MAN IS BUT A HARMLESS BUTTERFLY

In Comparison With the Modern Woman, Says Authoress.

HAS PROBED THE DIVORCE EVIL
Female Ruthlessness the Cause of Marital Breaks.(Special cable to the Daily Mail by the British United Press)
Berlin, June 8—Modern woman is a brute and much maligned man is by comparison but a harmless butterfly according to a Swedish female who has just published anonymous report of her investigation into the divorce question.

"The driving factor in 90 per cent of all divorces is the wife, even if she understands it cleverly enough to play the passive role and create the impression that she is the suffering one, is the unnamed woman's conclusion after a survey of the whole field.

Female ruthlessness is responsible for breaks in marital relations, the authoress contends. Husbands, she states, do their experimenting before marriage and, after assuming the obligations of matrimony are content with peaceful and quiet comfort.

N.S. PREMIER
IN A SERIOUS
CONDITION

Halifax, July 7—The condition of Premier E. H. Armstrong was tonight reported serious.

The Premier entered hospital a week today for surgical treatment necessitated by an infected upper lip. He was operated upon the following day and later in the week permitted to go to his home. This morning Dr. J. G. McDougall and Dr. E. V. Hogan held a consultation and ordered the patient back to hospital. The infection was diagnosed as a spreading carbuncle and the Premier's condition developed so rapidly today that an operation was necessary tonight. Dr. McDougall gave out a bulletin after the operation in which he said the patient was "doing nicely but the danger is by means past."

TO OBSERVE
SOLAR ECLIPSE
IN SUMATRA

Washington, July 7—The Navy Department is making elaborate preparations for the observance of the solar eclipse of Jan. 14 next, which will be visible in Sumatra. It will send an expedition from the United States Naval Observatory at Washington, headed by Captain R. B. Little. The scientific party will include George H. Peters and George M. Raynsford, astronomers from the Naval Observatory and Prof. J. A. Anderson of the Mount Wilson Observatory. In addition there will be a corps of enlisted men, including medical attendants and seamen.

The expedition will sail from San Francisco on Sept. 1 on the naval transport Chaumont to make preparations for the observations and tests. Motion pictures made of the eclipse, pictures of the activities of the party, and a vessel will be sent to Sumatra to conduct radio experiments during the period of eclipse.

M. S. Stone of Moncton spent yesterday in the city visiting friends.

TO DEVELOP
TRADE WITH
WEST INDIES

Details of Treaty to be Given Out Tomorrow.

WILL MEAN A
BOOST IN TRADELumber and Footwear
to Have Two Thirds
Preference.

Ottawa, July 7—The Canada-West Indies trade agreement, details of which will be made public Thursday prepares the way for greatly extended trade between the islands and the Dominion. Trade will be extended by mutual preferential tariffs and by steamship subsidies to which both parties will contribute.

Canada will benefit by increased market facilities in receiving tariff preferences on flour, lumber, boots, butter, cheese, meats apples and cement. It is understood that lumber and boots will have a two thirds preference; butter \$1.50 a hundred; meats, \$1.50 a barrel; apples, 50 cents a barrel, and fish, 50 cents per hundred.

West Indian products entering Canada will receive approximately a 25 per cent preference and in the case of bananas already admitted free the tariff against other countries will be increased. It is also notable that sugar will be under this general preference. Grapefruit, spices, coffee, raw cocoa and limes are on the free list. Rum has a two thirds preference.

Subsidy Speculated On.
Speculations as to the amount of the steamship subsidy and the nature of the service vary. Some estimates of the amount to be contributed by the islands for the improved steamship service are as high as \$200,000, others \$125,000. In any event, it is understood that ships of a 5,000 or 6,000 ton capacity, with passenger and cold storage accommodation, will provide a fortnightly service all the year round. The agreement which was signed last night is subject to the ratification of parliament and will come into effect upon a date to be mutually agreed upon by the contracting parties. As signed, it provides for a ten year contract which can be terminated on a year's notice.PASSENGERS
CAUSE MANY
ACCIDENTS

Washington, July 7—Education of the automobile passenger as well as the driver is held by the American Automobile Association to be a necessary step toward reduction of motor vehicle accidents.

The inexperience and thoughtlessness of some passengers who detract the driver's attention by singing, talking and by requesting him to look at scenery along the road are said to be responsible for many accidents.

A taxi driver the association said, if told by a nervous passenger to be doubly careful will drive in his usual way, but the same request of a passenger car driver probably will cause him to drive like a "dub."

Arrested for Fighting
Two were arrested last night charged with fighting and were let go on bail. The fight is the same one which resulted in two arrests Saturday. The real combatants got away at the time, however, a would-be peace-maker and a bystander who aided one of the fighters to escape, being arrested.Winning Ticket

Terrified Inhabitants Fled From Their Homes—Spent Night in the Open—All of Western Japan Came in for a Shaking.

(Special to the Daily Mail by the British United Press)

LONDON, JULY 8—All of western Japan was shaken by an earthquake which rumbled through Nagoya and centred in the Hida mountains, according to a Times Tokio dispatch received today.

