

FIRST ELECTRIC POWER SAWMILL IN PROVINCE

GORDON G. SCOTT'S NEW MILL STARTS MONDAY

On Site of Old West End Mill—Mill Refuse Will Furnish Fuel for the Power Plant.

Gordon G. Scott of Fredericton will begin operation on Monday next of his new mill which has been erected in this city on the site of the old West End mill, burned about fifteen years ago. The new mill is unique in the fact that it is the first sawmill in New Brunswick to utilize electric power.

Concrete Power House.
The power house of the mill is built of concrete blocks and is said to be the finest of its type in the province. Mill refuse will be used for fuel in this power house. Power will come from a one hundred and fifty horse-power generator.

The Machinery.
Six individual motors will apply the power to the various pieces of machinery. The latter consist of a Robb rotary with steam feed, a large Oxford edger, a lathe machine, planer and patent trimmers.

Logs Now Ready
Mr. Scott has one and three quarter millions of lumber ready for the mill. There is no roof on the structure at present the intention being to saw the lumber for it at the mill. The main mill is thirty-six by one hundred and twenty feet. A crew of twenty five or thirty men will be employed at first and probably will be increased. The industry will be an important addition to those now in operation in this city. The City Corporation has given Mr. Scott a lease of the river frontage as far west as lots occupied by J. C. Risteen & Co. near Smythe street. This will be used for piling lumber.

This new mill is one of a number of plants operated by Mr. Scott. One mill at Sagawa is in operation now. At Upper Cross Creek another mill has been in operation, but is closed at the present time.

Boy Scout's Medal

The Boy Scouts' silver medal has been presented to Ray J. Smith son of Alderman Smith of Woodstock, for saving a lad from drowning in the Meduxnekeag stream.

Here Next Week

The Royal Commission on Coal Mining, now sitting in Halifax, will likely meet in Fredericton on next Tuesday or Wednesday to deal with the situation at the Minto mines.

Death at Cork

An elderly lady named Bridget Reardon, who resided at Cork, died at her home there on Monday. She has been an invalid for some time. She is survived by one brother, John Reardon, of Cork.

Motored to Chatham

Chatham Commercial: Mr. and Mrs. John Costley, Frank and Sarah Costley motored from St. John, Saturday, to visit Mrs. Arthur Maher. They returned home Tuesday, taking their daughter, Gertrude, who has been visiting her sister, Mrs. Maher.

Cases All Cured

All cases of smallpox in Chipman and vicinity have been completely cured and there is no case of that disease in the southern district of the province now, is the report made by Dr. Warwick, sub-district health officer. There were seven cases of smallpox in the Chipman district at one time, all confined to two families and all contracted from one person from Quebec, who was visiting relatives at Chipman.

Annual Picnic

The colored folks of the city to the number of two hundred held their annual picnic at Waasis Station on Wednesday. The weather was cloudy and wet but not wet enough to dampen the ardor of the picknickers. A hitch in the ice cream arrangements caused some little annoyance. They had lots of ice cream, but alas the contractor forgot to supply cones or dishes and the latter had to be borrowed from a farm house. The usual games and sports were carried on and met with a good patronage.

At the Picture Houses

The week end picture at the Opera House is "The Girl from Outside" taken from the story by Rex Beach. There is also another chapter of the serial. The play at the Gaiety is "The Woman in Room 13" featuring Pauline Frederick. The story of "The Woman in Room 13" is quite unusual. Having to do with the wife of a former man of power in the political world of the city in which he dwelt, of her subsequent separation from the man and her marriage to another and with her apparent happiness being blasted at a time most unexpected through a chain of circumstances of the most sensational kind. "The Woman in Room 13" is surcharged with that element of the theatrical which makes for it at once a play of the utmost holding power from beginning to end. There is also another chapter of the new serial.

LAKE GEORGE MINE TRANSFER THIS MONTH

CANADIAN ANTIMONY CO. LTD. TO MEET THE 24TH

Offer of North American Antimony Company, Ltd., to be Accepted—Cash and Stock.

Another step in the development of the antimony deposits at Lake George, York county, will be taken on the 24th inst., when the Canadian Antimony Company, Limited, will hold a shareholders' meeting in Fredericton for the purpose of considering and taking action upon an offer of The North American Antimony Company, Limited, for the property of the company. Notice of meeting is issued by W. T. Chestnut of Fredericton, president of The Canadian Antimony Company, Limited. The meeting will be practically for the purpose of ratifying the sale to the North American Antimony Company, which has been developing the mine at Lake George for some months.

