

MOTOR CAR THIEVES ARE DEPORTED

CHIEF GEO. RIDEOUT OF
MONCTON TO TAKE THEM

Stole Car in Moncton Last Fall
and Were Arrested in Maine
—One Shot in the
Leg.

Chief of Police George H. Rideout of Moncton is here today on his way to Vanceboro, Me., where he will take into custody three prisoners who are being deported from the United States. The deportation is being made because the men are classed as undesirable.

Two of the trio are wanted in Moncton for the theft of a motor-car early in the autumn. Three men got away with the car and made for the United States border. After some difficulty they succeeded in crossing at St. Stephen and went through Maine. Word to watch for the men had preceded them and they finally were caught. One of the party jumped from the car and tried to make a getaway. He was fired on and hit in the leg. Since that he has spent some time in hospital.

Chief Rideout will take the men over from United States officials and go through to Moncton with them. He formerly was a member of the Fredericton Police Force.

F. & D. Executive Met

The dates are not yet fixed but it is expected that the meeting will be in the week beginning March 8. The sessions will open Tuesday morning, the usual opening public meeting being held Tuesday night instead of Monday as has been the custom for some years past.

Unusual Incident

An unusual incident was observed by a traveller Wednesday night at Meductic station on the St. John & Quebec Railway. A hoghead of molasses was being delivered from the train. The skids used to move the hoghead from the car to the platform evidently were not as strong as they should be for one broke. The molasses and its container fell several feet and the head was knocked out of the hoghead. A flood of molasses at once covered the platform and so great was the suction that the other head was dragged in, leaving only the staves. Some time later about dusk, the same travelling man observed some seven or eight persons of all ages gathered about the wreck with dustpans, dishes and other utensils, salvaging what remained of the molasses. The latter was consigned to a merchant of the vicinity Peter Marsten. The loss must be borne by the railway. The thrifty people of the village however, had no intention of letting all that costly sweet stuff go to waste.
