"Fraser"

We would like to send you a copy of a 16-page booklet, just issued, on the lumber and wood pulp industries and Fraser Companies. The subject is one that should appeal to every person interested in the industrial development of New Brunswick.

The manufacture of lumber and pulp brings many millions of dollars annually to New Brunswick and provides employment for thousands of the population. The industry is gaining in importance on account of changing conditions elsewhere.

The booklet we are referring to has been carefully prepared; it is illustrated with many photographs taken especially for the purpose, and has been designed to furnish accurate information on one of New Brunswick's mainstay industries and one of the leading manufacturing enterprises of the Province.

OF INTEREST TO THE WOMEN

FASHION FOIBLES.

Purple will be favored color this fall.

An interesting little hat reported from Vienna is one of white Florentine straw faced with sky blue silk. Around the upturned brim are painted little flying birds in colors. With this scarf which has a medallion painted on one end that also uses the flying birds as motif.

Much importance will be given to the coat as a garment this fall for whereas during spring and summer coats have been required to fall in with the dress in color and line, fall coats will be distinctive and colorful and will themselves demand harmonizing dresses. The afternoon coat, in particular, will show great variety of material ranging from heavy lustrous silk and rayon, broadcloth, velour, ottoman, to chiffon velvet and heavy leather satin, trimmed with fur and occasionally metal.

The shawl collar will be popular, and the godet or flare line at the front or sides. The leading colors are green and rich brown, with black, embroidered or otherwise ornamented for a background.

COATS IN DEMAND.

The upholstery departments of the shops are having a run of brisk business not in the interest of house furnishing and decorating as a rule, but for materials for the lovely new coats of chintz and cretonne, which the maidens of the summer are fashioning into attractive coats. These coats are long as the short skirt and are trimmed with lines to match the predominating color in the design of the material. These are worn with plain lined, straight line frocks and hats of the linen trimmed with bands of the flowered material.

GOLDEN FIG PARFAIT.

One teaspoon orange juice one tablespoon lemon juice one fourth pound figs, one half cup boiling water four egg yolks, two cups heavy cream, one cup granulated sugar, oranges. Soak figs over night in just enough water to cover. Boil sugar and water until it threads. Beat egg yolks light and pour syrup on them. Cook in double boiler, stirring constantly until mixture coats spoon. Remove and chill. Meanwhile cook figs slowly for two hours in water in which they were soaked, remove from liquid and run through a sieve. Add fruit juices to cream, beat until half firm and whip in fig mixture. Combine custard with this and pour into a mold. Seal and pack in equal parts of ice and salt for four hours. Serve with sliced oranges or a compote of oranges.

FRENCH ICE CREAM.

1 quart milk
1 cup sugar
6 egg yolks, slightly beaten
1 pint cream
¼ teaspoon salt
Flavoring.
Scald the milk in double boiler. Add sugar to slightly beaten yolks, and pour hot milk into eggs gradually stirring constantly. Return to double boiler and cook until it coats a metal spoon (about eight minutes). Strain, cool, add flavoring and cream. Freeze with stirring. Makes about two quarts.

One and one half cups orange juice, 1½ cups sugar, 3 cups milk. Add strained orange juice to sugar. Add milk and freeze.

LLOYD GEORGE VISSIONS EMPIRE OF 1000 MILLIONS

London, July 13—Right Hon. D. Lloyd George, proposing "Our guests from overseas," at the visit of South African farmers to Cold Harbor Wood said there was no man whom he had ever met in the whole of his career for whom he had a deeper respect, admiration, and reverence, than the late General Louis Botha, than whom there was no greater man at the peace conference in Paris. At that gathering there were all races and there was a great partnership, a great league of equal nations, all working together for the same common cause, and the same common civilization.

South Africa was not merely a country of vast area, but a country of infinite possibilities. They were only at the beginning of things in Africa. The same thing struck him in Canada. The day would come when this small island in the Atlantic with a great story and a great record that would never die, and a population of forty to fifty millions would be a centre, he hoped, of a great commonwealth of a thousand millions of sturdy, happy, vice the Empire rendered to civilization a few years ago, would be nothing to what that immense federation, all combining for one purpose, could do to help mankind onward and upward on its course.

BAN ON BRITISH LIVESTOCK IS TO REMAIN IN FORCE

Ottawa, July 13—As a result of fresh outbreaks of the foot and mouth disease in the United Kingdom, the prohibitory regulations against all importation of live stock from Great Britain and Ireland into Canada are to remain in force, according to an announcement by the Department of Agriculture here today.

The new outbreak coming at a time when it was hoped that the foot and mouth disease would soon be eradicated, has been a cause of great disappointment to all importers of thoroughbred stock. It is made more intense because at the earliest it will be many months before the importation can be resumed, even if there were no further outbreaks.

The foot and mouth disease in the United States appears to have run its course. The Texas area has been completely cleared and reports from the Pacific coast provinces indicate that the authorities are successfully meeting the situation.

LEMON MINT FRAPPE.

One quart water, 2 cups sugar, ¾ cup lemon juice, 2 bunches mint, ½ tablespoon granulated gelatin. Pick mint leaves from stems, add to the water and sugar and boil ten minutes. Strain, add gelatin softened in 2 tablespoons of cold water, cool and add lemon juice. Freeze in equal parts of ice and salt.

PHILADELPHIA ICE CREAM.

3 pints thin cream
1 1-3 cups sugar
Dash of salt
Flavoring
Mix ingredients and pour into freezer. The cream may be first scalded, giving a richer mixture, or half of it may be whipped.

WATER ICE.

1 quart water
2 cups sugar
¾ to 1 cup fruit juice or fruit pulp
Boil sugar and water together for ten minutes. Add flavoring, cool and strain through fine sieve or cheesecloth. Freeze with stirring.
