OF INTEREST TO THE WOMEN

BUSTLES STAGE COME-BACK.

LONDON—Bustles are growing in favor in London—at least on the stage—and there is a tendency to fall in with the effort of Paris modistes to revive this Victorian mode. Bustles are seen in four popular plays now running in London, "Betty in Mayfair," "The Doll's House," "Lullaby" and "Tess of the D'Urbervilles," indicating an unconscious move in theatrical circles to support the Paris fashion makers.

The 1925 bustle is not nearly so large as its Victorian forerunner but a bustle it is, nevertheless, the effect being given by means of draped sashes worn a great deal on evening gowns and costumes for indoor wear. Brocades and taffetes are used chiefly for these models. The puzzle confronting the dress-makers at present, however, is whether the skirt is to be shortened still more, because if it is the bustle could not come in, as there would be no room for it.

COLORS PLAY BIG PART IN WINTER FASHIONS.

Colors play an important part in the winter mode, and are here to stay. To the ever-popular browns and greens are added the Italian blues and reds, warm cocoa and rust tint, soft bois-de-rose and demure grays and taupes. Black is always smart, and will be much worn by women of conservative taste who wish to set themselves apart in the midst of a whirl of color.

CHEESE STRAWS.

1-2 lb. grated yellow cheese
1-2 lb. butter.
2 cups flour.
1 tsp. baking powder.
Cut butter into dry ingredients. Add cheese. Work in with hands. Knead; cool on ice. Roll thin like pastry, cut into even strips and bake in hot oven.

ROLLED SANDWICH.

Cut thin slices from a fresh loaf of bread. Trim the crusts and spread with butter, or a well seasoned cheese. Roll the slice of bread and tie with baby ribbon according to color scheme of decorations used for the party.

PULLED BREAD.

Remove crust from a fresh loaf of bread, with two forks, divide the entire loaf in half, lengthwise. Then subdivide into quarters, continuing this division until each part is very thin. Place in pan and put in oven to dry out and then brown.

PARKER HOUSE ROLLS.

Form dough into long roll; cut as you would a jelly roll, making each piece about one half inch thick. Form each piece into ball and butter the top of each generously. Allow to stand 10 minutes. Roll out or flatten out with hand. With round handle of a wooden spoon make a deep crease in centre of the dough and fold over. Place in greased pan and allow to rise until light, or about 25 minutes. Bake 25 minutes in moderately hot oven (400 degrees F.)

CLOVER LEAF BISCUITS.

Form the dough into small balls. Grease muffin tins. Place three balls of the dough in each muffin tin. Lightly grease tops of rolls and allow to rise until light. Bake for 25 minutes in moderately hot oven (400 degrees F.)

WINTER TREES.

The trees have spread their misty lace,
A veil before a stars white face;
The sky is gold that pales to gray
I walk a snowy, drifted way
Nor know that it is long and far
For I am looking at a star.

The patterned cobweb, frail and fine
Pricked through with slender points
of pine,
And caught with stars that glance
and gleam
Turns sober thought into a dream
I wander on and do not know
How dreary is the way I go.

ABIGAIL CRESSON.

Here and There

Wishing farewell and bon voyage to the celebrated writer of the Scarlet Pimpernel, a bouquet of scarlet pimpernels was presented to Baroness Orczy, when she embarked with her husband, Mr. Montagu Barstow, on the S.S. Montclare of the Canadian Pacific line, for England. The presentation was made on behalf of the company by Capt. Geo. Webster and President E. W. Beatty's card was attached. Baroness Orczy came out to Canada to assimilate local colour for a new book, which will be eagerly awaited here.

Motor tourists from the United States brought \$150,000,000 in revenue to Canada in 1925, according to estimates of government officials. This sum is equal to a quarter of the value of the Dominion's wheat crop and approximates the value of the annual mining output of Ontario, Quebec and British Columbia combined. More than 2,000,000 American automobiles, it is estimated, have crossed into Canada this fall. They carried in the neighbourhood of 9,000,000 persons, or a number equal to the total population of Canada.

C. B. Foster, passenger traffic manager of the Canadian Pacific, states that the success of the crop in the West this year will make money more free and is bound to stimulate travel between Canada and the Old Country. To handle the expected increased volume of traffic, his company, he states, will run special trains early in December connecting directly with the company's Atlantic liners, sailing from the winter port of Saint John, N.B. These liners sail on dates that are calculated to get passengers home to any point in the British Isles or the near continent in plenty of time for Christmas.

Taking the North American moose over to Europe with a view to acclimating it in Northern Europe is in part the aim of Heinrich Carl, Count Schimmelfennig, one of the largest land owners in Denmark. The Count and Countess were taken to the Cains river district, where they spent three weeks. During this time they walked an average of fifteen miles a day for twenty days, covering three hundred miles on foot, not reckoning the distances they traversed in canoe. They went to the woods of Northern Quebec for another shot at the elusive moose before sailing for home on the Canadian Pacific liner Montclair.

A recent epidemic of motor accidents, five of which occurred in one night, though luckily none of them proved to be fatal, elicited the following editorial comment from the Montreal Star. "That five drivers of automobiles should drive their cars into moving trains within a period of twenty-four hours in Canada would seem to indicate that carelessness is the main cause of accidents. The location of level crossings is either well-known or clearly indicated at a distance that gives even a fast driver ample time to stop. At many such crossings bells automatically ring as trains are approaching. At others, bar gates are let down. Some are open—these almost entirely in the country districts. But despite all safeguards, warnings, signals, and precautions, accidents continue to happen at level crossings with an alarming consistency. In some incidents, indeed, it almost looks as though the drivers were determined to defy all attempts to ensure caution." The paper calls for cancellation of driving license in cases like the above.

BLUNDERS

WHY IS THIS WRONG?

It is unwise to guess the weight of a letter to determine the amount of postage required. Such guessing often results in "Postage Due," which may cause delay in delivery, and, in the case of business letters often results in a dissatisfaction as to meter.

Regular sailings of the famous "O" steamers FROM HALIFAX, N.S. TO: CHERBOURG AND SOUTHAMPTON S. S. "ORDUNA" JANUARY 1-26. THE ROYAL MAIL STEAM PACKET COMPANY HALIFAX, N.S.
