PRESSED and REPAIRED

OF INTEREST TO WOMEN

YOUR SPRING RENOVATING.

Few women realize that woollen dress fabric if it is of good quality may be washed with soap and water with good results. You will usually find it more satisfactory than naphtha or gasoline, because it takes out all the dirt and because it leaves no odor. Moreover, the fabric once cleaned with gasoline soils more rapidly than before or than when washed with soap and water. Of course, there is the danger of shrinkage. However, if dried fairly rapidly in a dry but not hot place out of the sun, shrinkage will not be very great.

Woollen fabrics wash with very good results in the electric washer. This is an especially good method as spots come out without rubbing in this way, whereas the rubbing necessary in the old fashioned way sometimes ruffs up the surface of the fabrics. Soap bark should be used instead of soap when washing dark woollens of which you are in doubt concerning the dye. A pamphlet issued by the Department of Agriculture jointly with the Treasury Department recommends the following method: "Make a solution by boiling one cup of soap bark (about three ounces) and one quart of water five minutes; cool strain and mix with the wash water like ordinary soap solution or put the soap bark into a small thin bag and soak and squeeze it in the wash water. A little soap bark used in the rinse water gives the goods a slight stiffness."

Sometimes in renovating worn woollen clothes you especially desire to remove the shine on the worn spots. This may be done by sponging with a solution of one tablespoon of ammonia in a quart of clear water. Sponge with light, even strokes in the direction of the grain of the material, using only a little moisture at a time. Iron on the wrong side with a medium hot iron or press with a damp cloth over the right side. Brush up the nap if too closely pressed down.

SPRING GARNISHING.

Salads arranged in a border of hard boiled eggs, pickled beets, cold boiled carrots and slices of potato cut in fancy forms—hearts and circles and rings and triangles—are too ornate to be in good taste. But the ungarlished dish is almost as unappetizing.

Warm weather garnishes should always be fresh, crisp and dainty. Watercress, fresh parsley lettuce heart leaves, capers and small radishes crisp and cold, all form appropriate and appetizing garnishes for meat fish and vegetable dishes.

Another way of garnishing is by combining two dishes. For instance if hashed brown potatoes are to be served with a hash of lamb and peppers place the meat hash in the centre of the dish and arrange the potatoes neatly about it. Creamed fish can be piled in the centre of the patty, creamy marsh potatoes can be arranged about it and the whole can be browned in the oven—with a few buttered bread crumbs sprinkled over the fish—for ten or fifteen minutes. Bacon can be used as a garnish to liver or poached or fried eggs. It should be broiled crisp and dry and should be neatly put on the serving dish; nothing is more unsightly than greasy, limp half cooked bacon piled hit or miss on a dish.

TEACHERS SALARIES AND OTHER THINGS DISCUSSED

Continued from Page Three

less than \$31,000. On both sides there was a feeling that members of the government were underpaid. That was no reason for adding another Minister to the list, but it was a cogent reason for the consolidation of several departments. He thought the duties of the Provincial Secretary-Treasurer might be distributed among other departments without disadvantage to the country. An Attorney General was necessary, but was entitled to more than \$2100 a year. A Minister of Lands and Mines, and a Minister of Public Works were also needed. He did not think that the department of Agriculture called for a Minister who did nothing else. If they must have a Minister of Health, the department might be consolidated with that of Agriculture. He thought the departments should be carried on by a smaller number of better paid ministers. It was an accident that the government had in its ranks a member of the medical profession to take charge of the department of Health, but that might not always be the case. The next House might be without a medical practitioner, but he would not like to say that there would not be a farmer among the members. It might be to the advantage of the province to have a practical farmer in charge of the Department of Health. Such a man would no doubt provide good solid material for the public Health. The opposition had not objected to Dr. Abramson, who was a good man, but it did object to medical inspectors running about the country in the interests of the public health. He did not think the office of the Minister of Health was worth a salary of \$2100.

MR. MCGRATH said he thought it might be more desirable to have the Minister of Agriculture act as Attorney General, as he felt sure he would do better in that position than he would presiding over the Department of Health.

MR. PINDER wanted to know where the government proposed to raise the \$2100. He thought a bond issue might be necessary.

A motion to adopt the bill was carried by a vote of 17 to 10. The Committee next went into consideration of a bill to amend the Game Act.

MR. SWEENEY wanted to know what system was followed in the issuing of permits for the capture of beaver. It seemed to him that some people were able to get them, while those in other localities could not. Beaver fur was valuable and the province should have the benefit of it.

HON. MR. SMITH said the Act which permitted a limited number of permits to be issued for Beaver was passed in 1912. They only issued tags to those engaged in trapping, as they felt sure that they would leave sufficient beaver for breeding purposes. A survey was being made in order to ascertain the districts where it would be advisable to permit the trapping of beaver. Permits were not issued for some districts of the province. From reports in his possession he did not think a close season was necessary.

There had been a steady increase in the value of beaver skins the average price now being \$35 to \$40 each. He would suggest \$8 as a price for permit that amount being proportion to the value of the skin.

MR. YOUNG said that there was a tax on the skins also.

HON. MR. SMITH said that it had been determined to follow the plan adopted in other provinces, and get statistics concerning the quantity of fur exported from New Brunswick. It would be required to have a Government stamp on each pelt. This was not for purpose of revenue however.

MR. JONES asked what was going to be done about the colony of beaver at Studholm, Kings Co.

HON. MR. SMITH said that matter was under consideration and if it were found that the colony was causing serious damage arrangements would be made to have them removed. Westmorland County would gladly receive the animals.

