Perth Amboy, N. Y., June 8—When the citizens of this town heard that the taxes were about to be raised, they didn't wait for the ballot box to register their protest.

Instead they smashed chairs and otherwise wrecked the chambers of the board of aldermen and it took twenty policemen to restore order among the 1,000 people who held a demonstration at the city hall.

At a meeting of the aldermen last night, it was revealed that taxes had to be increased to cover a deficit of \$151,000 and pay for \$150,000 new paving.

Somebody said the financial affairs of the city were poorly run.

"Why don't you pay your rent and keep quiet?" an alderman answered the critic. And the fight was on.

CANADA IN THE

FOR BIG LOAN

Ottawa, June 7—The Government of Canada was authorized by parliament today to borrow one hundred and fifty million dollars to retire loans maturing in 1926 and 1927.

Of this sum \$43,000,000 will fall due in New York in October and November of this year. Next year's maturities are nearly all payable in Canada. Hon. J. A. SAYS AUTO  
IS A FEMALE

Rome, June 8—Gabriele d'Annunzio has discovered that the automobile is a woman. In a letter to the director of one of the most widely known Italian automobile concerns, expressing his thanks for the gift of a fine car, he writes: "The automobile is feminine. It has the grace, the nimbleness, the vivacity of a seductress. It has, besides, a virtue unknown to woman: It is obedient." They follow words of gratitude and praise for the machine—in all some two hundred words for what is probably a \$4,000 car. Twenty dollars a word for an author must be close to the world's record.

London, June 8—"If necessary I shall try to model a dictatorship on the principles of Primo De Rivera and Premier Mussolini," General Gomoz De Costa, leader of a successful revolt in Portugal, was quoted as saying in an Oporto dispatch to the Daily Mail.

"Eventually there will be free elections, but that depends on the attitude of my countrymen," he said.

Asked why he imposed a military dictatorship on Portugal, General De Costa said that government by politicians had produced utter chaos in the country.

"There was no stability in our government," he said, "no sooner was a government in power than it was overthrown, therefore the world regards us as a corrupt nation."

"My aim is to correct this. Politics and scheming for power must end. I do not desire civil war but my army fight for my principles."

POTATOES UP  
IN MONTREAL

Montreal, June 7—Failure of foreign buyers to respond to the higher prices asked curtailed the export trade in Canadian grain on the Montreal market today.

The only business of importance transacted was the sale of a lot of tough No. 2 Canadian western oats at 4½ cents per bushel over the Winnipeg July option, c. i. f., Montreal. The car lot trade was quiet but prices were firm.

A weaker feeling developed in the potato situation and prices were reduced 10 cents per bag. This was attributed to larger supplies available.

Reduced Wages.

(Special to the Daily Mail by the British United Press)

LONDON, June 8—New efforts to settle Britain's protective coal strike came today when the miner executive committee accepted the invitation of the mine-owners to attend a preliminary conference. The general belief is that the meeting will be fruitless, owing to the determination of the mine-leaders to refuse to discuss reduced wages or longer hours. Meanwhile the government is taking all precautions to maintain the coal supply. If a serious shortage threatens, the government is expected to import an adequate supply. The government has prohibited pleasure boats in harbors and inland waters from using coal during the emergency unless given a special license.

The coal strike has been in progress now for a little more than a month.

San Francisco, June 8—"Back seat" automobile driving is a just cause for divorce. The state supreme court said so yesterday.

Claude H. Hartman, San Francisco, locomotive engineer sued in the lower courts for a divorce on the grounds that his wife, Jessie, belittled his ability as a driver by constantly telling him from the back seat just how he should negotiate the dangerous curves ahead. London, June 8—Threats have been made to kidnap the Duchess of York, daughter-in-law of King George and Queen Mary, according to today's Daily Mirror which says that an illiterate letter containing the threat has been intercepted en route to Her Royal Highness.

It is understood that the letter mentioned the Duchess impending visit to Sandwich as a guest of Lady Astor as the time determined upon for the kidnapping. A lunatic with a hatred for the entire royal family is believed to have wrote the letter as it is reported that a letter similarly scrawled was received at Buckingham Palace a few days ago.

The Duchess' name has been unusually prominent in the newspapers during the last two months owing to the birth of her daughter, the Princess Elizabeth Alexandra Mary. She is the wife of the King's second son the Duke of York.
