

**AFTER EVERY MEAL**  
**WRIGLEY'S**

**Sealed for You**  
Wrigley's is made of pure chiclé and other ingredients of highest quality obtainable.

But it is no use to make WRIGLEY'S 100% in quality and then reach you in poor condition.

So we put it in the wax-wrapped package and SEALED IT TIGHT to keep it good—for you.

Aids digestion—keeps teeth white—helps appetite.

Wrigley's Doublemint is peppermint flavor in double strength.

**OF INTEREST TO THE WOMEN**

WHAT SHE WEARS.

Gloves of fawn color, very soft and pliable—are carried with light summer clothes.

The hat and gown that exactly match in color form a much smarter ensemble than contrasting colors.

Buckskin oxfords in the new pastel shades are very attractive with silk or flannel frocks that exactly match.

Chinese silk damask in all the vivid and pastel shades is used for tailored frocks that are worn under velvet wraps.

Very useful in warding off sunburn upon the neck is a scarf made of a triangular piece of flowered silk that is rubberized.

A charming little perpetual calendar for the writing desk is made of green leather tooled in gold. A small thermometer is set in one side.

The modernistic tendency is well exemplified in the new felt hats of fawn that have angular designs in light brown stamped upon the crowns.

Attractive new lingerie consists of step-ins and chemises of white crepe de chine with large hand-painted roses sprinkled upon the surface.

**QUILTED COAT QUITE THE LATEST FAD.**

Leading designers now resort to quilting and patchwork in effects which would doubtless startle grand mother should she encounter them—not in the boudoir but in the Bois. The quilted sports coat is the mode, and patchwork and applique the fad on all things from millinery to manteaux. Stitching with metal threads appliques of metal with vivid patches of satin or taffeta—these are some of the embellishments of a season consecrated to eccentricity of decoration.

Coats flare from the shoulder and coats pour le sport are original and most necessary. Some are fur lined, reversible, even tipped with metal.

**COLD WATER DILLS.**

Use either two quart cans or jars, or one quart cans. For each two quarts of packed cucumbers which have been soaked over night in cold water, add three tablespoonfuls of salt, one half cup of vinegar and four stalks of dill cut into short lengths. Add to the pickles, fill with cold water, seal and set away six weeks or more before using.

**STRING BEAN SALAD.**

Take four quarts of crisp, tender butter beans. String and cut as though they were to be used for the table. Cook in boiling salted water, using a little more salt than for table use. As soon as tender drain. Do not allow to cook until the beans will break or are mushy.

To the above amount of string beans take the following:

- 3 pints of cider vinegar
- 3 cups of sugar
- 1 cup of flour
- 1 ounce of mustard
- 1 tablespoon of tumeric.

Mix the dry ingredients together thoroughly and make a paste of these with cold water. Add the boiling vinegar, slowly, blend and return to the fire. Cook fifteen minutes, stirring so the dressing will not scorch. Mix with string beans, heat hot, and can at once.

**SWEET PICKLED CARROTS.**

Wash and scrape a dozen medium sized carrots and slice lengthwise. Boil in water, to which a little salt has been added, until you pierce with a fork—do not over-boil. To one pint of vinegar add three cupfuls brown sugar, one tea spoonful each of cloves and cinnamon and half as much of cassia buds. Bring to boiling point, drop in the carrots and cook five minutes. Pack in jar and seal.

A lot of drivers seem to proceed on the principal that the brakes on the car can be looked after while the driver is in the hospital.

**The Doctor Knows**

Doctors who know Minard's by the work it does are unhesitating in their praise of its healing and soothing qualities.

Dr. Jos. Aug. Sirois, of St. Isidore, Que., writes:—  
"I have frequently used Minard's Liniment and also prescribe it for my patients always with the most gratifying results, and I consider it the best all-round Liniment."  
C. A. King, M.D. also recommends Minard's in the following words:—  
"I have used Minard's Liniment myself as well as prescribed it in my practice when a liniment was required, and have never failed to get the desired effect".

**Here and There**

According to the Alberta Provincial Department of Agriculture nearly a quarter of a million bushels of oats were shipped from that province to New Zealand for seed purposes last winter.

The Quebec Provincial Automobile Bureau estimates that well over 100,000 automobiles will be registered in that Province during the year. This will mean an increase over the 1924 registration of about 15,000 cars.

The 1924 exports of live cattle to Great Britain exceed the 1923 figures by over twenty-two thousand heads, according to the official Canadian returns. Exports to the United States also showed a slight increase.

Four small wooden vessels to act as tugs and feeders from Coronation Gulf to Herschel Islands, in the Arctic, are being built at Vancouver, B.C., to the order of the Hudsons Bay Company. They will be well powered and sheathed in iron bark.

There is now only one mine in the Crow's Nest Pass district idle. Between eight and nine thousand tons of coal are being mined there daily and the mines at Coleman, Blairmore and Bellevue are rapidly striking their stride, their output being about six thousand tons.

Although the chief beneficiaries under the new British preference proposals will be Canadian sugar, tobacco and automobiles, it is stated that Canadian wines and silk goods will also benefit to a certain extent. In the sugar preference an increase of about 25%, and in tobacco of from a fourth to sixth has been made.

By a recent Order-in-Council of the Lieutenant-Governor, premiums for clearing land, which had previously been set at \$6 an acre, were increased to \$8. The Order also provides that the premium will be paid for a maximum of twenty acres of land and, as a result of it, a settler may obtain a grant of \$160 from the Government as a reward for his work.

The annual invasion of Canada by anglers from the United States has commenced. F. N. Peet, secretary of the Izaak Walton League of Chicago, with other members of the League is catching salmon at Cains River, N.B., while a party of prominent newspapermen from New York is at Lake Archambault, in the Laurentians, in quest of the elusive trout. Mr. Peet holds the world championship for casting a fly.

Walter Lindley-Jones, editor and founder of the Mercantile Guardian, of London, Eng., and an authority upon commercial matters in general, recently passed through Canada on the last lap of a journey around the world, by Canadian Pacific steamships and trains. Mr. Lindley-Jones states that a terrific boom is due in China as soon as hostilities cease there and that Great Britain and Canada will be the chief beneficiaries.

A man reached the station platform just as the 5.15 was pulling out. A little burst of speed netted him fifty feet in overcoming the train's handicap, but the best he could do thereafter was to run a losing race. He quit at the end of the long platform and returned. "Miss your train, sir?" enquired the porter cheerfully. "No, my friend," he replied, "Oh, no! I was just chasing it out of the yard. "You oughtn't to allow it around here. Don't you see the tracks it has left?"—From "Rail Life," by Alfred Price.

Mussolini says there is no such thing as liberty. If there were he would probably see to it.

**THAT FIRST TASTE**
