### OF INTEREST TO WOMEN

FASHIONS IN BRIEF.

A new idea in skirts is four heavily accordian plaited flounces, cut in points and placed one above the other.

A summer scarf of two different pelts, one of snow white caracul and the other red pointed fox, is an expensive novelty.

White linen is one of the fabrics essential for the summer girl's wardrobe this year. To wear with a frock of this kind is a cute little yellow linen coat, trimmed with brown braid.

Plumeline, a material of silk and cotton mixture, is shown in delicate colors for pretty and serviceable underwear, combined with satin for tops.

Narrow panels turned under at the bottom and trimmed with lovely Valenciennes lace form the trimming of a white net graduation frock that has an air of smartness as well as summery beauty.

#### HINTS TO HOUSEWIVES.

Salt and soda is excellent for bee stings and spider bites.

Margarine contains nearly as much food value as butter.

Starch the ironing board cover and it will keep clean longer, the clothes will slip over it more easily, making it a real pleasure to iron.

New iron gem pans or frying pans should be greased well and dried out slowly in the oven before using, in order that the fat may fill up the pores and prevent rusting.

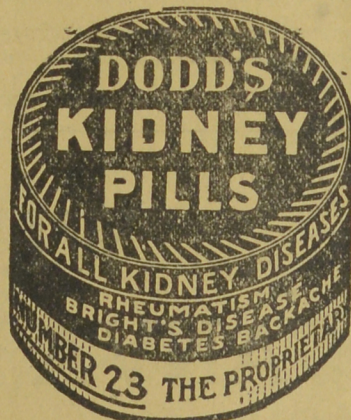

An attractive garnish for cold meats or salads may be made by rolling tightly several lettuce leaves and keeping them in a cold place until needed. When ready to serve cut the roll into half-inch pieces and pretty, light green rosetts will be the result. These add greatly to the appearance of the dish.

#### EYE BATHS BENEFICIAL.

For the daily care of the eyes there should be two baths. The body must have its bath. The face must have its cleansing. Why not the eye? Especially as the eye, with its thick lid and the fringe of the eyelashes is a dust trap, and the slightest speck of dust allowed to remain beneath the lid may cause irritation of the lid and inflammation of the eye.

A bath in borax water is highly beneficial and has the advantage of being convenient. Even while traveling one may carry a box of borax. Moreover, it is safe, because borax will only form a 4 per cent solution, that is only 4 per cent of it will be absorbed by water. A borax bath is very strengthening. If the eyes be delicate or the person so prejudiced against experiments that she is not willing to introduce this substance directly into the eyes, a silk handkerchief or a soft cloth dipped into borax water and pressed upon the eyelids is both efficacious and soothing.

The old-fashioned remedy of cold tea leaves pressed upon the lids has value, not from the tea leaves intrinsically but from the cold moist contact. Cloths dipped in water are quite as good.

## SWING ROPE STRANGLED CHILD

Battle Creek, Mich., June 22—Maxine Ruth, infant daughter of Mr. and Mrs. J. L. Sage, was strangled to death when she fell from the porch swing, catching her neck in a piece of rope. Maxine was almost two years of age and the youngest of four children. Mrs. Sage had been playing with her little daughter a short time before the accident, but had gone into the house. Upon returning to the verandah she discovered her dead.
