GOOD ROAD BUILDING WILL BE EXEMPLIFIED

Important Convention Will be Held at the Royal Alexandra Hotel, Winnipeg, in June—An Interesting Programme Will be Carried Out—The Lieutenant Governor of Manitoba Will Deliver the Opening Address.

(Toronto Globe)
Demonstrations of the manner in which highways are built comprises part of the program during the forthcoming convention of the Canadian Good Roads Association, which opens on June 1, and will last until June 3, at the Royal Alexandra Hotel in Winnipeg. Offers have been received from two companies to construct sections of gravel or earth roads during the convention supplying all the necessary men and machinery and their offer will almost certainly be accepted. Most of the roads in that part of the Dominion are likely to be of gravel, earth or macadam for the next decade and the demonstrations that will be given will therefore be of much value to the delegates who will attend from all the municipalities who become members of the association. It is also probable that other roads of concrete asphalt or macadam will be built during the convention, under the supervision of the most expert highway officials of the continent.

Ontario Road Pictures
Apart from the practical demonstration the delegates will also be shown cinematograph films of the processes of constructing water-bound macadam earth cement concrete asphaltic concrete tar macadam gravel and other roads which are being loaned by the Ontario Government through W. A. McLean the Deputy Minister of Highways.

The tentative official program of the convention which will be presided over by S. L. Squire the President, and be attended by official representatives of every Government in the Dominion, shows that a wide variety of subjects will be brought before the delegates.

The Opening Day
The morning of the opening day of the convention will be devoted to registration of delegates followed by the formal opening of the convention by the Lieutenant-Governor of Manitoba Sir James A. M. Aikens and addresses by the Government representatives from the different provinces.

The demonstrations of actual road-building will commence at noon on the opening day, and at the afternoon session there will be a address on the Federal aid to be given by the Dominion Government for the construction of main highways. In this connection the United States Government Bureau of Public Roads are sending a special delegate from Washington to speak on State aid for highways. The Dominion Highways Commission are particularly interested in this matter, and will have one or more official representatives at the convention.

The annual dinner and entertainment of the association will be held in the evening of the opening day of the convention.

Roads for Farmers
On the second day the value of

roads as an aid of agriculture will be discussed, followed by a paper emphasizing the importance of foundations in road building. From across the border a prominent State highway engineer will inform the delegates on the best methods of improving and maintaining earth, clay and sand roads while broken stone roads will be the subject of another paper.

At noon the annual meeting of the Canadian Automobile Association will be held at which delegates from all the important automobile clubs of the Dominion will be present.

Some valuable suggestions on the financing of a Provincial highway system will be put forward at the afternoon session by a representative of the Federal Government, followed by an address on the bituminous treatment of sand roads, and papers on road-dragging and various methods of road maintenance.

LIFE FUND OF CHILDREN STOLEN

New York, May 8.—Somewhere between the Seventy-second street subway station and the Harriman Bank Building, Fifth avenue and Forty-fourth street, yesterday afternoon, a widow in not too affluent circumstances, lost or was robbed of \$18,500 in cash. The money represented the endowment fund bequeathed to her two invalid children by their father and a few hundred dollars she had laid by for the children during her husband's lifetime. She was on her way to open an account in the children's name.

That she was robbed was indicated by the circumstances learned by her counsel, Charles T. Lark, and related to the police of the East Fifty-first street station. In an advertisement, Mr. Lark offers a "very liberal reward" for the return of the money, asking the possible possessor to consider the plight of the toser. The children's mother already has been prostrated by the shock, he said, and for that reason does not wish her identity disclosed.

Going to a bank in the vicinity of Broadway and Seventy-second street just before 3 P. M., he related, the mother drew out the \$18,500. The sum was divided into eighteen \$1,000 bills and five \$199 bills, and was placed in a small envelope, which she put carefully in her handbag alongside a smaller envelope which contained visiting cards. The bag was a large affair, closed at the top by a slip, and dangling from her arm.

She took a local to Times square, the shuttle to Grand Central, and walked back along Forty-second street and Fifth avenue to the Harriman Bank arriving there about 3.10 o'clock. The slip over the mouth of the bag apparently had not been touched, but when she looked inside both envelopes were gone.

Toronto, May 8.—Toronto is now receiving from 54 to 61 tons of American magazines less each week than during normal distribution. The supply of some periodicals has been cut off, while others have reduced their shipments.

The manager of the American News Company, which handles practically all distribution of American magazines for Canada, stated that the situation would grow worse owing to the serious paper shortage in the United States. Of one weekly all supplies to news dealers have been stopped. Old subscribers can still remain on the mailing list, but new subscribers are being told that the subscription will not be filled unless the paper situation improves.

A number of other magazines from across the border have commenced to put two months' issue in one. In addition to those several others will be putting out two issues in one shortly. With all these supplies are being largely curtailed.

It is not improbable that within the next month practically no American magazines will be available for Canada, except those supplied to old subscribers to the magazines, it is expected that American papers will shortly be withdrawn from Canadian news-stands.

table depends, it seems, upon sugar.

Restaurateurs and chefs have been working to find a substitute for cakes and jam on these cakeless and jamless days, but without result. At Ruml-meyer's, the Ritz and other fashionable places they have been making strong efforts to bolster up the afternoon tea business, but apparently have made little headway. Some places tried serving salads, shrimps and outs with tea. The Parisiennes did not take kindly to the scheme and it failed. Now many of these women are staying away from the "five o'clocks" on the cakeless and jamless days.

GIRLS! WOMEN! DO YOUR LOOKS SATISFY YOU?

Is your color fresh and rosy?
Does the glow of health shine out in your cheeks?

Do your eyes glisten with health, or are they dull, dark circled and tired?

Alas—your bloodless face indicates trouble. Your watery blood menaces your health. What you need is the tining, cleansing assistance of Dr. Hamilton's Pills. They will clean out the surplus of bile that makes your skin so murky—they will put new life into the stomach, brace up digestion and make you eat sufficient food to get a blood supply ahead.

Good blood always means more strength and vigor—that's why Dr. Hamilton's Pills are so successful in building up weak, thin folks.

SUGAR SCARCITY HITS 5 O'CLOCK

Paris, May 6.—The "five o'clock" has been hard hit in Paris. The Government's edict for cakeless and jamless days is responsible for without cakes and jam and other sweets that go with a well appointed "five o'clock" Paris women will have no afternoon tea. Even the brilliant wit of the tea

KEEP WINTER LAYERS

They shell out the eggs when prices are the highest, and pay the best. The Barred Plymouth Rock easily holds first place as the best general purpose fowl. They are prolific layers and can stand the severe cold of our winters. During the months of December, January and February of last winter I gathered 515 eggs from a pen of twelve hens. In an experience of thirty years with many varieties, I never owned such a pen of high class layers. Eggs from the pen are now testing 90 per cent. fertility. I will have for sale a limited number of eggs for hatching from two choice pens headed by Ontario A. C. cocks, at \$2.50 and \$2 per setting of fifteen. As many of these settings are spoken for, no time should be lost in placing orders.

If you want Single Comb White Leghorns I can supply eggs from stock which won the championship at the Fredericton and Moncton shows at \$5 and \$3 per setting.

JOHN N. FERGUSON, - - York Street, Fredericton, N. B.

MAIL CONTRACT.

WHY THE GOOSE WAS KILLED

"You have heard of the man who killed the goose that laid the golden egg."

"Yes" said Farmer Cornatassal. "It's just possible that goose required such expensive feed that it wasn't much of an investment, anyhow."
