

OLD FOLKS NEED MILD BOWEL TONIC

And Should Avoid the Use of Harsh
Pills and Drastic Purg-
atives.

Old people, no matter how sound and healthy, should avoid cathartic pills, purgative water, salts and all such temporary relief measures. They ease conditions today, but bind you up worse than ever tomorrow.

It is better to get the bowels into the habit of performing their needful function at a certain time each day and this can be done by strengthening the muscles of the stomach and bowels by the tonic action of Dr. Hamilton's Pills, a mild laxative that acts as close to nature's way as possible. Thousands of people, old and young, prevent and cure habitual constipation by using Dr. Hamilton's Pills, a mild yet active medicine that is noted for its promptness in curing headaches, belching gas, sourness in the stomach, fullness after meals, liver soreness and muddy complexion. You'll have the best of health, feel good, eat well, digest and sleep well if you regulate the system by Dr. Hamilton's Pills of Mandrake and Butternut, 25c per box at all dealers, months past and find it an excellent in yellow boxes, 25c.

New Moncton Church

Moncton is to have a fine new church and in the hands of a St. John man has been placed the task of designing the edifice and preparing the plans. Charles L. Archibald is now working on the plans for the new Highfield Baptist church in the railroad city which when completed will cost between \$100,000 and \$115,000. The building will be of brick with stone trimmings and will be of square Gothic design with two towers in the front. The foundation will be of concrete and the Sunday school consisting of sixteen class rooms, will be placed in the basement. The congregation of which Rev. Mr. Cochran is the pastor have been using a hall for their services for some time. The new structure will be one of the finest in Moncton.

OF COURSE.

"Do you think kleptomania is catching?"

"No, but it's taking."

This warning about "knocking on wood" don't seem to make a hit with citizens who are out of fuel.

NOTICE OF LEGISLATION

Notice is hereby given that application will be made by the Town of Devon to the Legislative Assembly, at the next session, for the passing of an Act to give authority to said Town to make by-laws to regulate the construction, nature and kind of buildings which may be erected within certain limits within the said Town.

Dated the 1st day of March, 1920
PETER J. HUGHES,
Solicitor for Town of Devon.

POLICY OF GOVERNMENT IS TO HANG TO OFFICE

Present Ministry was Elected for the Period of the War and
Has Finished Its Work — A Parliament Fresh from the
People is Needed to Overhaul the Customs Tariff and the
Whole Subject of National Taxation.

(Toronto Globe)

There can be no doubt at all that the electors of the Dominion, were they in a position to do so, would endorse overwhelmingly Mr. Mackenzie King's amendment to the Address calling for a general election. The Ministry, elected in December, 1917, to carry on the war to a successful issue, in so far as Canadian effort in the field could contribute to victory, has finished its work. Many thousands of Liberals, especially in the Western Provinces, voted for the Parliamentary candidates of the Union with no other idea than that after the making of peace party government would be resumed, economic issues would once more come to the front, and the long deferred question of tariff reform, in which the West is vitally interested, would be dealt with by a Parliament fresh from the people and possessing a mandate to overhaul the customs tariff and the whole subject of national taxation.

Liberals who supported the Coalition in 1917 with this understanding of the probable course of events were astonished to learn during the first session of 1919 that a proposal to perpetuate the Coalition was under serious consideration, and that Sir Robert Borden had made certain suggestions to his Parliamentary followers concerning the basis on which Conservative and Liberal supporters of the Ministry might come together and form a permanent Unionist party. The Globe believed then, and still believes that it voiced the sentiment of the bulk of the Liberals who had voted for Union Government in protesting against the attitude of Liberal-Unionist members of the Government who, without consulting their constituents, appeared to be ready to join hands with the Conservative party in an integral union that could succeed only by the destruction of the historic Liberal party.

The endeavor to form a permanent Unionist party has not been altogether abandoned, but it becomes increasingly evident that such a party will be Unionist only in name, and in reality will be the Conservative party, masquerading in a costume donned with the hope of attracting Liberals who, for some reason or other, do not care to return to their former party affiliations. Warning has been given

by the principal journalistic supporters of high protection that there can be no material change in the fiscal policy of Conservation even though it should adopt a new name, and that adequate protection must be accepted as the one indispensable plank of the party platform. It may not greatly strain the economic beliefs of Mr. Ballantyne and Mr. Guthrie—perhaps even Mr. Rowell—to remain in an avowedly high protectionist Ministry, but Western tariff reformers will be greatly surprised if Mr. Calder decides to take an oar in that boat.

Mr. King's amendment will help to clarify the situation. The Government has adopted the policy of hanging on to office in default of anything better. It can do so only with the aid of Liberal-Unionist supporters who now know how unpopular the policy of drift already is and how increasingly unpopular it is certain to become. The country will not emerge from the condition of "uncertainty and instability," of which Mr. King speaks, until a General Election places a Government in power than can speak with confidence, and act with authority, as the interpreter of the will of the electorate.

