(Special to The Daily Mail by the British United Press.)

The Prince passing through Los Andes enroute back to Vina del Mar when the snows made passage to Buenos Aires impossible saw two men stagger out of a saloon. Both had been drinking and were quarrelling. The Prince and his detective noted that one had attacked the other with a stone, whereupon second flashed a knife and stabbed the first in the stomach. As the man fell the Prince and the detective rushed to help him. The Prince, deeply impressed by the incident, inquired as to the extent of the man's injuries and asked that he be taken to a hospital.

WAS KILLED WHILE PUTTING UP RADIO SET

Worcester, Sept. 16—Arthur Brusco, 39, of 49 Tampa st., was instantly killed by electricity tonight while installing a radio set at his home.

Brusco, according to his wife, Pauline, promised his children he would instal a radio set for them. He had strung his aerial and ground wires, and was bringing his lead in through the parlor window preparatory to connecting the set.

His four small children were standing about him asking whether he would have the set connected in time for them to get the "bed-time story." He turned to his small son Arthur Jr. and said "It's pretty nearly finished, Artie. We'll just connect the two wires and then we will get the music."

He was holding the ground wire and turned to pick up the lead-in wire. There was a flash. Brusco screamed and dropped to the floor as the wire touched a heavily charged wire in the yard. Neighbors hearing the scream, ran to the Brusco apartment and pulled him off the wire.

The police ambulance was called but Dr. Arthur J. Nugent found the man beyond assistance when he arrived.

SAYS IT IS AN ASTUTE MOVE BY THE PREMIER

Massey Appointment Discussed by Toronto Tories.

TOMMY CHURCH GIVES HIS VIEWS

Says Agriculture is Lined Up With King.

Toronto, Sept. 16—"An astute political move", and one that would have its effect in the West, was the observation of several speakers on the appointment by Premier King of Vincent Massey as Minister without portfolio in the Federal Cabinet when Ward Four Conservative Association met last night at the I. O. O. F. Hall, College Street, to appoint delegates to conventions in the various ridings of which Ward Four is now a constituent part. Choice of the delegates passed tediously, but without incident following which about a dozen speakers were allotted five minutes each in which to address the gathering.

It was left to J. A. McCausland, M. P. P., who is not a candidate for Federal honors, to sound a note of caution. After declaring that the appointment of Mr. Massey was an astute political move, Mr. McCausland went on to say that "King is no fool; he is a fairly good politician, and we must realize that fact, and not underestimate him."

The matter of Mr. Massey's appointment to the Cabinet was also attacked by T. L. Church, candidate for honors in the Northwest riding, who charged that "the agricultural industry lined up against Hearst, lined up with Drury against Ferguson, and is now lined up with King." He voiced the hope that there would be complete unity in the Conservative party. Fred G. McBrien, M.P.P., an aspirant to Federal honors, observed that "Massey is going to have the proud distinction, if he runs in Toronto, of being a Cabinet Minister who will never get inside the Parliament Buildings."

LARGER SUM THIS SEASON

Louvre Proved to be the Most Popular of Nation's Shrines.

Paris, Sept. 17—The receipts of the French government from the many museums, palaces and historical monuments of the country form a not entirely negligible item. Last year more than 3,000,000 francs were paid by sightseers, of whom a great number were Americans, viewing the art treasures of France. This year, with the entrance fees to museums augmented, the total is certain to run much higher.

In 1924 the Louvre proved to be the most popular museum, collecting 442,528 francs, with Versailles second with 238,959. Next in order came the Pantheon, 200,192; Sainte-Chapelle, 120,366; Mont Saint-Michel, 102,335; the Luxembourg, 87,056; Fontainebleau, 86,956; the Grand-Trianon, 82,377; the Arc de Triomphe, 74,983, and the Cluny Museum, 64,979.

These figures include the fees of painters, photographers and motion camera men.

CAPT. SMITH SUCCUMBED TO PARALYSIS

Commanded Clipper Ships in the Good Old Days.

SAILED OUT OF PORT OF ST. JOHN

Had Thrilling Experience During a Tidal Wave in Peru.

The death occurred at the home of Mr. A. E. Eardley, St. John Street, this morning of Capt. David Smith, late of St. Martins, N. B. He had been residing here about a month, and on Saturday last returned from a brief visit to his former home. Soon afterwards he suffered a stroke of paralysis from which he never rallied. The deceased was a native of St. Martins and was seventy-six years of age. He is survived by a family of one son, David R. Smith of St. John and three daughters, Mrs. A. E. Eardley of this city, Mrs. George White and Mrs. H. C. Davis of Concrete, Washington.

The body will be taken to St. Martins for burial by the C. P. R. train tomorrow morning. There will be service at the home of Mr. Eardley at eight o'clock.

Well Known Mariner.

The late Capt. Smith had followed the sea for forty-four years and was one of the best known master mariners in Eastern Canada. He started going to sea in the days of the old clipper ships, and had a remarkably successful career. He visited many foreign countries and had encircled the globe a number of times. Naturally during his long career on the sea he had many thrilling experiences. On one occasion he rescued the crew of an Italian bark in mid-ocean and was presented with a medal by the Italian government in recognition of his services. On another occasion while his ship, the Prince Eugenie, was lying at anchor in the port of Callao, Peru, that city was visited by a terrible earthquake and it was only by superior seamanship that he was able to save his ship from being destroyed by a tidal wave which accompanied the earthquake. For many years Capt. Smith was in the employ of Mr. Howard D. Troup of St. John and his last command was the bark Highland. Capt. Smith was widely known in shipping circles and news of his death will be received by his many friends with great regret.

AGNES REGRETS CUTTING DOWN INDEMNITY

Durham, Sept. 14—Miss Agnes Macphail, Canada's first woman member of Parliament, was this afternoon unanimously nominated by United Farmers of Southeast Grey. No other name was mentioned, and Miss Macphail was greeted with prolonged applause from a hall crowded to the doors as she accepted.

Costs of living at Ottawa are high. Miss Macphail intimated in explaining her position on the indemnity question. Four years ago she announced that if elected she would accept only \$2,500 of the \$4,000 paid to members; today she frankly stated that she had "been a complete fool" to make that promise. "I could have used it for many useful purposes."

If she goes back to Ottawa she will accept the full indemnity; but at the same time she pledged herself to work for a reduction in the amount paid to all members. The difference between what she was paid and what she accepted—\$6,000—Miss Macphail contributed to the Dominion Treasury.
