Cornmeal, per bag	4.85

### BIG BEAN SNAP!

Have you tried the white beans we are selling at 75 cents per peck? If you haven't you are missing a snap. If not satisfactory, return the beans and your money will be refunded.

## GERMANS ACCEPT TERMS OF THE ALLIED NOTE ON DISARMAMENT

SPA, July 9.—Germany's delegates signed at 11.45 o'clock this morning an agreement accepting the terms of the Allied note relative to disarmament, presented yesterday.

This action was taken under protest by the German representatives. The Allied note, which amounted virtually to an ultimatum, demanded that the Germans accept the terms presented by noon today and stipulated that in event of the Germans failing to carry out the provisions of the demands, the Allied forces would occupy parts of the German Empire.

The Germans protested in signing the agreement that the Treaty of Versailles did not oblige them to acquiesce in further territorial occupations except for failure to fulfil the treaty regarding preparation.

## HOSPITAL TURNED DOWN BY THE YORK MUNICIPAL COUNCIL

(Continued from Page One)

est safeguards of the people. In the rural districts there was a strong feeling against vaccination in many cases and parents deliberately kept their children from school to escape vaccination.

Coun. Dougan made a statement of the duties of medical inspectors. He stated also that as far as big salaries were concerned, the medical inspectors were not satisfied as the trouble of attending to the duties of office was not sufficiently recompensed. As far as the pencil was concerned it probably was sterilized.

Coun. Lawson said there was too great a tendency in the rural districts to let infractions of the Health Act go, and report to councillors expecting them to take action.

Coun. Manuel said he was not directing criticism toward the officials but wished that there be a published statement of salaries for the information of the public.

### Co-operation of All.

Coun. Dougan said he agreed with Coun. Lawson in the matter of all giving assistance in the administration of the Health Act. That was the only way to achieve success. Much good work had been done by the Department. As far as his salary was concerned he did not think he was overpaid, in fact hardly paid enough yet.

Warden Everett said that the Board of Health deserved the support of all. Coun. Brewer said the Board of Health would appreciate any suggestions. It was not overpaid and it could be seen expenses were low.

### Hospital Grant.

Coun. Brewer asked what was to be done with regard to Victoria Hospital. Warden Everett said it would have to lie over.

Coun. Brewer said he would not be satisfied to do that and would place before the council some facts connected with the hospital. He gave a brief sketch of the history of the institution from its founding by Lady Tilley with the assistance of Sir J. D. Hazen, the late A. F. Randolph and the late Asa Dow. He pointed out that with the exception of small annual grants from municipalities, there was only private assistance. The question was whether that was to be allowed to continue or the Municipal Governments would step in and aid.

The necessity of a new heating plant and laundry was urgent. A maternity wing was of great importance. He would not be interested personally in such a department to as great an extent as in the past, but there were others He would point out that it had become almost impossible to obtain competent assistance for maternity cases.

### Opinions Varied.

Coun. Lawson spoke strongly in favor of assistance to the Hospital particularly the Maternity Wing. He realized that the Municipal Home would entail a heavy expense but nevertheless the hospital needed aid.

Coun. Murray favored helping the Hospital, probably next Spring. A substantial grant should be given. He was not prepared to say how much. The City of Fredericton should help, possibly to the extent of seventy-five per cent.

Coun. Dougan said that a good Hospital was a great asset and the care of suffering was important.

Coun. Dougan said that a good Hospital with the Hospital but the county was burdened at the present time. Perhaps there could be an assessment next January or later.

Coun. Graham wanted to know what the City of Fredericton had given. It could hardly be expected that the county would take the initiative.

Coun. Alex. Brewer said that co-operation with the city was what was requested. Coun. Fleming, Coun. McMullin and Coun. Grant stated that they were opposed to financial assistance because a liability of \$20,000 for the Municipal Home.

Coun. Seymour strongly favored aid for the Hospital. He had a resolution to move but would not want it defeated and he realized that there was a majority against giving the grant.

