ROMANCE STILL LIVES.

The perils of ocean travel are less than they once were and the irresistible appeal to audacious explorers Di which distant mysterious corners of the earth once sounded is growing weaker, but as long as there are winds and waves those who go down to the sea in ships must face the possibility of disaster. If the sea has lost many of its thrills, however, man's newest element of locomotion, the air, affords fresh fields of adventure. The dangers of shipwreck were never more real ting lost. Witness the deaths of two than the chances aviators take of get-American army flyers who were marooned in lower California until death relieved them. The other day four Frenchmen flying from Pau to Madrid cend in a lonely valley in the Soria Theatre today and tomorrow. mountains and perished before they possible to match skill and courage millions of people. against fate. Romance and adventure still live

## THE SERVANT PROBLEM.

A servant girl is running for a seat in the British House of Commons and a dispatch from St. Paul says that com-farces ever produced on stage petition for housemaids is so keen in screen. that city that mistresses are letting once or twice a week.

an exchange, who was a very compan- Blanny, she is exceedingly funny. Euand was regarded as a member of the written, family, and at times she exercised the right to exact obedience by a good solid clout on the ear of a child. Although she got only \$2 a week, she considered herself prosperous. She married a good young man who now, acre. We wonder if she would vote for the English servant girl who wants a seat in parliament if she had a chance, and what she thinks of the St. Paul servant girls who have to beallowed the use of an automobile to keep them contented at their work.

## THE EXCHANGE RATE.

Some people blame the United things girls do. States for the high exchange rate, on the banks. A writer in the Mont- the windows. real Star points out that if a man goes a \$100 draft on New York he pays \$115 people won't listen.

The public of the pays \$115 people won't listen.

The public of the pays \$115 people won't listen.

The public of the pays \$115 people won't listen. for it, but the man in New York gets only \$100. He takes it for granted the bank pockets the difference. On the other hand, if a man goes into a New other hand, if a man goes into a New York bank and buys a draft on Montreal he pays \$100 for it, but the man in Montreal receives \$115 in Canadian money. The question naturally suggests itself, where does the bank come in in this case? The fact is, neither the United States nor the banks are responsible for the present high rate of exchange. It is due to the present high rate of exchange. It is due to the present high rate of exchange. It is due to the present high rate of exchange. It is due to the present high rate of exchange. It is due to the present high rate of exchange. It is due to the present high rate of exchange. It is due to the present high rate of exchange and present hi high rate of exchange. It is due to the fact that we buy more in the United States than we sell to that country.

The report of the Legislative Committee which during recess enquired compelled to take vigorous if belated into the subject of teachers' salaries, action to stamp out the evil. But this will be submitted to the House during Brunswick or even Canada. It is ly that the report will recommend a and at a recent meetings of the North substantial increase in the salaries of British Railway Company in Edinteachers and judging by the remarks burgh the Chairman stated that the made by the Premier a few days ago, number of claims paid by the Comsteps will be taken to carry out the pany in the goods and passenger derecommendations. The present gov. partments in respect to goods lost, ernment has successfully grappled stolen or pilfered in 1913 was 3,610, with many problems during the three to 28,144, an increase of 227 per cent. years it has been in power, and others In respect to one item alone, whiskey will be added to the list during the stolen in transit, the railway had been
