second payment is to be made in six months if the federal department of health is satisfied with the vigor being shown in carrying out the campaign.

Grants to the provinces include Nova Scotia, \$10,573.86; New Brunswick, \$7,617.83; P. E. Island, \$1,915.11.

J. E. Wilson of Thorold Ont., is at the Queen.

NOTICE

WILL all car owners who intend taking part in the entertainment of the National Editorial Association tomorrow, please go down Charlotte or George streets to railway and head toward Queen street.

National Editorial Association of the United States

Will Visit FREDERICTON, N. B.

June 15th, 1920

Party will arrive by special C. N. R. train via the St. John Valley Railway at 3 p. m. from St. John, and will be given an automobile drive about the city and suburbs, visiting various points of interest. For the evening the joint committee have arranged the following programme:

7.45 p. m.—Band concert at Parliament Square by Fredericton Brass Band.

8 p. m.—Reception in Assembly Chamber at Parliament Buildings, with addresses of welcome by Hon. W. E. Foster, Premier of New Brunswick, and Dr. W. C. Crockett, M. P. P., former Mayor of Fredericton, representing the citizens.

9 p. m.—Informal dance in Assembly Chamber, light refreshments during the evening.

10.30 p. m.—Special showing of moving pictures of big game hunting and fishing scenes in New Brunswick at Gaiety Theatre for the visiting party.

The citizens are invited to attend the reception at the Parliament Buildings and co-operate with the committee in charge.

NOTICE TO CONTRACTORS.
