GUTHRIE A SPEAKER AT SOUTH RENFREW CONVENTION; SPEAKS PLAINLY WITH CUSTOMS PROBE

Renfrew, July 14—"Knowing that he could not survive the customs scandals, Mackenzie King thought he could distract the people's attention, hence the attack on the King's representative," declared Hon. Hugh Guthrie, minister of defence, today, at a meeting of the Conservative organization of South Renfrew which nominated Dr. M. J. Maloney, member of the last parliament from the constituency.

Hon. Mr. Guthrie described the revelations of the customs inquiry as the most gigantic political scandal in the history of Canada. The King government, he said, had been condemned in parliament for mismanagement and corruption of the customs department and for the shielding and protecting of criminals, bootleggers, smugglers and thugs.

Assails Appointees.

Mackenzie King had asked parliament for \$300,000 to fight smuggling, but he appointed political heelers some of them rum runners, who had been convicted, to watch smugglers. One of his appointees was a man of 80 years. More than that, said Mr. Guthrie, he allowed Bisillon and Clerk, the "arch plotters of the smuggling gang", to remain on, although he knew that they were the ring leaders.

Mr. Guthrie said that Inspector Duncan had been sent to Montreal last December armed with full authority. "I can't describe the horrible revelations before a mixed audience," exclaimed the speaker. He pointed out that the Royal Canadian Mounted Police had been taken off border patrols in Quebec by Hon. Jacques Bureau.

King Given Protection.

"The King Government granted full protection to the whole ring," he stated. "Do you wonder why Mackenzie King wanted dissolution instead of being indicted? The criminals that have been protected and the iniquities that have been winked at are the blackest things in the history of Canada."

Mr. Guthrie said that on Tuesday while acting minister of justice he had received a petition for the release from the penitentiary of "Baldy" Robb, who had been sentenced to five years for stuffing ballot boxes in the Peace River election. He charged that the Conservative Party had been robbed of the election last fall by crooked election officials taking as his

cases Athabasca and Peace River.

Says "Dead Men" Voted.

Mackenzie King's election in Prince Albert was touched upon by the speaker who declared that the former premier had received the full voting strength of polls although in practically every one of them there were voters who had voted who were dead and away from the district.

"They won't operate this election," he exclaimed. "We will see that honest men are in charge of the election."

Mr. Guthrie declared the events in parliament leading up to Mr. King's resignation after having been refused dissolution by His Excellency the Governor-General.

"The hue and cry of the Liberal party is that His Excellency did not act in a legislative manner by refusing Mr. King dissolution," he said. What trash and nonsense! Mackenzie King wanted to dissolve parliament in the face of defeat to avoid the vote of the censure. "Well might the governor-general refuse dissolution after he had had dissolution on October 29 last and failed," said Mr. Guthrie, adding that His Excellency has acted as any legislative governor had acted in the past.

Meighen For Stability.

"Meighen stands for stability and protection, that will protect and will not injure any section of the country," said Mr. Guthrie. He declared that the farmers of the country need protection in view of the fact that \$80,000,000 of farm products had been imported into Canada from the United States each year.

The minister predicted that Premier Meighen would solve the problem of co-operative marketing, of bringing the producer and consumer together. He charged that every treaty that the King government had made cost the people of Canada millions of dollars and took for example the fact that Australian butter and eggs had been given practically free entry into the country at the cost of the farmers of Canada.

The nomination of Dr. Maloney as Conservative candidate in South Renfrew is of political interest, as he will probably have as an opponent Hon. Thomas A. Law, former minister of trade and commerce, who was defeated by 1,400 votes in the general election of 1925.

MANY WERE TREATED AT RABIES CLINIC

Montreal, July 14—One hundred and forty-seven cases have been treated in the rabies clinic at the Royal Victoria Hospital since the outbreak of the rabies epidemic. Some of the cases were serious, patients having large lacerated wounds, while in some instances they had been bitten through the muscles.

Inquiry at the clinic showed a serious state of affairs regarding the rabies situation and a warning was issued to the public in regard to the folly of treating the peril as a scare. Dogs were dying in and around Montreal from rabies, it was stated, and the cases of persons bitten were still coming into the clinic from Montreal and the surrounding districts.