Terms of Transfer

The terms of transfer which are presented to the older company are twenty thousand dollars in cash and forty-one thousand shares in the North American Company. This will be share for share in the other company at value of one dollar per share.

Liabilities are Light

The meeting of the Canadian Antimony Company will be for the purpose of dividing the assets of the company after the deduction of sufficient to meet the debts which amount to only one thousand dollars.

New Owners Active

The new owners of the property are active in its development. S. E. Elkin, M. P., of St. John, is president. Walter E. Dixon, of New York, has been very active in the reorganization. C. N. Crowe, late of Bridgewater, N. S., is now manager at the mine which is progressing rapidly. Mr. Crowe operated it for previous owners. Operation at Lake George on a large scale will mean considerable development for that place and the surrounding country. The St. John & Quebec Division of the C. N. R., now runs within a few miles of the mine giving transportation facilities which were not possessed before.

Inspecting Dental Clinic

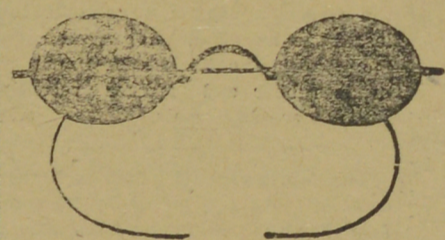

Col. R. B. O'Sullivan, from dental headquarters, at Ottawa, arrived in the city from St. John last night and is today inspecting the dental clinic at Fredericton Hospital D. S. C. R.

Dance Last Night

A very enjoyable dance was held last evening by the Fredericton Automobile and Boat Club. Despite the rain a large crowd was present and a very pleasant evening was spent by all.

Going to Cape Breton

M. A. McLeod, of the Department of Agriculture, is leaving tonight for Cape Breton where he will spend his vacation. Mrs. McLeod and their children will accompany him. Mr. McLeod will be away about two weeks.

WASHOUT ON C. N. R. FROM HEAVY RAIN

NEWCASTLE EXPRESS FLAGGED JUST IN TIME

Proceeded After Delay—Falling Tree Cut Electric Current in the City—Two Inches of Rain.

Yesterday's heavy rain was the cause of a wash-out at Marysville on the C. N. R., which, if it had not been noticed in time, might have caused a wreck far more serious than that which occurred earlier in the year, a short distance above that town. The trouble was noticed first, just about opposite the school house, and this side of Sandyville, by a man on the opposite side of the river from the railway. He raced across the dam and succeeded in flagging the express, just before it arrived at the scene of the wash-out. Two car-loads of clinkers were used to fill up the gap, and after this had been done the express proceeded on its way to Newcastle.

Two Inches of Rain

Dr. C. C. Jones, of the Meteorological Station, at the University of New Brunswick, reports that two inches of rain fell here Thursday afternoon. The rain was the heaviest which has been observed here in a long time. For the entire rain the recorded rainfall was 2.6 inches, an extremely heavy fall for a period not much more than twenty hours.

Electric Current Interrupted

Shortly after three o'clock Thursday afternoon the line of The Maritime Electric Company was broken and current was off until repairs were made. The break was near the corner of George and York Streets, a tree falling across the wires. The interruption in the current was very inconvenient to newspapers and others using electric power.

Work of the Street and Water Departments was stopped by the rain.

Wool Buyers Coming

Mr. George O'Brien, manager of the Canadian Wool Growers' Cooperative Association, Ltd., is expected to arrive in the city today in company with two buyers representing the same organization, to look over New Brunswick wool, with the probable intention of buying.

Cases at Moncton

Chief Game Warden L. A. Gagnon returned to this city last evening from Moncton where he has been attending the prosecution of two offenders under the Game Act. The charge laid against these two men, one of whom is a resident of Moncton, and the other an outsider, was of having game hides in their possession in the close season, the hides being untagged and with no permit. One of the defendants has fined \$100 and costs and the judge has deferred his decision in the case of the other until next Wednesday. These offenders were evidently going into the business on a wholesale basis, being in possession of fifty-four deer hides and one moose hide.