MR. JONES said that he had visited the location of the colony and had seen eight or ten acres of meadow land flooded by the dam.

HON. MR. SMITH said that in Maine the fee for each non-resident taking out a bird license had been made \$15. The same was to be done in New Brunswick. The bounty on wild cats had been withdrawn, but the fur of this animal had advanced in value to such an extent that the bounty was not necessary. The fee for non-resident trappers had been increased.

MR. BURCHILL asked what the oath was as mentioned in the bill.

HON. MR. SMITH said that each person taking out a license was required to swear that he would observe the game laws.

MR. SMITH (Albert) asked if any of the provisions of the bill applied to the fur of animals reared in captivity.

HON. MR. SMITH said that such animals were not included under the game act.

MR. YOUNG asked how distinction could be made between the skins of wild animals and those reared in captivity.

HON. MR. SMITH said that all furs originating in the Province should be marked. Such was done in Quebec and he would propose such an amendment next year. In that way the total fur output could be learned.

MR. TILLEY said that it would be well to arrange for consolidation of the Game Act next year.

MR. MERSEREAU said that there were a number of registered guides in his part of Sunbury County who trapped in the winter time. They sold their furs in Montreal. Did they have to secure stamps?

HON. MR. SMITH said that under

the circumstances they must have the furs stamped themselves. If they sold to dealers within the Province the dealers would have to do the stamping. The bills were reported.

HON. MR. BYRNE introduced a bill to amend the act to establish electoral districts and sub-districts within the Province. The bill was read the second time on the ground of urgency.

The House went into Committee with Mr. Dysart in the chair and took up consideration of bills to incorporate the Central Trust Co., of Canada, to amend the Consolidated Statutes 1903, and to enable the Town of Sackville to borrow money.

MR. MCGRATH asked for careful consideration of the bill to amend the Consolidated Statutes which related to the registration of pharmacists.

MR. BAXTER said that the only changes made were the increase in the scalers' examination fees, to change the organization society to a slight extent and to prevent conduct and shame businesses.

MR. MCGRATH said that pharmacy was a off-shoot of the medical profession. Many doctors conducted drug businesses with the aid of assistants. However, he would rely on the assurance given and not oppose the bill.

MR. BAXTER speaking to the bill to enable the Town Council of Sackville to borrow money said that there was a dispute between two factions of the Town and the bill had been asked by certain people to press for an amendment providing that a plebiscite be held before expenditures be made.

MR. MAGEE said that almost half of the electors of the Town had petitioned for the enactment of the bill.

The amendment was defeated and the bill recommended.

The bills were reported.

HON. MR. MURRAY presented a message from His Honor the Lieutenant-Governor submitting the Supplementary Estimates and moved that such message and Estimates be referred to the Committee on Supply.

The list follows:—

Administration of Justice—	
Rent, Law School, St. John	\$ 500
Rent, Office of Chief Justice, King's Bench Division	150
Agriculture—	
Butter and Cheese Factories—	
Working capital, Madawaska Creamery	2000

Department of Health—Filing Cabinets, etc.	1000
Wharves, Repairs	2500
Colonization Roads—	
Imperial Press Conference—	2000
	5000

The House then went into Committee with Mr. Leger (West) in the Chair and took up consideration of the Supplementary Estimates.

MR. TILLEY on the item \$12,800 for lime rock crusher and power, wanted to know if that sum was to be expended in addition to the \$10,000 provided in the Estimates.

HON. MR. FOSTER replied that it was.

MR. TILLEY thought it would be cheaper to buy the lime rock from one of the existing plants.

HON. MR. FOSTER said that after the

SHORT OF BREATH

Could Hardly Walk Without Resting.

When you go to a physician to be examined for any heart trouble, one of the first questions he asks is: "Are you short of breath?"

Now when the heart becomes affected there ensues a feeling of a choking sensation, a shortness of breath, palpitation, throbbing, irregular beating, smothering sensation, dizziness and a weak, sinking, all-gone feeling of depression and anxiety.

On the first sign of the heart becoming weakened or the nerves unstrung, Milburn's Heart and Nerve Pills are the remedy you require. They regulate and stimulate the heart and strengthen and restore the whole nerve system.

Mr. Stephen Crouse, East Clifford, N. S., writes: "I suffered for five years with heart trouble. I could hardly walk from the house to the barn without resting as I used to get so short of breath. Doctors could not help me. My wife told me to get a box of Milburn's Heart and Nerve Pills and I felt better after taking them; three boxes made me quite well. I am now helping my son to work the farm, and can truthfully say I feel like a different man."

Price 50c. a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

the plan worked out by the hon. minister of agriculture had been given a trial, it would be for the hon. member to say whether or not the farmers were getting lime rock at a lower price than had been paid to dealers.

HON. MR. FOSTER on the item of \$5000 for Imperial Press Conference made a brief explanation. He said the amount had been set aside to assist in providing entertainment for the members of the Conference when they visited the province. Lord Atholstone of the Montreal Star was in charge of the financial arrangement.

All other provinces of Canada were contributing to the fund. The party which would consist of about one hundred leading journalists, including Lord Northcliffe, would arrive in July or August and make a tour of the Maritime Provinces. He was sure that all wanted New Brunswick to do its part, and he trusted the grant would meet with approval of hon. members.

HON. MR. TILLEY introduced a bill to provide for the repairs and improvements to roads, and other public services; also a bill to defray certain expenses of the Civil Government of the province. On the ground of urgency these bills were read a second time.