"The rabies danger in Montreal is by no means at an end," according to a clinic official. "There are more cases now than there were two months ago of rabies in animals."

"It is going to take at least one or two deaths before people's eyes are opened to the seriousness of the situation, and the necessity of co-operation to stamp it out."

AN ATTEMPT TO EVADE THE LAW

Toronto, July 14—"We'll see what happens when he sticks out his shingle," Hon. W. F. Nickle, Attorney-General, declared today regarding the probable action of the Attorney-General's department in reference to the attempt of George Rolie Baird, Toronto, chiropractor, to obtain use of the word "Doctor" by filling a deed poll at Osgoode Hall, to have his name changed to "Doctor George Rolie Baird."

"It would be a palpable case of the use of a name in an attempt to evade the law," he said.

P. R. Smith of Montreal is a guest in the city today.

MIRROR WHIRLED BY LIGHT BEAMS SMASHED IN TEST

Pasadena, Cal., July 14—Dr. Albert A. Michelson, world famed physicist of the University of Chicago, will continue this summer and fall at Mt. Wilson observatory studies of the velocity of light interrupted last year by an accident.

One of the delicate and costly mirrors which were set up on neighboring mountain peaks to volley the light beams back and forth was shattered by the terrific speed at which it was rotated last summer. This necessitated discontinuing the experiments.

To meet such an emergency in the renewal of the studies, three additional mirrors have been made.

Another well known scientist Dr. Arthur L. Day, accompanied Dr. Michelson here, Southern California was chosen as the field for this work because of the numerous, minute earth movements that are of assistance in the study of the larger movements.

THE NATIONAL ANTHEM SUNG BY DEAF MUTES

Cincinnati, July 15—Their fingers and hands moving in perfect unison and rhythm 390 deaf "sang" the "Star Spangled Banner" at the formal opening yesterday of an education center of the Adult Deaf Welfare Society.

The deaf "singers" with the usual attentiveness that marks their endeavors, progressed through the entire rendition of the patriotic refrain and at the conclusion were so thrilled that they clapped their hands in sheer delight. Mrs. William Hoy "soloist" of the occasion directed the "singing."

My. James O. Davis of Ottawa is in the city today.

MARKS DAWN OF A NEW ERA SAYS RHODES

N. S. Premier is Pleased With Appointment of Black as Minister of Railways.

Halifax, N. S., July 14—In connection with the appointment of Hon. W. A. Black, senior member for Halifax in the last House, as minister of railways and canals in the new Meighen cabinet, Premier Rhodes of Nova Scotia today made the following statement:

"Press despatches from Ottawa indicate some surprise that the portfolio of railways and canals should be allotted to the province of Nova Scotia. To one who knows Rt. Hon. Arthur Meighen as intimately as I do, this announcement need occasion no surprise. The prime minister has given a great deal of thought and study to the problems of the Maritime Provinces and he has a sincere desire to address himself to their solution. This was evidenced by the following paragraph of his speech delivered at Wingham, Ont., on September 9, 1925.

Wingham Pledge

"The Maritime Provinces ask for special concessions, too, and the Maritime Provinces, in my judgment, are absolutely right in their demand that their peculiar position in this Confederation be recognized.

The conferring of the portfolio of railways and canals follows as a natural sequence.

"It must not be overlooked that at best the local government is circumscribed in its opportunities to stimulate prosperity. It can by wise administration prudently and economically administer the finances of the province and deal with the necessary provincial services.

Up to Federal Houses

"By sound legislation the provincial legislature can make for a betterment of conditions, but the great opportunity of a real service to the province lies within the field of the federal parliament, and in that sphere the greatest opportunity for remedying admitted injustices under which we labor, lies in the adjustment of our transportation problem. This condition was emphasized by me in speeches made throughout the province during both the last local and federal campaigns, and the sweeping victory of the Conservative candidates last October as well as the huge majority given in individual constituencies indicate that the people of the province share this view.