Coun. Manuel said that bonding for \$20,000 with authorization of \$7,000 overdraft in addition for the Municipal Home was sufficient bonding at present.

### Consideration Deferred

Coun. Nason made a plea for the Hospital but said that under the circumstances he did not feel like making a motion.

There would be a campaign to raise funds and the parishes would be canvassed. Assessment would be the fairer way of contributing.

Coun. Christie seconded by Coun. Stairs moved that the matter be laid aside until part of the burden carried by the county was removed.

Coun. E. H. Allen said he did not want to see the question disposed of in this way. The Hospital was an important institution. There were councillors who had opposed the Municipal

Home, who had finally joined in its support and who would realize that its establishment was one of the best things ever done by the County. It would be the same with the Hospital.

The motion was carried. Coun. Smith suggested that the Minutes and Accounts be published in the same volume. There was discussion but no action was taken.

On motion the constable chaplain and reporters were voted the customary fees.

### Against Delegations.

Coun. Stairs moved that in future the cases of delegations be presented in writing for reading before the council. Coun. Brewer said that was going too far. He had appeared before the Fredericton City Council several times and invariably had been given a courteous hearing. A personal interview was of much greater value than a written statement no matter how clear the latter might be.

Coun. E. H. Allen said that such a motion would bar all delegations and was going too far.

Coun. Graham said he favored Coun. Stairs' motion. Two days of the session had been occupied by delegations.

Coun. Brewer said that delegations could not be blamed entirely. He could remember when the council heard all delegations and completed business in two days.

County Solicitor Richards advised strongly against passing the motion. The purpose of Coun. Stairs could well be realized but the remedy for loss of time lay largely in the hands of the councillors.

Coun. Lawson said that there was not half the time wasted listening to delegations that was wasted listening to councillors themselves. Delegations had a value in giving information. The trouble was that delegations had become too numerous.

Coun. Graham and Coun. Walker both discussed the motion.

Coun. Stairs said in his nine years at the council he had heard numerous delegations and the time was wasted to a great extent. It was not necessary for five or six men to come before the council and each talk on the same subject.

After discussion the motion was withdrawn and the council adjourned.

## LABOR IS DONE BY MACHINERY

No longer do the working crews of the circus have to tug and pull at the big top to roll it up for shipping to the next town, at least not on the majestic Hagenbeck-Wallace Circus which will appear here Thursday, July 15.

This season the circus has this labor performed by a machine and a "spool," which saves much time and work. The big tent is dropped to the ground after the final performance and the workmen place the various flaps and ends in place. The "spool" is then attached to one side of the tent and rolls the big top onto it, with the result that much time and labor is saved.

This is not the only labor saving device that the Hagenbeck-Wallace Circus carries. No longer do stakes have to be driven by man-power. Stake driving machines are now carried and there is another machine which pulls them up, when ready for the tearing down of the tent.

The circus is carried on three special trains and much of the paraphernalia being placed on 70-foot steel flats. There are more than 1,000 men, women and animals carried on these trains, besides the many billposters, programmers, hammers, mailers, press agents and others who travel on the advance cars.

Another interesting fact pertaining to the inner workings of the circus is that between 500 and 600 pounds of beef are needed each day to feed the animals. This great amount is separate from the many pounds necessary in preparing the meals of the performers and working crews.

Mr. and Mrs. Aubrey Clark of Calgary are visiting Mrs. Clark's parents, Mr. and Mrs. R. W. L. Tibbitts.

At last some of the beauty doctors are coming around to our way of thinking—that a freckle in the right place is cute.

Under prohibition 90 per cent. of the movable keyholes in the American home have become stationary.

TEACHER WANTED—Next term, at Fredericton High School, English subjects. Must be female holding Grammar School, Superior or First Class license, with at least two years' experience. Forward application, with references, to Chas. A. Sampson, secretary of Trustees, Fredericton, N. B.