BOYS GROW AND DEVELOP WITH LETTERS

Schoolmaster Finds Boys Have
a Wide Range of Thoughts
from Debates to Im-
pecuniosity.

London, March 6.—It has remained for a schoolmaster of Yorkshire in the north of England to write to parents of schoolboys asking them for details as to what subjects their sons chose when they wrote home. He has classified the results of the investigation and embodied them in the school's annual report. Arthur Rowntree, headmaster of Bootham School, York, is the pedagogue to whom this idea occurred.

Referring in general to the boys' letters the following phrases, occurring in parents' letters:

GUARD AGAINST THE 'FLU

Serious Outbreaks of Influenza
all over Canada

GOOD HEALTH IS THE SUREST SAFEGUARD

"FRUIT-A-TIVES" Brings Vigor and
Vitality and Thus Protects
Against Disease

There can be no doubt that the situation regarding the spread of Influenza throughout Canada is one of grave concern. It is quite true that the number of cases does not constitute an epidemic such as caused the suffering and sorrow during the terrible days of 1918. Yet there is no disguising the fact that everyone should be on their guard against the disease.

In Montreal alone, from January 20th to February 21st, three thousand, one hundred and twenty-two cases of Influenza and 139 deaths from the disease were reported to the Health Department.

If the outbreak had come at the beginning of the winter instead of the end, we might reasonably feel that the very cold weather would check the spread of the disease. But coming as it has, at the end of the winter, there is grave fear that an epidemic may occur. For spring, with its slush and rain under foot, its dampness and chill, its constant changing from cold to warm and back again, is a prolific source of coughs and colds, pleurisy and pneumonia.

The best protection, in fact, the only safeguard against the 'Flu, is, GOOD HEALTH.

Those who are not as well and strong as they should be; those who are underweight; those who are "run-down" through overwork or sickness; should build up at once. What they need is a Blood-purifier, a body-builder, a strength-giver, like "Fruit-a-tives", the wonderful fruit medicine.

"Fruit-a-tives" regulates the kidneys and bowels, causing these organs to eliminate waste regularly and naturally as nature intended. "Fruit-a-tives" keeps the skin active, and insures an abundant supply of pure, rich blood. "Fruit-a-tives" tones up and strengthens the organs of digestion, sharpens the appetite, brings restful sleep and renews the vitality of the nervous system. "Fruit-a-tives" contains everything that an ideal tonic should have; to purify the blood, to build up strength and vigor, and to regulate the eliminating organs, so that the whole system would be in the best possible condition to resist disease.

Now is the time to build up your health and strength, not only as a precaution against the ravages of Influenza, but also to protect you against "spring fever" and the inevitable reaction which comes with the appearance of warmer weather. Get a box of "Fruit-a-tives" today and let this fruit medicine keep you well.

"Fruit-a-tives" is sold by all dealers at 50c a box, 6 boxes for \$2.50, trial size 25c, or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

"His outlook is narrow."
"He writes a good deal about his future business."

"At his previous school he wrote all about sport; now this is less prominent."

"He is alert and alive mentally, but has not a wide mental outlook."

"He has acquired a much broader view of life in the last year."

"Thirty-nine per cent of what he writes is school news and about books."

"He has a wider outlook, growing interest in social questions, but lack of earnestness and enthusiasm in school work."

"Has a broad outlook, good observation; debates and essay meetings are laying the foundations for a public career."

One parent confessed that "chronic impecuniosity" was the principal characteristic of his boy, to judge from his letters home. Another boy was found to devote one-fourth of his letters to stories about the boys and teachers, "told with much humor."

One father wrote that his investigations would not be complete until he had addressed a similar set of questions to the boys concerning the letters received by them from their parents.

"I hasten to add," remarks the headmaster "that I sorrowfully and resolutely decline to accept this brilliant suggestion."

The first harbinger of spring is the crop of jokes about spring.

No man, not excepting a scientist, seems more pathetically helpless than when he is trying to give a description of heaven.

"A Texas dairyman voluntarily reduced the price of milk to 12 cents." Sounds like the aftermath of a religious revival.

When her father says "has went" she is overcome with embarrassment; but when a sweetheart spells it "luv" she doesn't notice the mistake.

Everybody knows where it is fine weather all the time. But tens of millions continue to live contentedly where it isn't.

WE BELIEVE THAT IT PAYS TO GIVE OUR CUSTOMERS
SERVICE AND SATISFACTION; THAT IS WHY
WE WANT TO SELL YOU A

DE LAVAL CREAM SEPARATOR

Here's why the DeLaval is the cheapest machine to buy: It will pay you in cream saved from \$3.00 to \$5.00 a cow every year over an inferior or half-worn-out cream separator. It will pay you in cream saved from \$10.00 to \$15.00 a cow every year over gravity skimming.

It will give you a heavier and better cream, the kind the creamery man wants.

It will last two to ten times as long as other cream separators. Figure it out for yourself and you will see why the DeLaval is the most economical.

We know that when we sell you a DeLaval we sell you a machine you'll be proud to own. We sell them on liberal terms. Come in and talk it over.
