

AFTER EVERY MEAL WRIGLEY'S

Sealed for You

Wrigley's is made of pure chicle and other ingredients of highest quality obtainable.

But it is no use to make WRIGLEY'S 100% in quality and then reach you in poor condition.

So we put it in the wax-wrapped package and SEALED IT TIGHT to keep it good—for you.

Aids digestion—keeps teeth white—helps appetite.

Wrigley's Doublemint is peppermint flavor in double strength.

OF INTEREST TO THE WOMEN

PARIS FASHIONS.

(New York Sun.)

The conspicuous position accorded the princess silhouette in the collections of the most important couturieres of both France and America indicates quite clearly that this new development is not merely a momentary whim. It is apparently the result of much serious thought on the part of designers and a concerted effort to introduce into the new modes an element of novelty and individuality.

In practically every instance models which exploit this new line are remarkably successful from a fashion point of view, a fact which in a great measure is due to the beauty of texture and color of the materials used for their fashioning.

Soft finished velours, rich heavy satins, gleaming metal brocades and velvets in glowing shades of multicolored designs are extremely employed for the most attractive models, with a greater emphasis laid upon velvets both for day and evening costumes.

Bernard, who this season shows a group of models notable for their distinction is one of the foremost advocates of the princess silhouette and interprets it in various ways, none more successful than in the coats, which for informal wear are of velvet, while the more pretentious models are fashioned of velvet of the most supple texture. Fur is used in collars, cuffs and occasionally wide revers. One of the smartest coats created by Bernard has a full skirt of fur attached to a rather tight bodice of velvet. In another instance the order is reversed and a bodice of sable tops a skirt of brown chiffon velvet.

Short Jackets Add to the Interest Of New Ensembles.

An interesting innovation of the new season is the introduction of ensembles which feature coats either very short or of three-quarter length. The effect is that of a tailored suit, but in reality the costume consists of a frock with its matching short coat.

Frequently both jacket and frock harmonize in material as well as color, but quite as often dissimilar materials are used with prominence given to velvets, both plain and printed.

Jane Blanchot Introduces Original Treatment in Velvet Hats.

There is much significance in the return of the large hat, which according to individual preference may be of heavy satin, felt or velvet, that gains in interest this season by the clever manipulation of the material in shirrings and smock effects.

The use of metal kid with velvet is important and is exceptionally attractive when it takes the form of appliques or tiny butterfly motifs or in bindings that accentuate the piquancy of brims turned back off the face.

A noticeable feature in the new millinery fashions is the dominance of color. Black is seen but is in the minority with such shades as brown, beige, green and blues conspicuously exploited.

GREEN PEA TIMBALES.

Press one pint of cooked peas through a sieve, add four tablespoons of cream, a few drops of onion juice, a dash of cayenne, the stiffly beaten whites of three eggs and pepper and salt to taste. Turn into buttered timbale molds, stand them in a pan of hot water, cover with buttered paper and bake until firm. Unmold, garnish with sprigs of parsley and serve with white sauce.

PLUM CATSUP.

Plum catsup is a condiment suited to highly seasoned palates.

Three pounds of stoned plums, one and a half pounds of sugar, one quart and a pint of cider vinegar and one half tablespoon each of cinnamon allspice and cloves are required. After boiling the mixture for two hours strain through a colander.

Here and There

All previous records set by the Manitoba Telephone System, a provincial all-government owned and operated utility, were surpassed in July, when net earnings for the month were \$15,754. A surplus of \$100,000 was predicted for the present fiscal year.

According to an estimate made by Quebec Automobile Club officials from data supplied by transportation companies and garages, 200,000 tourists have already passed through Quebec this year. This, it is explained, is an increase of twenty per cent. over the total for the whole of last year.

Building permits issued in Winnipeg since the beginning of the current year to date have topped the three million dollar mark, being \$3,034,840 for 1,704 structures. For the corresponding period of last year the total was \$2,289,450 for 1,733 buildings, an increase in value for this year of \$745,390.

Heavy shipments of this season's crop of potatoes in Fredericton, N.B., are now being made to the Cuban market from the potato belt on the Upper St. John River, according to the provincial superintendent of the crops and soil division of the Department of Agriculture. There have been large consignments from Carleton and Victoria counties.

Greater Montreal's population is now estimated at 1,028,000, according to the 1925 issue of Lovell's Montreal Directory just published. Population of the city proper is estimated at 907,500. Population in the suburbs and surrounding country is given as 120,500. The last estimate of Greater Montreal's population, by the same authority, gave the population as 979,027.

A party consisting of twelve Chinese students from Hong Kong and Peking arrived in Montreal recently to take up temporary positions in departments and shops of the Canadian Pacific Railway, in order to familiarize themselves with the railway situation in Canada. They will remain a few months and then return to China to make practical use of the information they acquire.

Among the notable personages who arrived in Canada during the first week in September from Europe were Princess Patricia, Sir Thomas and Lady Grattan, and the Earl and Countess of Mar and Kellie, all of whom were on the Canadian Pacific steamship Mountroyal; James Oliver Curwood on the Empress of Scotland and Baroness Orczy on the Montclair, of the same line.

Calgary, Alberta. — The No. 4 Royalite well (Imperial), continues to amaze geologists. Its naptha production increased July to 546,135 gallons, 73 degrees Beaume, an increase of 25 barrels daily over the June production. The production continues to increase and the flow of gas at 20,000,000 cubic feet a day is being maintained. This flow will shortly be harnessed to supply Calgary.

Preparations are under way for the holding in Montreal in June next year of the annual convention of the American Association of Railroad Superintendents. J. K. Savage, General Superintendent, Canadian Pacific, was elected chairman of the arrangements committee, and plans were made for the organization of a complete committee to go ahead with the business of making the convention a success.

A despatch from London states that in the past three weeks more than 20,000 boxes of Quebec-made cheese have arrived and been sold in London at good prices, the quality, it is said, being of the best. It is pointed out that if Quebec products are to obtain the position they deserve here it is necessary to keep continuous supplies coming, in order to make them known to the general public, rather than to make either isolated or occasional speculative shipments. Along this line, some 7,000 boxes of Quebec-made cheese went forward from here to the London market during the past week.

Listless, Tired Women Quickly Restored

Headaches and Depression Pass Away When System is Regulated.

MUST OVERCOME CONSTIPATION

No other remedy acts so quickly on tired women as Dr. Hamilton's Pills. They cleanse, regulate and tone the system, appetite sharpens up, headaches disappear, strength and buoyant spirits return. To feel good, to be your own self again, use Dr. Hamilton's Pills frequently. 25c. at all dealers.

WHY

Why have we been emphasizing That First Taste

so many times in this paper? Because we know that once you take it you will thank us for introducing you to the most luscious and satisfying Milk Chocolate Bar you ever tasted.