The dispatch said that the terrified inhabitants rushed from their houses and were compelled to spend the night in the open air.

Many fissures in the earth were noted, but thus far no casualties have been reported.

Nagoya is a city lying between Tokio and Osaka.

Vol. 2, No. 79 FREDERICTON, JULY 8, 1925 Warm

A Globe Trotter's
Opinion

"A cousin of mine, who is head of Limited of Liverpool, England, passed through here recently on a pleasure trip around the world. He said he had been in chocolate plants in New York, Chicago,

go, Toronto and Winnipeg and told me that of all the chocolates he had sampled, Moirs were the best. I agree with him."

H. E. JAMES, Vancouver, B. C. June 15, 1925.

And that seems fairly conclusive!

THREE YOUTHS
DROWNED IN THE
HARLEM RIVER

One Accident was Quickly Followed by Two Others.

BOY SEIZED
WITH CRAMPSNew York Prisoners to
Get an Increase
of Wage.

(Special to the DAILY MAIL by the British United Press)

New York, N. Y., July 8—While swimming in the Harlem river, fourteen-year-old George Harris was seized with cramps. He shouted for help and Daniel Jones sixteen years, swam to his aid, both were drowned.

Two hours later while diving for the bodies, Patrick Kilgannon, nineteen, became exhausted and lost his life.

Get Wage Increase.
Prisoners in New York State have been granted a 350 per cent. wage increase.

Heretofore the prisoners have received a cent and a half for a ten hour day or nine cents per week. In the future they will be paid a nickel a day so that a two year sentence will net them \$50.

BRITAIN DOUBTS
THAT JAZZ WILL
OUST CLASSIC

London, July 8—That suggestion by Otto Kahn, New York banker, that jazz will eventually replace the classic operas is derided by critics in London and the English provinces.

They are interested in knowing that Mr. Kahn's son, leader of one of the great jazz orchestras in America, is to come to Europe to study classical music, but they fail to see how he will be able to combine the work of the old masters with modern syncopation to produce a new and virile art.

The Manchester Guardian declares editorially that "to invite composers to express our modern atmosphere in music by matching jazz with the classics is like asking poets to do the same thing by a happy blending of iambics, free verse, George Robey's "gags" and Milton.

Fine Minstrel Show.

Van Arnum's minstrels gave a fine performance at the Capitol theatre last night before a large and representative audience. This is undoubtedly the finest minstrel troupe that this city has seen since the good old days, when such performances were more common than is the case at the present time. The performance was clean and crisp and was greatly enjoyed by all present. At noon today the excellent band of the troupe gave an open air concert in front of the city hall. There will be another performance this evening which will undoubtedly have a bumper house.

POLICE AND
PEASANTS IN
BAD CLASH

Several Were Killed and a Score Were Injured.

SOME ARRESTS
WERE MADEA Franciscan Monastery
Was Scene of the
Clash.BY ROBERT BEST.
(United Press Staff Correspondent.)

Vienna, July 8—Several were killed, a score injured and twenty arrested as the result of a clash between peasants and police around the Franciscan Monastery at Kaschau, Czechoslovakia which had been guarded for three days by determined peasants.

Armed with stone and pitch forks, the peasants had prevented gendarmes entering the monastery to investigate charges that a priest had denounced President Masaryk of Czechoslovakia as a heretic.

Police reinforcements arriving yesterday fired into the air, but as this did not disperse the monastery defenders they then charged.

JOHN QUIGG,
AN OTIS MAN
SHOT HIMSELF

Woodstock, July 7—John Quigg, 69 years of age, widower, resident of Otis opposite Hawkshaw, York county committed suicide this afternoon at the home of his daughter, Mrs. Edgar Cronkite, Otis.

Startled by a shot in an upstairs room, the family, in rushing to the room, was shocked to find the old man dead upon the floor, a bullet wound through his head. To the poor health that the deceased had suffered for the past few months, is attributed his deed.

Four daughters, Mrs. Edgar Cronkite and Mrs. Clarence Cronkite, Otis. Mrs. Gideon Stairs, the Barony, and Mrs. Annie Ash, Forest City, and four sons, Harold and William, Hawkshaw, Robert, Detroit, and Rev. P. J. Quigg Jacksonville, survive.

BOAT RAMS
A BIG FISH
WORTH \$218

New York, July 8—It was an accident but it netted Capt. Frank Stapleton and Robert Schmeisser, boathouse proprietor \$218.

The two were in a motorboat in New York Bay when they unwittingly rammed into a fish, 6 feet 3 inches long, without the tail—which evidently had been clipped recently by contact with a steamer's propeller. It weighed 400 pounds.

The catch was towed to the Ocean Yacht Club at Stapleton, where it became the center of interest. Oldtime fishermen declared it to be a sturgeon, a fish which were not uncommon in the Hudson 25 years ago, but unheard of in the last 10 years.

A Fulton Market concessionaire bought it. Sturgeon roe is an expensive delicacy.

Chautauqua Opened Today.
The Swarthmore Chautauqua tent was pitched this morning on the park square and the first performance was given this afternoon, maintain and

L. R. Smith of Montpelier as the city today.