Dawn of New Era

"The announcement of the appointment of a Nova Scotian as minister of railways and canals, marks the dawn of a new era for this province, indeed for the Maritime Provinces as a whole. It holds out a new and certain hope to us. It is my firm conviction that the administration of Mr. Meighen will be returned with a clear majority, in which event I am convinced our hopes will be fully realized. There should be great rejoicing throughout the Maritime Provinces as the result of the cabinet announcement."

Selling to the Starch Factories. People who have been in Aroostook County lately say that the remnants of the 1925 potato crop is being sold in huge quantities to the starch factories at fifty cents a barrel.

H. S. MacQuarrie of Halifax is in the city.

SPECIAL ATTRACTION AT THE CAPITOL THEATRE

"Hard Boiled" is the photo play at the Capitol for the last half of the week featuring Tom Mix and Tony his horse. The plot centres about the attempts of the desperate gunmen, headed by one Diamond Sadie a bad gal indeed, to get "them there" jewels from the safe at Boiling Springs, and that leads to boiling adventure. Love and lucre inspire Mix to stage a startling rescue and he wins grandly.

Helen Chadwick is as fair as she is fearless, while Emily Fitzroy, Phyllis Haver, Ethel Grey Terry, Dan Mason, "Spec" O'Donnell and Charlie Conklin all help to keep things going.

RIOT SQUAD WAS CALLED OUT BY BOY'S YELLS

Chicago, July 15—Five detective bureau squads armed with riot guns made a hurry up run to the South side last night to answer a riot call because a little boy didn't want to go to the dentist. The boy, accompanied by his father, took a stand on a street corner and started yelling. A crowd of several hundred collected, and because of this somebody turned in several riot calls. When police arrived, the youth and his father had disappeared.

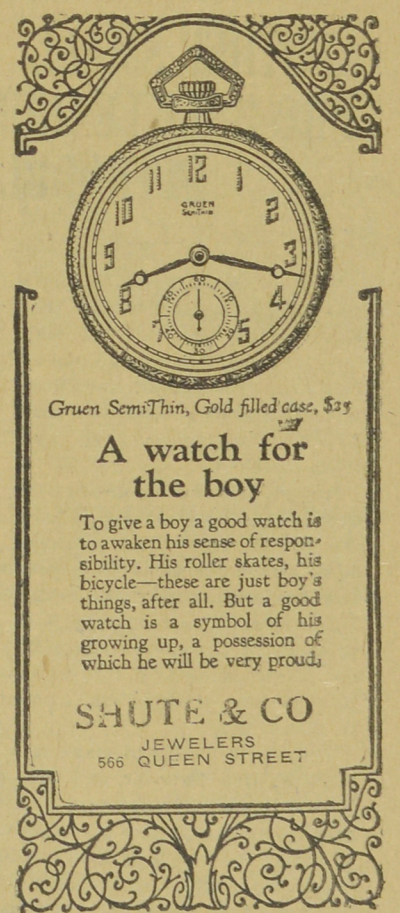

M. W. Willis of Toronto is in the city today.

IN MEMORIAM

In loving memory of Almeda Donnelly, died July 15, 1922.

Do not ask us if we miss her
Oh, there is such a vacant chair
Oft we think we hear her footsteps
And we see her smiling face.
Days of sadness still come o'er us
Tears of silence often flow
Memory keeps us ever near her
Since she left us four years ago.
Gone but not forgotten.

HUSBAND and FAMILY.

Gruen Semi-Thin, Gold filled case, \$25

A watch for the boy

To give a boy a good watch is to awaken his sense of responsibility. His roller skates, his bicycle—these are just boy's things, after all. But a good watch is a symbol of his growing up, a possession of which he will be very proud.

Quality Farm Implements

Hay Loaders

The International Loader has rapidly made its way in Eastern Canada because of its strong durable construction and the conveniences which it possesses that are not found on other Loaders of this type. It is practically all steel which is a distinct advantage when it is necessary to leave the loader out of doors.

The adjustable carrier section permits the delivery end of the loader to be lowered about three feet. Thus when starting to load hay on a windy day with the gale sweeping across the rack, the hay is delivered directly to the man on the wagon where he can catch it before the wind has a chance to blow it off.
